THE END OF IT ALL.

private in the imperial yeomanry. No man ever loved horses better than he did, and horses were his undoing. Not by gambling on them did he come to grief, for he never made a solitary bet in his life; but just by buying them. He spent three separate fortunes, each amounting to over \$75,000, in breeding and training horses. He raced to a moderate extent, never gambling, and was fairly successful; but for all that his love for horses proved too much for his fortune.

Pictures and old china were the cause of the ruin of another man, Crawford Lennox, whose splendid collection came under the hammer recently in London. He was one of the chief connoisseurs of Europe in his chosen line. He would live on bread and water rather than forego the purchase of some coveted vase or picture; but his expenditures in this line were so great that he squandered not only his income, but his capital, and finally became bankrupt, and died in extreme poverty, the attending physician certifying that he was practically starved to death.

Arthur Griffiths, the famous dog fancier, "went to the dogs" through his pets. He never had less than a couple of hundred dogs at a time, and never sold any, though he would sometimes give them away to his friends. He never had a dog worth less than \$5, and would frequently pay \$500 for one. His collie, Nattie, cost him \$1,000. His kennels were marvels of luxury and costliness, and his weekly bill for dog food alone was enormous. He bought, on an average, a couple of dogs a week, and would sometimes make presents of entire batches to his friends. Finally he became insolvent, and when his assets were figured up it was found that he had paid \$35,000 for the dogs he then had on hand, to say nothing of the hundreds he had parted with. But when the kennels were sold they did not fetch \$2,000.
