

School board postpones decisions on limiting student driving to school, away trips for band

Donegal School Board meeting last Thursday night decided to postpone final decisions on recommendations from I.U. 13 on saving gasoline.

The recommendations:
 1.) limit student driving to school.
 2.) allow only two band trips to and away from football games this fall; and
 3.) cancel any non-league

games not finished on account of bad weather.

The board decided there were too many important unknowns at this time to make sensible decisions.

For example, if other schools are planning different schedules for their bands, conflicts might arise as to which bands are playing where, when.

Donegal's green track to go metric

Donegal High School's green track, the source of bitter controversy several years ago, will be converted to metric. The track will no longer be 440 yards around, but 400 meters. This will involve shortening the track only slightly; 400 meters is 437.4 yards, only 2.6 yards shorter than previously.

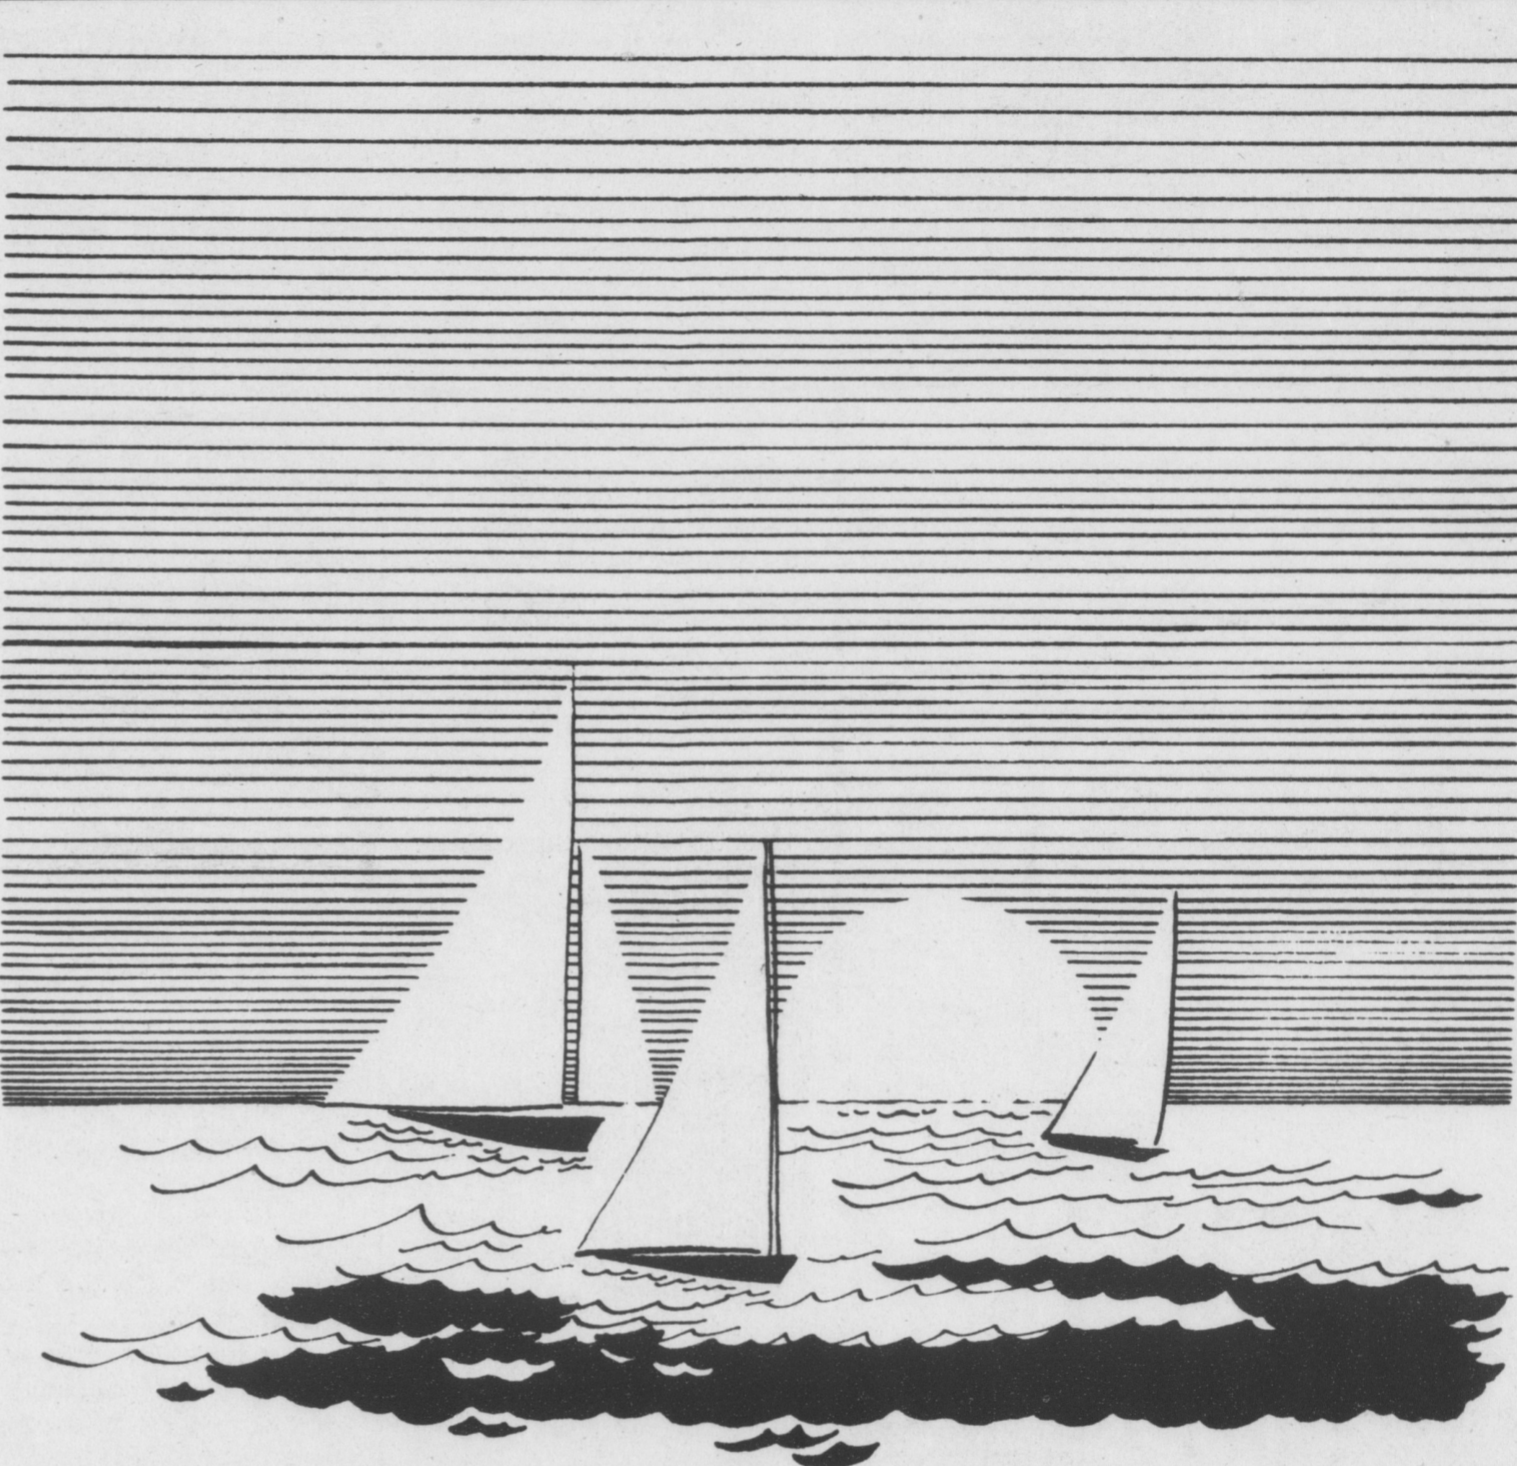

The contract for the track, which includes patching it and covering it with a green sealer, was awarded to low bidder, Zemco Corp. of Baltimore, which came in at \$13,000.

The board is also considering resurfacing the tennis courts during the next summer.
