United Tel. offers films

The United Telephone System Free Film Library is now accepting bookings for its 1980-81 season according to Don March, Community Relations Manager. Another busy season is expected. During 1979 the library reported over 3,000 showings and 90,000 viewers.

The library's 55 films are scheduled on a first come-first served basis. Interested schools, groups and clubs should make bookings immediately. A complete catalog with ordering information is available at the local United Telephone business office or Phone Shop.

"The library's 55 titles offer something for every age group and cover a wide range of current subjects including biology, conservation, science, energy, economics, metrics, drugs and alcohol abuse, safety and other general information subjects. And we've added a number of new films to keep the information and content as current as possible," concluded March.
