Craft Show and Sale at Guernsey Pavilion

More than seventy-five craftsmen will be displaying, demonstrating and selling their work on Friday, Saturday and Sunday; November 7, 8 and 9 at the intersection of Route 896. This Eighth Annual Fall Craft Show and Sale is sponsored by the Conestoga Valley Chapter of the Pennsylvania Guild of Craftsmen. Show hours are 10:00 am to 9:00 pm on Friday, and 10:00 am to 6:00 pm on Saturday and Sunday.

Pavilion visitors will be able to see and buy many unique handcrafted items on display. Weaving, pottery, woodworking, jewelry, mac-

rame, fraktur, tole and theorem painting, briar pipe making and stained glass are a few of the crafts that will be available.

All participating craftsmen are highly skilled and have met the standards of The Pennsylvania Guild. Shoppers and visitors will be able to watch many of the craftspeople at work, talk to them about their crafts and examine individual, one-of-a-kind examples of their work.

This year, as an added attraction, one area of the Pavilion is being set aside for the showing of movies on various colonial crafts. The films will be shown during regular craft show hours.

Area residents sought for heart disease study

One-time heart attack victims between the ages of 28 and 64 are urgently needed to participate in a study which addresses the number one killer in America today—heart disease.

With heart disease claiming 800,000 lives annually, the National Institute of Health is sponsoring a \$21 million research effort conducted at four centers across the country to explore the role of lowered cholesterol in the treatment of heart attack victims. In a new procedure which lowers cholesterol to an unprecedented level, re-

searches hope to find conclusive evidence that maximal reduction of this fatty substance will significantly reduce the risk of heart disease.

The newest center, which brings the study to the East Coast, is located at The Lankenau Hospital in Philadelphia. Transportation from the Donegal area and hotel lodging are provided at no cost. Persons 28 through 64 who have suffered only one heart attack, within the last five years, are urged to contact the Hyperlipidemia Study for more information. Call, toll free, 1-800-326-5244.
