

Donegal baseball team boasts strong pitching

Coach Al Brooks of Donegal High School's baseball team characterizes his team as "young," but possessing "excellent pitching."

"Pitching is our real strength," he says.

In addition to Mitch Johnson, who has been getting a lot of attention from big league scouts, Donegal also has on its pitching staff: Monte Maurer, a senior; Bill Gutshall, another senior; and Steve Neal, a junior—all good pitchers.

The big question this year, according to Coach Brooks, "is whether we can hit well enough to back up our pitching."

Eight starters were lost by graduation from last year's team.

The starting third baseman is a 9th grader, Darrel

Risberg. Other starters are: Steve Neal at shortstop, when he is not pitching; Mike Frey, a 10th grader, at 2nd base; Jeff Duke, an 11th grader, or Mitch Johnson, when not pitching, at 1st base; one of two 11th graders as catcher, Daren Kulp or Phil Spickler; Steve Drace, senior, in left field; Monte Maurer or Joe Althoff in centerfield; and either Spickler or Dave Eichler in right field.

This Tuesday the Indians play Elizabethtown, last year's champs and this year's favored team in the section.

Thursday Donegal takes on Warwick. Both games will be played here starting at 4 p.m.

According to Coach Brooks' description of his team, both games should be interesting, especially if Donegal's young wielders of the bats make them connect.

'Largest team ever' says track coach

Rudolf Milovanovic, boys' track coach at Donegal High School, says, "We have the largest track team ever, so far as numbers. There are lots of young people, to make up for a lot of people we lost from last year's team. Most of the people doing the scoring are underclassmen. We're rebuilding, and some of the results so far are good."

Reuben Stoutzenberger is a versatile performer. He hurls the javelin, leaps the high jump, and runs 800, 1600, or 3200 meters (only one of the races per day, of course).

Vince Curry is doing a good job in the 100, 200, or 400 meters races. Coach Milovanovic says Curry

"takes his running seriously and works hard."

Joe Palmer is doing well in the 1600 meters. So is Steve Kunkle, who also high jumps. Palmer and Kunkle are both sophomores.

Al Bundy, a senior, runs the 100 and 200 meters, but his specialty is the triple jump. Last year he equalled Marty Heisey's long-standing record in the 3-time jump. This year Bundy has triple leaped 42 feet, 5 inches.

Tuesday the Indians race Warwick here, and Thursday go to Garden Spot. Both meets start around 4 p.m.

Coach Milovanovic has high hopes that several individuals will be going to "states" this year.

Track coach has girls 'thinking like winners'

Chuck Portser, coach of the girls' track team at Donegal High School, is working on a program to get the girls to "think like winners, like champs."

He has a very young but very talented team, and they are all working hard. "It's only a matter of time," says Portser, "until the hard work pays off."

The up-beat mood of the team was best summarized by Michele Donovan, who said, "I like running the mile."

Coach Portser would like "to have more numbers," that is, more girls out for the team. (So, if you are a

female student at DHS and were thinking about going out for track—why don't you do it?)

Coach Portser sees great hope for the future in his "Kiddie Corps," made up of 9th and 10th graders: Betsy Marley, Terri Meszaros, Kathy Forker, Michele Donovan, Karen Mummau, Robin Wittel, Kyra Vandergrift, Mary Ruhl, Lisa Hoffman. They are all "very good," says Coach Portser.

Then there are the outstanding juniors: Beth Gainer, distance runner; Patty Freedy, middle distances; Lauren Donovan, [continued on page 6]

This is a view of the Marietta Avenue bridge from the railroad track below. The one sidewalk on the

bridge will be eliminated, and the bridge deck will be widened to correspond to the street width.

Plans made to rebuild Marietta Avenue

PennDOT has announced plans for the rebuilding of a large portion of Mount Joy's Marietta Avenue. The street will be reconstructed from Main Street to New Haven Street. The road will be resurfaced to School Lane.

At a meeting last Wednesday night, residents were told that PennDOT would like to replace all of

the curbing along the rebuilt street. It was explained that it would cost less for a contractor to replace large stretches of curbing and sidewalk than for spot replacement to be done.

75 percent of the project is being funded by the Federal Highway Administration, and the curbing and side-

walk replacement would be included in this. This means property owners would pay 25 percent of the curbing cost.

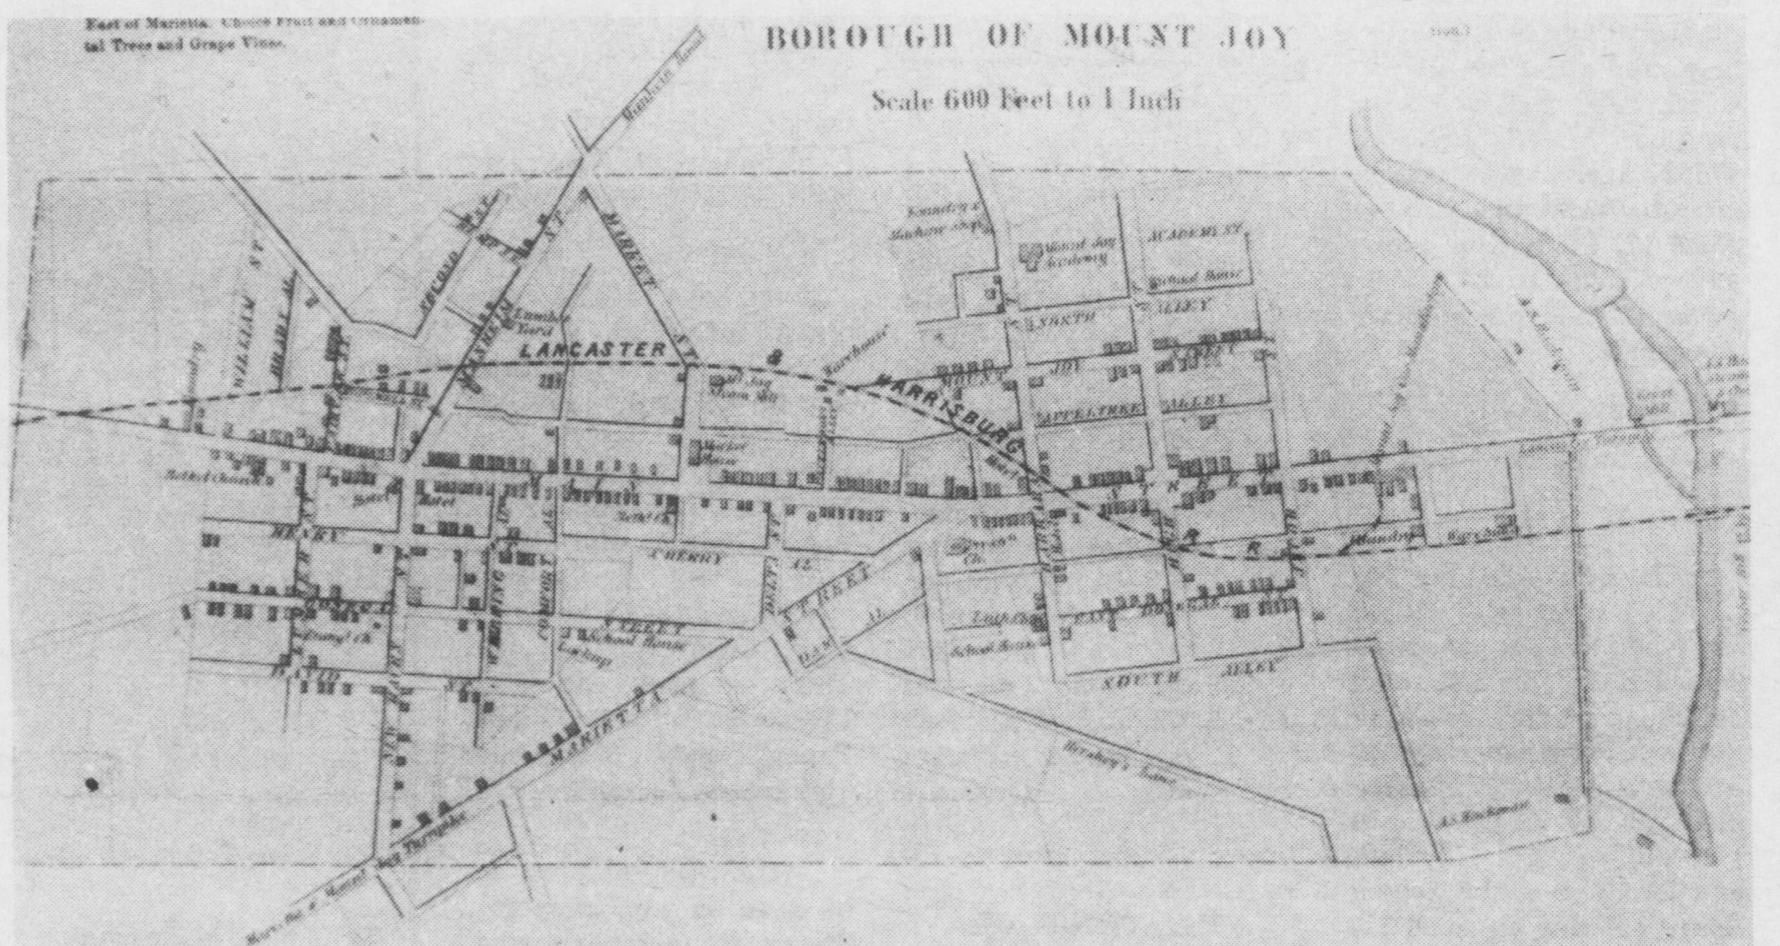

It has been estimated that a 40-foot stretch of sidewalk and curbing would cost each owner \$288.

During the street rebuilding, PennDOT also plans to widen and replace the deck

of the railroad bridge on Marietta Avenue.

The western sidewalk on the bridge would be eliminated so the deck would be the same width as the street.

Residents were told that a detour which could last six months will be set up. The bridge is expected to be closed for two months.

Above is a photograph of an 1864 map of Mount Joy. The map is from Bridgen's "Atlas of Lancaster Co., Penna." published by H.F. Bridgens, Philadelphia.
