more ways to Save on your phone bill (Part 4)

Money seems too hard to hold on to these days. Why not make it work better for you. Follow our continuing series on ways to save on your phone bill.

S. Before you place a long distance call to a business, check to see if they have a toll-free number. You can recognize it because it has an 800 prefix instead of a regular area code. If they have one it's usually displayed in their advertising, or you may find it listed in your own local telephone directory. If so, the call's on them, and you save.

T. If you don't know or can't find an "800" number in the phone book, simply dial your long distance access code, 800 and 555-1212 to reach the "800" directory assistance operator.

U. The information pages at the front of your local phone book are a good source for tips on how to place your calls and how to save time and money in using your telephone. Look in the book, and save.

V. If a coin phone takes your money but doesn't give you your call, you're, of course, entitled to a refund. Use a working phone to dial "0" for "Operator" and tell her what happened. We'll send you a refund in the mail. (We'd also appreciate it if you'd tell the operator the number and location of the phone that's out of order so we can get it fixed as soon as possible.)

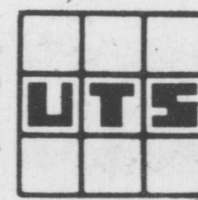

W. Are you going to be away from your home for an extended period of time? Based on how long you will be away, our business office representative can determine if you can save money by temporarily suspending your phone service.

X. Watching that "Payment Requested By" date on your telephone bill will help us properly credit your account. Prompt payments will avoid costly and untimely interruption of your phone service.

Y. Use that convenient return envelope we send with your bill. By sending your payment you can save a trip into the business office.

This advertisement is first in a series of helpful and cost saving tips from your United Telephone Company to help you save money. (And everyone knows saving money is not easy these days.)
