

Answers to last week's puzzle

Chiques AAA banquet

The Chiques Adult Athletic Association will hold its second annual award banquet Saturday, April 12, at Mr. Lacy's Lounge, Marietta. The banquet will begin at 7 pm.

All men and women athletic participants interested in coming to the banquet must contact their team captain or call Mike Lippold before March 30, 1980.

Employees stand behind the counter of the new Rutter's Farm Store located at the corner of Rt. 441 and Bank Street. The store is celebrating its grand opening this weekend.

Rutter's Farm Stores opens store at 441 and Bank St. in Marietta

York County-based Rutter's Farm Stores this week opens the chain's 36th convenient store and its second in Lancaster county.

The new convenience store, located at Route 441 and Bank Street in Marietta, will feature Rutter's Dairy products, grocery and convenience store items, Mobil gasoline, and a fully stocked delicatessen department featuring fresh salads.

The local outlet, which is managed by Jeff Flemmens, Marietta, is conducting a grand opening Thursday, March 27, through Sunday, March 30. Door prizes are offered in a free drawing, and the opening also features reduced prices on a number of dairy, delicatessen, and snack products.

"Marietta is unique," Michael N. Rutter observed,

"and we're pleased to become part of this historic and culturally rich community."

The family owned dairy was founded in 1921. The first of Rutter's Farm Stores was opened in 1968, and there are now 36 outlets in York, Adams, and Lancaster counties, with construction underway on four more stores.

CALL US FIRST, BEFORE YOU DIG

Any time you dig with a shovel or contracting equipment, you **must** check for underground utility lines or cables at least three working days before you begin. If you or a contractor hit any of these lines, results can be very costly to you and potentially dangerous to practically everyone.

Dig smart. Call Pennsylvania's One Call system and we'll mark the location of any underground cables or lines near your digging site.

IT'S THE LAW

Federal and state laws require excavators to check before digging so that they will not disrupt vital services or cause bodily harm.
