

Mount Joy natators swim hard vs. Millersville

by Sandra L. Gingrich

You would have thought you were sitting out viewing an early season football game instead of watching a swim meet Thursday evening. All you saw were shivering children wrapped in a couple of towels or rolled up in blankets and sleeping bags.

Despite the cold, these children got into that water and swam their hardest against Millersville losing 224 to 190.

Double first place winners were: **10 & under boys-Tim McGarvey, breast & relay; Scott Ney-fly & relay; 12 & under girls-Amy Hess, freestyle & fly; 17 & under girls-Becky Zimmerman, back & relay; Lisa Mummau with fly & relay.**

The parents club who sponsor this group are collecting green stamps to be able to purchase these children a canopy to take to tournaments to shade them. If any parent or relative would like to donate a couple pages of green stamps they can see that any swimmer gets them in the next week to be sent along to a practice session.

The parents have a food sale in the planning stage to be held July 22, 1979, at the Lions Club Pool from 12PM.

Despite these cold mornings you can watch this group of ambitious kids practice everyday with Coach Gene Funk and Becky Zimmerman.

Come out and support them at their next meet, Thursday, July 12, 6:15 at the Mt. Joy Lions Pool.

Make your new home a 'NEW' home from the start.

NEW stands for the National Energy Watch — a nationwide program set up by electric utilities to recognize homes that are energy efficient.

If you're planning to build, the time to make your home an energy saver is while it's under construction. NEW provides guidelines to assure your home will be energy efficient when it's completed.

Doesn't matter if your home is in the blueprint stage or already under construction, just call us to find out

NEW's requirements. Our residential consultant also can answer questions on additional energy savings and suggest other improvements.

And, NEW is not just for "new" homes...older ones can qualify, too! Ask for a PP&L residential consultant to come out and give your home a "NEW" inspection.

Don't delay...join the National Energy Watch today.

If you're building an electrically heated home, ask about our Energy Efficient Home Award (EEHA) program in cooperation with area builders. EEHA homes automatically qualify for NEW membership.
