“We compared phone systems and chose United Telephone”

Left Vernon Trimble and Roger F. Ecolono, co-owners Greencastle Ford.

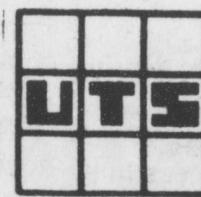

Growth is an important objective of a progressive business. Greencastle Ford's highly competitive co-owner Roger Ecolono quickly realized however, "That our firm's rapid growth was placing a strain on our telephone system".

Roger called Jean Trace, United's area Sales Representative. United's professionals evaluated the existing telephone system and worked with the people at Greencastle Ford to determine their individual requirements. An automatic dialer with a capacity of 1000 pre-selected telephone numbers became part of a solution to Roger's particular problem.

The United Telephone Company, drawing on its extensive experience and resources, was also able to offer Greencastle Ford management the choice of expanding the existing telephone system or replacing it with an advanced electronic system.

Telephone service is an important part of your business. Why not get a professional to assist you. Our consulting service is free and we can offer you various pricing options. Call today and ask for a communications consultant.

Deb Torres & M Hildebrandt exhibit dancing at PUFA meet

Two Donegal students, Deb Torres and Michelle Hildebrandt, will be the featured performers at the PUFA meeting on Monday, February 11, 1980, in the Donegal High School auditorium. These two talented young ladies will present a program exhibiting their virtuosity in the area of dance. The program is open to the public free of charge. PUFA urges the public to support the performance which will begin at 7:30 pm.

PUFA wishes to congratulate Sherri Kinsey and Mitch Johnson on achieving their 1000th point in their respective basketball games recently. Both Girls and Boys Basketball teams are to be congratulated on a fine season.
