The man who creeps along bent over, with his spinal column feeling in a condition to snap like a pipestem at any minute, would readily give a great deal to get out of his dilemma, and yet this is only the commonest form by which lumbago seizes on and twists out of shape the muscles of the back. This is commonly known as backache, a crick in the back, but by whatever name it may be known, and however bad it may be, 10 minutes' vigorous rubbing with St. Jacobs Oil on the afflicted part will drive out the trouble and completely restore. It is a thing so easily caught, it may be wondered at why there is not more of it, but because it is so easily cured by St. Jacobs Oil may be the very reason that we hear so little of it.

#### TOLD O CZOLGOSZ.

fent for the Irst Time Hears His Assailant is a Anarchist.

Buffalo, N. Y. (Secial).-When he awoke, after his moring nap Monday, President McKinley caled Dr. Rixey to his bedside and asked pat he be permit-

ted to read the morningpapers.

Of course, he was den'd this, but the physician was pleased the the President should take so active an nterest in public affairs. The President was assured that if he continued to pogress favor-ably he might in a week red the papers as usual.

For the first time since is would-be assassin was taken from his wht President McKinley mentioned Czorosz. asked what had been done w sailant and was told he was

"He is an anarchist," the Pre was told.

"Too bad, too bad," was the repl trust, though, that he will be tre with all fairness.

The President was told that from parts of the world messages of sy pathy had arrived. He was inform that the American public had shown great grief over his misfortune and this. had demonstrated that he has a strong grip upon the affections of his fellow countrymen. The President was deeply touched and said that he felt himself too highly honored. To Dr. Rixey he said that he hoped to recover to show that he appreciated all which had been

Perhaps the strangest feature of the progress that has been made toward recovery by the President is that he has at no time shown any symptoms of relapse. After the operation there was no sinking spell which usually results from such a shock, and from the moment his wounds were dressed his progress has been steady and satisfactory. Dr. Mc-Burney said that in all his experience as a physician he has never known another patient who exhibited so great a ten-

dency to respond to medical treatment as does President McKinley. "It is marvelous," said he, "and is worthy of the study of men who are capable of understanding such things.

The President asked how long would be before he would be permitted to partake of food. Dr. Rixey told him that the wounds in his stomach would not heal in less than a week or ten days. and during that time it would be impossible for him to take any solid nourishment. This information was far from pleasant, but the President made no complaint other than a semi-jocular remark to the effect that it was bad enough to be shot, without being starved to

An indication of confidence in the President's recovery was the announcement made by President Buchanan, of the Pan-American Exposition, that there would be another "President's Day" fore the show closed. It is proposed to make the occasion a festival of rejoicing over the President's recovery. Mr Buchanan did not make the announcement until he had received positive assurances that the President would in all probability recover.

#### HOW ROOSEVELT BORE IT.

"Our One Thought and Prayer," He Said, "Is Now for the President."

Buffalo, N. Y. (Special).-John Barret former Minister to Siam, who was with Colonel Roosevelt at Isle La Motte. Vt., when the news of the shooting of the President was received, says:

"I shall never forget the demeanor of the Vice-President when he heard the news of the shooting. He was called to the telephone in the house of ex-Governor Fisk. As soon as he realized the meaning of the terrible news a dazed expression, followed by a look of unmistakable anguish, came to his strong face, and tears filled his eyes. He was plainly laboring under deep emotion, and asked Senator Proctor, likewise keenly affected, to make the sad announcement to

the waiting crowd outside. "The Vice-President paced nervously up and down the room, dictated a telegram to Buffalo and waited for more news. When, shortly, the second bulletin followed, saying the President's wounds were not necessarily fatal, the Vice-President exclaimed with sincerest

"'That's good-it is good. May it be every bit true.' "He brushed aside those about him,

hastened out on the veranda and made the reassuring announcement himself. "When the Vice-Presidential party was en route back to Burlington somebody in all kindness, but thoughtlessly,

said: 'Mr. Vice-President, you must be anxious lest on your arrival you shall hear that the death of Mr. McKinley has made you President.

"Instantly he raised his hand in characteristic gesture and with a pained 'Do not speak of that contingency. Our one thought and prayer is now for the President, that he may be
