make the mess less.

IN-SINK-ERATOR DISPOSERS DO MORE.

There have to be good reasons why more In-Sink-Erator disposers are sold and installed every year than any other make.

Our grinding ring, for example, is the strongest made. It's the core of our disposers along with our own ISE-made electric motors.

Then we add the extra things. A tough polypropylene shield protects against interior corrosion. Automatic reversing action extends the life of the grinding elements.

So ask for In-Sink-Erator next time. To make your mess less... we make our disposers do more.
