# more ways to Save on your phone bill (Part 3)

Money seems too hard to hold on to these days. Why not make it work better for you. Follow our continuing series on ways to save on your phone bill.

M. Know when direct dialing rates apply. They apply on calls (excluding those to Alaska and Hawaii) if completed from a residence or business phone without the aid of an operator.

### RATE DISCOUNTS AND APPLICATION PERIODS

	MON	TUES	WED	THUR	FRI	SAT	SUN
8:00 AM to *5:00 PM	Day Rate Period FULL RATE						
5:00 PM to *11:00 PM	Evening Rate Period 35% Discount						Eve 35%
11:00 PM to *8:00 AM	Night & Weekend Rate Period 60% Discount						

\*to but not including

On the legal holidays of New Year's Day, July 4th, Labor Day, Thanksgiving and Christmas the evening rate applies all day on dial-direct calls unless a lower rate would normally apply (nights & weekends). On operator-assisted calls the dial-direct discount rate applies only on additional minutes.

N. It's even more important to know the circumstances when dial direct rates do NOT apply. Because an operator must assist on such calls, direct-dial rates do not apply on calls made from coin phones. They do not apply on person-to-person, hotel-guest, credit card or collect calls, or on calls charged to another number.

O. While operator-handled calls cost you more than those you dial yourself, there is an exception. If you run into equipment trouble completing a long distance call you're dialing yourself from a home or business phone, you're still eligible for the dial-direct rate even if you require an operator's assistance. Call an operator and explain your problem to her. If you need help in getting the call through, or in making a satisfactory connection, confirm with the operator that it will be charged at the dialed direct rate.

P. Dial direct, but save even more by making your long distance calls within the time periods when rates are lowest. The lower rates for long distance made in the evening, on the weekends or late at night are described for you in the call guide in the front of your phone book.

Q. The time at the calling point determines the applicable rate period for long distance calls. Save money on these calls, including overseas calls, by referring to your call guide in the front of your phone book for the most economical rate period.

R. Want to avoid excessive long distance charges in general? Try timing your calls, so you can "say it all" without overtime charges. To help you, just jot down the things you would like to discuss.
