#### Four of a Kind. From the Lancaster Inquirer.

Dr. M. T. Reeder of Millersville, is, like his three special chums, very busy man, and only once in a while does he steal time to meet them -- Dr. Martin Ringwalt of Rohrerstown; Dr. J. R. Lehman, of Mountville, and Dr. Jno. J. Newpher, of Mount Joy. These four entered upon the practice of curing diseases at nearly the same time. All of them attended school at Millersville and three of them were schoolmasters before they became physicians. The stories they could tell of the adventures that befell them while they, years ago traveled Manor, Conestoga and the Hempfields on sparking tours would make very interesting reading for young men who need instruction in the art of courting. The number of people they aided when sick, are like the articles offered at public sale, "too numerous to mention." The num-M. N.
