

Little People (cont.)

[continued from back page] says. "The Department of Education just loved our location. The park is really a wonderful plus for our school."

Parents interested in having their children attend the kindergarten program this coming fall are reminded that students must begin September 2 in order to meet state requirements. The school, open 6:15 am to

1:00 am, Monday through Friday, can serve up to 105 full-time students. Part-time positions are also available.

For those wishing to know more about the Little People Day Care School, an open house will be held Sunday, August 24, 1:00 to 6:00 pm. The school is located along Route 441, on top of Chiques Hill. Interested parents can phone 684-0711 for information.

Something Wonderful has Happened

Through the research efforts of a few men and women working together to find a way to stop air pollution caused by smoke, we have reached our goal. We have developed an all organic solution that will completely stop the devastating pollution of the air caused by smoke.

Our solution, together with specially designed equipment, will stop smoke pollution.

Our method has proved effective in controlling the smoke of the following materials: all oils tested; coal; wood; paper; rubber; vinyl; and gasoline.

So far we have not found any material that is not effected by this new miracle organic solution. It completely stopped all smoke when properly applied.

As a result of research conducted to stop smoke pollution some other valuable materials have been discovered. These were found to be far more effective than products that have been in use for many years.

One such material is now available for public use. FORMULA 12 is a solution which has been proved effective in putting out oil, grease and other petroleum fires. FORMULA 12 does an excellent job on most any fire that could break out around the home.

FORMULA 12 is available in 15 ounce aerosol cans for home use, and for Fire Companies and industrial users it is available in one gallon and five gallon cans and 55 gallon drums.

FORMULA 12 is completely safe for use anywhere. It is so harmless that if a child were to accidentally drink some of the solution there would be no harm done.

If a person were trapped in a burning vehicle, FORMULA 12 could be sprayed into the fire and on the victim without any harm. In fact, the ingredients in FORMULA 12 are soothing to a burn.

FORMULA 12 is manufactured by:
