Send us your kids' cute sayings

A Mount Joy Sunday School teacher about the births of John the Baptist and of Jesus. The children learned that Mary and Joseph were the parents of Jesus and that Elisabeth and Zachariah were the parents of John.

Next Sunday the teacher reviewed what they had learned the week before.

The children remembered the names of Jesus' parents

well: Joseph and Mary, but had more trouble remembering John's.

Finally, a little boy remembered the name of John's father: Zachariah. "Good," said the teacher, "and, now, what was the name of John's mother." "Mrs. Zachariah," said the boy, with assurance.

In a Mount Joy School the children learned to sing

"America the Beautiful."

Then, the teacher asked the pupils to draw pictures, illustrating some of the lines in the song.

One little boy drew an airplane, covered with colored pictures of grapes, oranges, apples, bananas, and other fruits.

"What's that?" asked his teacher.

"The fruited plane," replied the student.

Penguins have "built-in" insulation against cold weather.

So should your home.

Now's the time to check your home to be sure it has enough insulation. By insulating, you'll help hold down your heating costs this winter. Improving insulation in your home can reduce energy waste by as much as 30 percent...which means big savings for you. Plus you can get tax credits for certain energy conservation measures.

Here's what we recommend:

- Ceiling — R-30** — about 10 inches of insulation
- Walls — R-16** — full thick wall insulation with insulating sheathing
- Floors — R-19** — about 6 inches of insulation

NOTE: The "R" number is a standard industry designation which indicates resistance to heat flow. The higher the "R" number the more effective the insulation will be.

A few more things to do now to keep your home comfy in cold weather: check caulking and weather stripping around windows and doors • install storm windows and doors • clean or replace dirty furnace filters • seal drafts around receptacles and switch plates

Get your home ready for winter now.
A home that's fully insulated is a home that's "Got It!"
