## SOUTH AMERICA CAUSES ALARM.

### Relations Between Venezuela and Colombia Are of Serious Character.

### EXCITEMENT HIGH IN VENEZUELA.

Should the Situation Continue Critical, the Gunboat Machias Will Be Dispatched to Bocas del Toro—The Insurgents, Who Occupy Provision Island, Are Commanded by a Nicaraguan.

Washington (Special).—The latest development in the Venezuelan-Colombian situation, viz., the withdrawal of the exequaturs of all the Colombian consuls in Venezuela, has increased the feeling of officials here that the relations between the two countries are still of a very serious character. In diplomatic circles especially the condition existing between these two republics is viewed with alarm, though their representatives here are without any recent information that will throw light on the situation. The withdrawal of the exequaturs of consuls is a decided demonstration of unfriendliness to the country they represent, and leaves them powerless to transact any business. Such action usually accompanies a declaration of war or a state of hostilities. In the present instance it follows the withdrawal of the Colombian minister, Dr. Rico, from Caracas to Bogota. The latter's departure followed a stormy scene in the Venezuelan cabinet as a result of an effort of President Castro to give Dr. Rico his passports. Dr. Rico's subsequent leaving was entirely voluntary, but he felt that the situation between the two countries was so serious that it was preferable to communicate with his own Government in person rather than through the mails.

The officials of the legations of the countries interested continue hopeful that war may be averted. The Colombians say that the people of both republics are opposed to any war and that the present troubles are due to the machinations of individuals with personal ends in view. The navy department has been advised of the sailing of the battleship Iowa from Acapulco, Mexico, for Panama, where she has been dispatched to look out for American interests during the revolutionary troubles on the Isthmus.

### SHARP FIGHT IN THE PHILIPPINES.

### Colonel Gracia's Two Officers and Fifty Rebels Killed in a Battle.

Manila (By Cable).—Later accounts of the recent engagement in Batangas Province between Capt. H. C. Hale, with a detachment of the Twentieth Infantry, with the insurgent leader, Gonzales, show that it was more important than it was first considered. Many deserters and renegades were seen and heard giving commands in English. Colonel Gracia's two officers and fifty men were killed after an engagement lasting three hours. Everything points to the early capture or surrender of Miguel Malvar, the insurgent leader. When either event occurs everything will be favorable to the establishment of permanent peace. It is in the plans of the military authorities, as a first step toward reducing the force, to make two departments instead of four, which would result in a considerable saving. The headquarters of one department would be Manila and of the other Iloilo. Each day shows an increasing number of surrenders and captures in all the disaffected districts.

### PLOW MANUFACTURERS WILLING.

### The \$50,000,000 Trust Will Soon Be a Reality.

Chicago (Special).—Nearly 30 plow manufacturers of the United States were in session here discussing plans for a consolidation of all the plow interests in the country. After a meeting it was announced that the proposed consolidation is practically assured and that about \$50,000,000 will be represented in the organization. The New York Guarantee and Trust Company has made a proposition to the plow manufacturers to engineer the deal, and a large majority of them, it is said, have signified a willingness to enter the combine.

### No One Starving in Texas.

Dallas Texas (Special).—Advices to the News show that the reports of the drought in Zapata county have been much exaggerated. Representatives of Seabury, who represents Zapata county in the Legislature, has letters from friends in various parts of the county advising him that the reports of people starving to death are unfounded. There has been no suffering, for while some have not made sufficient crops for their own subsistence, the better classes are willing and able to sustain the less fortunate. This is being done, rendering outside aid unnecessary, Representative Seabury says.

### Accident After a Wreck.

Phoenixville, Pa. (Special).—A north-bound passenger train on the Schuylkill Valley Railroad collided with a freight train at Spring City, near here. A number of persons were slightly injured and several cars were wrecked. One of the freight cars was loaded with cans of oil, which exploded, setting fire to the train. The Spring City and Royersford fire departments extinguished the flames. While the wreckage was being moved from the track one of the cars slipped from the derrick, killing George Graham, of Spring City, and injuring three others.

### Masked Robber on a Train.

Sydney, N. S. W. (By Cable).—A masked cyclist held up the White Cliffs-Hilcania mail coach, wounding a passenger, secured the mails and opals valued at £1400 (\$7000) and escaped.

### Stage Play.

Havana (By Cable).—A French play, which had been produced at the Theatre by a Frenchman, is entitled "Le Sam." Senor "an insult to the honor of the nation." We have by the outburst of all the century.

### STRIKERS PAID IN

### Many Thousands Strong of Labor Day.

### THE INTEREST WAS NEVER SO GREAT

### The Parade Was Interspersed With Many Bands—The Best of Feeling Prevailed and There Was No Disorder—With the Dismissal of the Parade There Was a General Exodus to Ross Grove.

Pittsburg (Special).—Pittsburg was given over to Labor Day to the sons of toil, who paraded the streets in a strong in celebration of Labor Day.

The interest, owing to the amalgamated strike, was never as great here as this year, and in the afternoon were workmen from almost every trade in this great industrial centre. The parade started about 11 o'clock and was in four divisions. The first division was made up of the Amalgamated strikers, with President T. J. Shaffer in command. It was one of the largest divisions, and the strikers were greeted with enthusiasm all along the route. A feature of the parade was a long line of industrial exhibits, illustrating the active workings of trades and manufacturing business.

The parade was interspersed with many bands. With its dismissal there was a general exodus to Ross Grove, where a reunion of the allied trades of Western Pennsylvania was held. Addresses were made by President Shaffer, Simon Burns, of the Window Glass Workers' Association, Wm. J. Brennan, George J. Churchill and others.

President Shaffer said in part: "We look about and see that the original command to humanity. By the sweat of thy brow shalt thou earn thy bread is still true; but many men are unable to earn their bread. Despite the fact that they are willing to do so. There are times when they are not permitted to fulfill the command. They cannot earn their bread because they are not properly remunerated for their toil."

### EDITOR TARRED AND FEATHERED.

### Disguised Men Handle Him Roughly for Alleged Attacks.

St. Paul, Minn. (Special).—W. S. Cox, editor of the Brainerd (Minn.) Arena, was kidnapped by three men, taken into the country and tarred and feathered.

Mr. Cox and a friend, Fred Stout, were calling on two young ladies. The four were sitting on the front porch when three men with false beards and painted faces suddenly appeared and made Cox a prisoner. The men drove two miles and halted. Then, while one man held Cox, a second covered him with a revolver and the third took off his hat and poured the tar over his head and shoulders. The men left him to find his way back to town.

The probable reason of the rough treatment of Cox were alleged attacks in the columns of the Arena on several men in Brainerd.

### KILLED BY HER ANGRY LOVER.

### She Was Only Fifteen, and Refused to Marry Him Until a Few Years Older.

Philadelphia (Special).—Lucia Pasqua, aged 15 years, was shot and killed by Carmine Picardi, aged 25, who afterwards killed himself. Carmine and Lucia were sweethearts and the young man had frequently urged the girl to marry. Her parents favored the suit, but objected to their daughter's marriage at such an early age.

Picardi visited the house of the Pasquas and renewed his importunities. The girl told him to wait a few years. Becoming enraged, he drew a revolver and shot her three times. He then turned the revolver on himself, sending a bullet through his brain.

### Turkey Would Arbitrate.

Constantinople (By Cable).—The Ottoman government is said to be sounding Germany with a view of inducing her to arbitrate upon the Franco-Turkish controversy. It is not likely, however, that Germany will accede to the proposal or that France would accept arbitration.

### Sultan Abdul Retaliates.

Paris (By Cable).—The Matin says that the Sultan's first retaliation against France is the publication of an article withdrawing the concessions and tax exemptions from the French religious community at Beyrouth, Syria. The French communities at Jerusalem are also taxed.

### Albany (Special).—A frightful fate befell the family of Wilbur Alexander, a large contractor of this city. A naphtha launch exploded on the Hudson river at "The Abbey," a mile and a half below this city, killing Mrs. Alexander and her little daughter and burning Wilbur Alexander and his son, Wilbur Alexander, Jr., in a horrible manner. The accident was the termination of a day's outing on the river. Mr. Alexander took his wife and their son and daughter for a trip south from this city. On the journey home Mr. Alexander was taken ill. He ran the launch into a side cut near "The Abbey." The launch was tied near the shore. The son—12 years old—went to give some medicine to his father, who was lying in the stern of the launch. The boy carried a lantern, and as he passed the tank containing the naphtha an explosion occurred, scattering the blazing fluid in every direction, setting fire to the launch. Mrs. Alexander and her daughter were near the tank, and their bodies were completely covered with the blazing oil. The son jumped into the water when the explosion took place. Mr. Alexander rushed to the assistance of his wife and daughter, but they were burned to death before his eyes. He was at length compelled to jump into the river to save himself. The bodies of the wife and daughter were burned to a crisp, and the launch was entirely consumed.

### General Wood Expressed Satisfaction With the Work of the Convention—In His Opinion, It Will Be Seven or Eight Months Before the Cuban Government Can Assume Complete Control of the Island.

### General Wood Expressed Satisfaction With the Work of the Convention—In His Opinion, It Will Be Seven or Eight Months Before the Cuban Government Can Assume Complete Control of the Island.

Washington (Special).—Gen. Leonard Wood, Governor of Cuba, passed through Washington en route for his post of duty.

"I was forced to leave Havana," he said, "about two months ago on account of my health. I had a severe attack of typhoid fever, but two months on the coast of Maine has braced me up wonderfully, and I feel quite like another man."

"We are ready to turn over the government of Cuba to the Cubans whenever they are ready to receive it," he continued, discussing the political situation of the island. "I suppose it will be seven or eight months at least before the government is organized. They will have to prepare for the first election, and after it is held an interval of nearly four months will elapse before the second election is held, and after that comes the organization of the government. As far as the United States is concerned, we are ready to turn over the government at any time."

"I think the Cubans are very well satisfied with the condition of affairs, in spite of rumors which we hear from time to time of discontent. They elected their own constitutional convention and the convention adopted the constitution for the island, and I see no room for complaint."

"While the island may not have gotten on its feet, so to speak, from the war, it has in a measure recovered. Last year the sugar crop was about 260,000 tons, while this year it will be more than 600,000 tons, or more than double that of the preceding year. Little progress has been made in refitting the sugar mills where the machinery was destroyed during the war, as the mills which kept running are able to grind all the cane at present. The other mills will be refitted as the necessity arises. The people are to a certain degree prosperous, and I feel sure that good times are in store for the island. Considering all the people have passed through in the past four years, they are very well off, and the conditions of affairs will continue to improve."

### PRINCE CHUN ON HIS DIGNITY.

### Would Rather Die Than Go to Berlin Under Present Conditions.

Berlin (By Cable).—It is now very doubtful, according to a dispatch to the Lokal Anzeiger from Basel, Switzerland, whether Prince Chun will come to Berlin to make formal apology for the murder of Baron von Ketteler. Members of the expatriate mission say:

"Under present conditions, we can never go to Berlin. We would rather die than accept them."

It appears that they object particularly to Prince Chun's attendants prostrating themselves before Emperor William, inasmuch as this is a special honor reserved for the Emperor of China, and would involve a recognition of the Kaiser's equality.

The following information is given regarding Prince Chun's speech to the German Emperor. Prince Chun intended to say:

"The Chinese government regrets that Baron von Ketteler was killed," but the Berlin government dictated the following form: "The Chinese government begs pardon for the murder of the German minister, Baron von Ketteler."

The Chinese in Basel are trying to give the case international importance by emphasizing the fact that one of the dignitaries selected for prostration was made a baronet by Queen Victoria while another has the cross of the Legion of Honor.

### NO ONE WILL GET REWARD.

### Detectives Who Worked on Bullion Cases Will Be Compensated.

San Francisco (Special).—President Ralston, of the Selby Smelting Works, announces that the reward of \$25,000 which was offered for the arrest and conviction of the thief or thieves who stole \$380,000 worth of gold bullion on the night of August 5 will not be paid as such, though the detectives and others who were instrumental in recovering the treasure and sending the robber, John Winters, to jail will be liberally compensated for their services.

Winters was under arrest when the reward offer was made, and President Ralston says his conviction was expected. The company, however, thought he had accomplices, and feared also that the gold had been taken out of the country. For these reasons the offer of the big reward was made.

### Denial From Howison.

Washington (Special).—Acting Secretary Hackett has made public a letter received from Admiral Howison denying the authenticity of the interview attributed to him, in which he is made to comment adversely on Admiral Schley. The Acting Secretary has, therefore, continued Admiral Howison as a member of the Schley court of inquiry, leaving the court itself to determine any further question as to his competency.

### Carnegie Rewards Brave Miners.

London (By Cable).—Andrew Carnegie has given £100 (about \$500) each to Messrs. Sheldon, Law, Jones and Dick, miners who displayed conspicuous bravery in the rescue of their comrades at the time of the recent Donibristle colliery disaster.

### May Lynch a Tramp.

Weeping Water, Neb. (Special).—A tramp last Saturday attempted a felonious assault on the 6-year-old daughter of Walter Perry, who lives four miles west of this town. A 4-year-old brother called his mother, who frightened the tramp away. Monday morning the father of the child found a tramp answering the description of the one wanted, hiding in the quarry here, and compelled him at pistol point to return home with him for identification. He gave the name of Lingell, is white, and 35 years old.

### FREIGHT TRAIN SLAUGHTERS 36.

### Shocking Collision on the Great Northern

### Railroad at Nyack, Mont.

Kalispell, Mont. (Special).—Thirty-six lives were lost and 13 persons were injured in the wreck on the Great Northern Railway passenger train No. 3, at Nyack, 30 miles west of Kalispell. None of the passengers were injured, the fatalities having been confined to employees of the railroad company.

The wreck was caused by the breaking in two of a freight train on the steep grade of a Rocky Mountain foothill. The rear end of the freight tore loose from the head end, dashed backward down the mountain and crashed into the rear end of the passenger train which was just pulling out of the station at Nyack. The car attached to the rear end of the passenger was the private coach of Superintendent Downs. He and his son Kirk and their cook, Henry Blair, were instantly killed. The car just ahead contained 46 Scandinavian laborers en route from Duluth, Minn., to Jennings. They were killed wholesale. Only 13 were taken from the debris alive.

Fire immediately followed the collision, quickly destroyed the private car, cremating the bodies of those within. The flames were quickly communicated to the car ahead, or rather to what remained of it, and the bodies of 28 of the laborers also were cremated. The third car from the rear also was burned, but those within managed to escape when the collision first occurred. The fire continued to spread through the mass of debris caused by the destruction of the locomotive or more freight cars and their consignments of valuable freight.

### More Big Gushers.

Beaumont, Texas (Special).—During the week just closed nine gushers were brought in. This is decidedly the biggest week in the history of the fields. During the month 19 spouting wells were completed. Several miles of pipe line have been laid, a dozen large storage tanks completed and several more begun. Not less than 20 more big steel tanks, having a capacity of 38,500 gallons, have been contracted for, and several of them are now under course of construction. On the whole, the month just closed has witnessed a development in this field that is marvelous.

### Smoked a Pipe Over Powder.

Altoona, Pa. (Special).—At Munson, a mining town north of this city, Emanuel Ritus, a German miner, was emptying powder from one cask into another at his home, when a spark fell from his pipe into the powder. The explosion which followed wrecked the house and hurled the Ritus family in all directions. The father, mother and two children were terribly burned and mangled.

### HORRIBLE SCENE AT NAPHTHA EXPLOSION.

Albany (Special).—A frightful fate befell the family of Wilbur Alexander, a large contractor of this city. A naphtha launch exploded on the Hudson river at "The Abbey," a mile and a half below this city, killing Mrs. Alexander and her little daughter and burning Wilbur Alexander and his son, Wilbur Alexander, Jr., in a horrible manner.

The accident was the termination of a day's outing on the river. Mr. Alexander took his wife and their son and daughter for a trip south from this city. On the journey home Mr. Alexander was taken ill. He ran the launch into a side cut near "The Abbey." The launch was tied near the shore. The son—12 years old—went to give some medicine to his father, who was lying in the stern of the launch. Mr. Alexander rushed to the assistance of his wife and daughter, but they were burned to death before his eyes. He was at length compelled to jump into the river to save himself. The bodies of the wife and daughter were burned to a crisp, and the launch was entirely consumed.

Mr. Alexander and his son were severely burned about the head and body. It is believed Mr. Alexander will die. The boy, though badly burned will recover.
