THE BULLET HIT THE WRONG MAN. And Germany Demands an Indemnity

From Uncle Sam.

AMERICAN KNOCKED OUT BY GERMAN

An Episode in Pekin That Has Given Rise to a Claim by the German Government Against the United States-German Officer, Disregarded a Challenge and Knocked Down the Sentry.

Washington (Special) .- The last mail from the East brought a detailed newspaper account of the shooting affray at Pekin which has resulted in a German claim against the United States. The account, which appears in a Japanese newspaper, states that an American sentry had been posted at the western extremity of Legation street, close to where the new American legation is building. That portion of Legation street was being newly macadamized and rolled. A barricade had been put up and Major Robertson had posted a sentry on the spot to warn persons not to ride over the newly made road, pedestrians only being allowed to traverse it. A German officer came riding along, knocked down both the sentry and the barricade, and galloped across the forbidden route. The sentry scrambled to his feet and sent a shot after the officer, but missed, and the bullet lodged in the leg of a German sentry standing on duty half way down the street. The newspaper says that the American was sentenced to one month's imprisonment and fined a month's pay, 'presumably for hitting the wrong man. It is now apparent from mail reports which have just reached the State Department from China that it was solely through the moderation and humanity exercised by the United States repre sentatives at Pekin by the President's direction in the early negotiations for a settlement of the Boxer trouble, number of innocent lives were not. crificed. These reports show that a more sober and painstaking inquiry has developed the fact that some of the Chinese officials supposed to have been connected with the Boxer outrages, whose capital punishment was demanded by the foreign ministers, have been proved to be entirely innocent of the charges made against them. In many other cases proof has been adduced that the offenses with which the Chinese officials were charged were not nearly so grave as was sup-posed at first by the foreign representatives in Pekin.

CORN CROP SITUATION.

Drought and Heat Destroying Millions of Bushels. otherwise unhurt.

Chicago (Special) .- Advices to Loard ot Trade and grain commission houses are that the drought in the Southwest is unbioken. it is said the damage outside of Kansas and Missouri is comparatively slight, but that unless there is relief with in to days the corn-crop situation will

approach a calamity. A message from Topeka, Kan., declared the prospects are for a crop of only 50,000,000 bushels of corn, although last year's crop was 163,000,000 and that of the previous year 237,000,000 bushels. The loss on hay and potatoes is also great-second only to the loss on corn. It is estimated that the farmers of Kansas and Missouri already have sustained

ILS KILLED. THREE HUNDRED Mission on Korean Island Attacked By Na tives--Conflict Covered Ten Days.

Berlin (By Cable).—The Cologne Gazette publishes a dispatch from Seoul. Korea, dated July 6, saying that bloody conflicts, extending over a period of 10 days, have occurred on the Island of Quelpart between the Roman Catholic missionaries and their pupils and the populace of the island. Fifteen of the natives and about three hundred of the pupils are reported to have been killed during the encounters.

The governor of Quelpart, according to the dispatch, says the trouble was the fault of the pupils, and arose from their support of the tax collectors in

levying illegal taxes upon the natives. Upon hearing that two French missionaries had been killed in the island a French warship proceeded to Quelpart. Upon finding the misionaries in question alive the warship returned.

The Korean government has commissioned Huan Kian and an American court official to investigate the matter, and is sending a company of Korean infantry with them to Quelpart.

Quelpart is in the Yellow Sea, 60 miles south of Korea, to which country it is subordinate. It is a penal settlement

GRAHAM AGAIN GOES DOWN THE RAPIDS.

Fifth Successful Voyage in His Barrel Through

the Raging Niagara Current. Niagara Falls, N. Y. (Special).-About 3000 persons saw Charlie D. Graham make his fifth successful voyage through the whirlpool rapids in a barrel Sunday afternoon. The barrel is of locust wood, oval shaped, except that it has a flat head; it is about 5 feet long, 19 inches in diameter at the foot, and 26 inches at the head. With its 100 pounds of ballast it weighs 165 pounds.

The start was made from the old Maid of the Mist landing below the falls. The barrel was caught in an eddy and circled about a little above the cantilever bridge for a quarter of an hour. The stronger current in the middle of the stream finally jerked it out of the eddy ry. into the foaming waters of the rapids. Passing under the second bridge the town, Mingo Junction, Girard and Pombarrel had a narrow escape from being dashed to pieces against the stone abutments of the bridge. The passage through the rapids was swift.

It took the barrel five minutes to reach the eddy from the starting point and 20 minutes to get out of it, but it only took through the rapids and the whirlpool, a distance of about a mile. At no time taken from the water after it had circled about in the whirlpool for a few minutes. Graham was slightly bruised about the elbows and knees, but he was

later came to see things differently ccided that when I was 60 I drop the work. But I don't give the matter any thought now."

Epidemics of suicide frequently occur, just as epidemics of contagious diseases. All works on criminology, as well as medical treatises, recognize a distinct class of cases, which are called "imitational criminals" and "imitational suicides." It is well known that persons with an innate or hereditary tendency toward crime are easily influenced by suggestion. From the psychologic standpoint every one is more or less suggestible. Criminal tendencies are more common than one would suspect and are likely to break loose in most unexpected quarter states the Sunny South.

Mercantile and industrial co-operation is making rapid strides in California, according to a statement by J. S. Clark, one of the leading organizers of the movement in that state. Between 30 and 40 business houses in the state are operating on the co-operative plan. Each house was started as a grocery, with just capital enough to stock it, but with an assurance also of sufficient patrons to keep it moving. One hundred and fifty families are thought sufficient to make the running of a grocery store profitable, and 100 more families added warrants the broadening of the business.

Mr. Rockefeller gave a hard prescription to the graduating class of Chicago university in saying to them: "If you are to succeed in life it will be because you are masters of yourselves." A wiser than Rockefeller said that "he that ruleth his spirit is greater than he that taketh a city." Self-mastery of a strong nature is the greatest of victories. A man who is ruled by his temper or by any other of his passions is not master of himself. One who is the slave of any appetite has a cruel master. Mastery of self means more than self-controlit includes self-possession; the absolute power over and direction of all

faculties of mind and body. Very ien have complete mastery of and this is perhaps why there ively so few complete and turned into a bedlam. the higher | ter

KILLED BY A MANIAC.

strewn with corpses.

Traveler Meets a Tragic Fate While a Passenger on a Train.

Rawlings, Wyo. (Special),-A man named Rogers was shot to death by Ned Hadley Copeland, on the Union Pacific train No. 6. Copeland was traveling from Stockton, Cal., to Council Bluffs, When at a point three miles east of Wamsutter he walked into the car where Rogers was sitting and at once began shooting at him, saying: "There, take that." He shot three times, the bullets entering Rogers breast and he died instantly. Copeland was arrested and is now in jail here.

When asked what caused him to kill Rogers, he said: "He had me hypnotized and I had to do it."

Copeland is undoubtedly out of his mind. As the killing took place in Sweet Water county, Copeland will be taken to Green River and turned over to the authorities there.

Boers Capture a Gun.

London (By Cable) .- A dispatch from Lord Kitchener, dated at Pretoria. says the Boers attacked a constabulary at Houtkop, in the Transvaal, July 11, capturing a 7-pound gun. He also says Boers were eventually driven off. The British loss is given as three men killed and seven wounded. A noisy scene in the House of Commons arose from a question as to whether the British wounded were left in the hands of the Boers at Vlakfontein. Lord Stanley, financial secretary of the war office. declared the war office had no information on the subject.

The F rst on Record.
