

Eve's Daughter.
Little Agnes had been a regular attendant at the Sunday School last winter. The other day the school opened after the vacation, and the teacher had to have a general review of all ground covered by the primary department. She started, very properly, at the beginning.
"Children," said she, "after Adam was created, how was Eve brought into the world?"
A half-dozen hands went into the air. "Willie Smith may answer," said the teacher.
"Made-out-a-bone-from-Adam."
"Now, children, that is correct. And from what bone was woman created?"
There was an awful silence in the classroom. Finally little Agnes' hand went up like a shot.
"You may answer, Agnes."
Her decision came quickly.
"The jawbone," said she.

The Power of Reasoning.
A merry young Irishman is employed as a coachman by a Liverpool family. While suffering from a severe cold he made his appearance one morning with his hair cut close to his head.
"Why, Dennis," said his mistress, in shocked accents, "whatever possessed you to have your hair cut while you had such a bad cold?"
"Well, mum," replied the unabashed Dennis, "I do be takin' notice this long while that whiniver I have me hair cut I take a bad cold, so I thought to meself that now, while I had the cold on to me, it would be the time of all others to go and get me hair-cuttin' done, for by that course I would save meself just one cold. Do ye see the power of me reasoning, mum?"
The lady was obliged to concede that Dennis' logic was irresistible.

House Keepers.
The light-house keepers, who are furnished for the lighthouses, hold a high grade of education is not required to perform their duties, but they are great readers, and call chiefly for fiction, biography and books of travel. It is not generally known that they are now appointed under civil service rules after competitive examination.

Sitting Room Drama.
"Who comes there?" called little Willie, the sentry, in threatening tones, as he brought his deadly wooden gun into shooting position.
"A friend," answered little Tommy from behind the rocking chair.
"Advance and give the countersign," hissed the sentry, "or I'll shoot your head off."
An ominous silence followed this terrible threat, then Tommy said plaintively:
"I've fergot it."
"You can't remember nothin'," exclaimed Willie in disgust, throwing down his gun. "Cum over here an' I'll whisper it to yer agin."

Scholarly Royal Pipe Smoker.
The King of the Belgians is said to be the most scholarly monarch in Europe. His tastes are of the simplest. He prefers a favorite briar pipe to the best cigar manufactured, and every morning a quaint tobacco jar in the shape of an elephant, which stands on a pedestal of his smoking room at Brussels, is filled with a certain brand of fish-bird's-eye tobacco. A curiosity is that the country possesses no consequently there is never a shortage, the King merely taking the precaution to protect the constitution.

St. Jacobs Oil For Chest-Colds, Bronchitis, Croup, and Pleurisy.

An outward application for bronchial difficulties is many times far more effective than syrups, cough mixture, cod liver oil, &c., simply because it penetrates through to the direct cause, which is, as a rule, an accumulation of matter or growth tightly adhered to the bronchial tubes.

St. Jacobs Oil, possessing as it does those wonderful penetrating powers, enables it to loosen these adhesions and to induce free expectoration. Cases have been known where expectorations have been examined after St. Jacobs Oil has been applied, and the exact formation was clearly shown, where the adhesions had been removed or pulled off the bronchial tubes. All irritation of the delicate mucous membrane of the bronchus is quickly removed by the healing and soothing properties of St. Jacobs Oil. In cases of croup and whooping cough in children St. Jacobs Oil will be found superior to any other remedy.

St. Jacobs Oil is for sale throughout the world. It is clean to use—not at all greasy or oily, as its name might imply. For rheumatism, gout, sciatica, neuralgia, cramp, pleurisy, lumbago, sore throat, bronchitis, soreness, stiffness, bruises, toothache, headache, backache, feetache, pains in the chest, pains in the back, pains in the shoulders, pains in the limbs, and all bodily aches and pains it has no equal. It acts like magic. Safe, sure, and never failing.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, O. At the Lebanon Teachers' Institute, Prof. S. D. Fess strongly advocated the use of newspapers in the public schools. He advocated a decrease in patronage of candy stands by children to pay for newspapers and said: "In this way the great events might be briefly studied each day and current history be thus impressed upon the minds of those who attend school. The reporters get in touch with all that goes on in the world. We can only do it and come in contact with the public pulse of the world by reading the newspapers."
