"Female" Bachelors Multiplying. To read day by day of the number of female bachelors that are being turned out by the colleges is something quite

We shall see some astonishing figures when the next census is published in full. Already one doctor in every tweny-five is a woman, and one twenty-eighth of all the preachers are women. One-eighth of college professors' chairs are now Simpson-Well, Mr. Perkins, I filled by women, while one journalist out elp you out any; the man who of every twenty is a woman. In telegra-es to me, Mr. Perkins, shan't phy and clerking women show signs of yet taking the whole field.

While such facts are multiplying, it i notorious that the marriage rate is steadily falling. The whole face of society appears to be changing, for the woman with a diploma is not looking for a husband. She is a bachelor.

The problem of industrial independence is gradually being solved through the new order of society which puts wo man so largely at the helm of the world's affairs. This, however, is not the only problem to be solved. When the world becomes full of women doctors and lawyers and professors, somebody must provide the material to be preached to and cured and taught—else the bachelors will ultimately find themselves loaded with

What the World Demands.

The world does not demand that you become a great lawyer, a great physician, or a great merchant; but it does require that you shall so carry yourself through life as to uplift and not blight your fellow-men; so as to help and not hinder, so as to elevate and not degrade hem. It does ask that you shall not gain riches by impoverishing those who help you to become wealthy, that your dollars shall be clean and not smirched with the guilt of trying to get ahead of your competitor by sharp practice; it demands that your wealth shall not be stained with the blood of widows and orphans, that you shall not lift yourself up by tearing others down.

The Dray Horse and the Racer.

"All that hinders me from being as fleet as you," the dray horse said to the racing horse, "is this long hair on my fetlocks. It impedes my motions. If I could have it cut off I would run against you, best three in five."

'All right," replied the racer, "I will emove that long hair for you, and we will have a go.' So he gnawed the dray horse's fet-locks free from the long hair and the

two ran a race, with the result that the dray horse was ignominiously beaten. But the racer jeered and laughed at him so scornfully that the dray horse kicked him to death.
