

THE SIGNING OF THE PROTOCOL

An Agreement Reached Between Chili and Argentina.

THE LATEST TREATY MODIFICATIONS

At a secret session of the Chilean Senate the government's demand for authority to expend \$15,000,000 in preparations for defense is granted after an exciting discussion.

Buenos Ayres. (By Cable).—The new protocol between Chili and Argentina has been signed. A dispatch from Santiago de Chili says that after a fresh conference between President Riesco, Foreign Minister Yanes and Genhar Portela, the Argentine minister, the new agreement was signed, the latest modification to the former proposals being accepted.

The newspaper says the new protocol dispels the immediate danger of war, but that the remedy is not permanent. The armies of the two countries are, meanwhile, continuing their warlike preparations.

Chili has decided upon the erection of new fortifications at Talcahuana and Punta Arenas.

At a secret session of the Chilean Senate the government demanded authority for the expenditure of \$15,000,000 in preparations for defense. The sitting was an exciting one. It was finally decided to authorize the floating of a loan for the purpose.

According to the Diario and the Comercio, Argentina, for her part, in view of the new naval acquisition by Chili, has decided upon the construction in Italy of two war ships of 8,000 tons, to be ready by the end of 1902.

The government officially confirms the statement that the new agreement has been signed, putting an end to the conflict between the two nations.

Peru and Bolivia.

Lima, Peru (By Cable).—Advice from Lapaz, the capital of Bolivia, say that Congress closed Monday without sanctioning the treaty of arbitration in the matter of the controversy regarding the boundary between Peru and Bolivia, but that secret sessions of Congress sanctioned the contract with a Bolivian company formed in London for the leasing of territory in Acre.

THEIVES GET \$50,000 IN GOLD.

Shipment of 10,000 English Sovereigns Stolen in Transit.

New York. (Special).—Somewhere between London, England, and Lima, Peru, are 10,000 English sovereigns worth \$50,000 in the hands of persons who don't own them. Where or when they were stolen in transit nobody knows. Suit has been brought in England to make the carriers who accepted the gold for shipment pay up, and recently Sullivan & Cronwell, of 49 Wall street, were retained to look after the American interests involved in the case.

The Bank of Mexico, of London, shipped the money in five sealed boxes, each containing \$500,000, valued at \$2,500,000 in gold. Their destination was the Bank of Lima. Three lines were used in shipment—the Royal Mail to New York, the Panama Railway Company and the Pacific Steam Navigation Company. All the boxes arrived in Lima in due season. When they opened the treasure of the bank officials found two of the boxes filled with lead shot and not gold. The seals were still intact.

"The shipment was expected," avers the bank's complaint, "and some persons had prepared boxes identical with those containing the gold, and substituted the lead shot." Suspicion soon pointed to two employees of one of the companies. They resigned soon after the shipment passed through their hands. One of them was traced to Central America, where he has bought a big plantation. Both were finally arrested.

SAVED TRAIN AND WON HUSBAND.

Girl's Red Sunbonnet Prevented a Wreck and Began a Romance.

Elogansport, Ind. (Special).—A romance which had its beginning in an act of heroism on the part of a young woman barely past the age for short dresses, was disclosed in the announcement that Miss Edna Keener, of this place, will be married to John Driver, a brakeman, whose life she saved.

Miss Keener attracted much attention last summer because of her bravery in saving a train from being wrecked. She discovered a burning trestle near her home, and, standing in the rain waving her red sunbonnet, she signaled the approaching train and brought it to a standstill in time to avert disaster. Driver was one of the train crew. His engagement with Miss Keener resulted from the acquaintance thus begun.

Hill Insurers Fail.

Kansas City, Mo. (Special).—A receiver has been appointed for the Farmers' Mutual Hill Insurance Company, which was incorporated on January 27, 1901, to insure crops against damage from hail on the mutual assessment plan.

While the company was incorporated in Missouri and had offices here, it operated only in Iowa, Nebraska, South Dakota, Montana and Colorado. The company did more than \$2,000,000 worth of business, but heavy losses in Colorado and South Dakota, with the shortage of crops, are said to be the cause of failure.

A Strife at St. Louis.

St. Louis. (Special).—The first public celebration, in connection with the World's Fair to be opened in St. Louis in 1903 to commemorate the one-hundredth anniversary of the Louisiana purchase, was held Friday, when ground was broken for the Exposition site in Forest Park. The day was selected because it is the anniversary of the Louisiana Territory's formal transfer to the United States. It was a holiday in St. Louis and throughout Missouri, as well as in most of the purchase States.

GOVERNOR SHAW HAS ACCEPTED

His Appointment Is Now Officially Announced.

TWO CABINET MEMBERS FROM IOWA

He Is Not Expected to Come East Until After His Successor Has Been Inaugurated, and Secretary Gage Will Probably Remain at the Head of the Treasury Department Until Some Time in January.

Washington, D. C. (Special).—Governor Shaw has accepted President Roosevelt's tender of the Treasury portfolio and it was accordingly officially announced at the White House that he will be the next secretary of the treasury. There will be no change in the office of secretary of agriculture, Secretary Wilson, also of Iowa, continuing to retain that portfolio.

The date of transfer of the Treasury Department will depend on the mutual convenience of the outgoing and incoming secretary. Mr. Gage having signified an entire willingness to remain at the head of his department until such time as it may be agreeable to his successor to take hold. It is supposed, however, that Governor Shaw will be inducted into his new office some time in January. It has been known for two or three days that Governor Shaw was slated for appointment to succeed Secretary Gage.

The definite announcement of Governor Shaw's selection gave the greatest gratification to the Iowans resident here. They regard him as a man well equipped for the place and feel confident the appointment will give general satisfaction. Secretary Wilson voiced these sentiments when asked about Governor Shaw, and he added that the Governor was better known to the people east of the Mississippi River than any man in private life west of the Mississippi on questions of finance.

Aimed to Control Trusts.

Representative Jenkins, of Wisconsin, who proposed a constitutional amendment to control trusts in the last Congress, introduced a measure of similar character, which calls for a constitutional amendment providing that "Congress shall have power to regulate commerce in the United States.

All private corporations, co-partnerships and joint stock companies in the United States shall be under the control of Congress. Congress shall have power in the United States to regulate, control, prohibit and dissolve all contracts and combinations in restraint of trade or commerce.

"In absence of legislation by Congress pursuant to this article all powers conferred upon Congress by this article may be exercised by the several States.

The proposed amendment is substantially the same as the one Mr. Jenkins proposed last year, which was favorably reported by the House Committee on Judiciary, and received the support of the majority in the House, although the vote was not two-thirds required on a constitutional amendment.

May Lose \$20,000,000.

Secretary of Agriculture Wilson, stated that discontinuance of the microscopic inspection of meats sent abroad would mean the entire suspension of exports and cause a loss to this country of \$20,000,000 worth of meats annually sold to Germany.

The lack of funds, he explained, was due to the increased work of the last year and the two weeks' leave of absence granted each employe of the bureau outside of this city, which necessitated the employment of additional men.

The Secretary said he has asked Congress to make part of the appropriation for the coming year immediately available, and that he has no doubt, Congress will grant this authority, as it has done so frequently in previous years.

Philippine Custom Receipts.

The Division of Insular Affairs of the War Department has issued a statement showing that the customs revenues in the Philippines for the nine months ended September 30, 1901, were \$6,275,293, as compared with \$5,484,920 for the same period of 1900 and \$3,462,128 for 1899.

Eight Drowned in a Wreck.

Charleston, W. Va. (Special).—The steamer Kanawha Bell, which runs between Charleston and Montgomery, went overboard Nov. 3 at Penn Creek on her down trip, broke in two and is a total wreck. Eight of the crew, all deck hands, and troutboats, were drowned. The officers of the boat were saved, but some of them had narrow escapes. The river has been high for several days. There was a furious current at the lock, and the pilot was unable to control the boat.

May Claim Emperor's Reward.

London (By Cable).—A correspondent, signing himself "United States Soldier," writes to the Daily Mail, saying he was present at the relief of Pekin, and wanting to know if Emperor William's offer of 1,000 taels for every German rescued still holds good. He added: "Does the Kaiser still stand by his promise? If so, I should think there is money in it, and where do I come in?" The Daily Mail, commenting on the letter, says it understands that no claim has ever made for the reward, but the paper presumes the offer still holds good.

Store and Dwelling Burned.

NATIONAL CAPITAL AFFAIRS.

That Uprising in Samoa.

German responsibility for the Samoan uprising of 1899, which necessitated military operations by American and British marines in the Island of Savaii and led to the partition of the Samoan group, seems to be fixed by affidavits now being made by American naval officers.

Rear Admiral Kautz, who was commander-in-chief of the Pacific Squadron, and who decided that the condition created by the forces of Chief Mataafa demanded armed intervention, has submitted a sworn statement to the State Department, in which he charges that German officials stirred up the supporters of Chief Mataafa to resist the decision of the Chief Justice of the islands that Mataafa should be King.

If the United States succeeds in showing German responsibility no doubt is expressed by the authorities that the King of Norway and Sweden, to whom claims arising out of the military operations of the Anglo-German forces have been referred for arbitration, will hold that Germany should pay all damages caused by the marines.

A train of three cars was approaching the southern terminus at Dingle station. It is understood that it had overloaded a majority of its passengers at the Hecullaney Dock, which is the preceding station.

The motor of the rear car failed in its fusing mechanism, firing the woodwork of the car. The strong air current through the tunnel, which is a fifth of a mile long, caused the entire train to catch on fire, thus igniting thousands of crookeded sleepers that were piled up there and filling the tunnel with dense smoke.

Simultaneously the lights were extinguished and Dingle Station was quickly filled with smoke. The officials, not knowing the cause, fled, the ticket clerk abandoning his cash.

When they learned of the accident the officials returned and tried to help, but were driven out by the smoke. It is hoped that some of the passengers escaped by running, but it is doubtful.

Five bodies, including those of the driver and a guard, have been found. Latest reports say that thirty-seven bodies have been found. Five passengers now known to have escaped are believed to be the only survivors.

MURDERED OVER HAY STACK.

Oklahoma Man Kills Two Brothers and Fatally Wounds Father.

Lawton, Okla. (Special).—John Roberts shot and killed George and John Higginbottom, brothers, and probably fatally wounded their father, G. N. Higginbottom, 22 miles northwest of this city.

The tragedy was a result of a quarrel over the division of a quantity of hay. All are farmers. Roberts shot George and his father from behind, killing the boy instantly. He shot John while the latter was attempting to raise his wounded father. John fell to the ground, but managed to empty his revolver at Roberts, without effect.

Roberts waited until Higginbottom had exhausted his ammunition, and then coolly walked up to him and placed his gun close to the prostrate man's body, firing, killing him instantly. The murderer then mounted his horse, rode home, hied his wife good-by, and left.
