## CASSEL FOR CONGRESS.

Choice For the Place Decides to Become

## a Candidate.

As the readers of the Bulletin know; this paper advocated Hon. H. Burd Cassel, of Marietta, as a succes. sor to Brosius, in an editurial article in our issue of June 22. Mr. Cassel has decided to become a candidate. and in another column will be found his announcement.
H. Burd Cassel was born in Marielta, this county, October 19, 1855, and is, therefore, emphatically one of our own people. His father, the late Abram N. Cassel, was one of the most prominent sitizens of the cuunty, dying a few years ago at the age of eighty-five years, after a long and succersful business career. He not only filled many stations of public trust, but served several terms in the State Legislature with prominence. H. Burd Cassel, after passing through the public schools of Marietta, finished ris education at the Columbia Classical institute. At an early age he became interested in the lumber business with his father, becoming sole peoprietor of the same upon the latter's death, and which he still continues. Like his father, he has always been a staunch Republican, and became interested in politics at an early age. His first political office was as a member of the County Committee, in 1881, the year in which Judge Livingston was renominated without a contest. He subsequently became Cbairman of the County Committee, in 1893, without opposition, that be ing the first time in years that a Chairman was elected by acclamation. He was sent as a delegate to the National Convention held in St. Louis in 1896, and in 1898 he was nominated and elected to the Lower House of the State Legislature, where his father had served fifty-nine years before. He was re-elected in 1900, and is now a member of that body. He has served his constituenty with marked ability and success, and his appointment to important commitees, that of the Judiciary General, Ways and Means, Public Buildings, and others, ndicates in what esteem his abilities were held.
Mr. Cassel has always been an im. portant factor in the civil life of his community, a
