Please be Careful.

The Pennsylvania Railroad company is desirous that we announce that it will not be responsible for any accidents which may occur in the cut at Mount Joy. One day last week a resident of that place, in trying to catch a train, slid down the cut at the Market street bridge not having time enough to go to the depot and cross the new over-head bridge. While running along the tracks he came to a "soft spot" where he sank into clay shoe top deep. After considerable difficulty in getting out he caught the last pullman car of the train and while walking through it came within a hair's breadth of being thrown off by the conductor on account of muddy shoes. A little earlier next time C.

One of our prominent poultry raisers gives his opinion that heavy shooting and blasting interferes with hatching process of the hens. If such is the case it would be well for all poultry farmers to educate their hens in meteorology and dynamics.

One on Columbia.

Several weeks ago the Columbia papers contained numerous notices referring to the many Mount Joyians that they had vaccinated. A butcher from Mount Joy went to that place some time ago and of course the officials stopped him and asked where he was from. The man said he was from Mount Joy. Officer Paine, who afterwards felt that which his name designates, inquired of the gentleman whether or not he was vaccinated? The reply was "Yes, about twenty-five years ago." The Health Officer then told the man to go with him as he would have to be vaccinated. The Mount Joyian displayed a fine specimen of a Fourth of July fire cracker and asked them to please let his horse go which they did without the least objection, and the butcher went about his business, while the "Vaccination Push" made goo-goo eyes at him as far as they could see.

An Explanation.

For the benefit of P. G. Shelly, the Middletown Journal's correspondent in this place, in reference to his item in that paper last week, we would say that the editor of this paper is in the same shoes he is. He has two business places to look after. Although not the same branches they require all his time. We would advise this young man that if he wants to make both his business standpoints a success, he should do like the editor of this paper does, give the one his attention during the day and the other in the evening, but instead his evening sparetime is spent at a local restaurant, trying to be a genius on the checker board. Now will you be good.

Mount Joy Adds Another Game to Its Victory Column.

Mount Joy met and decidedly outplayed and defeated an aggregation from Lancaster who called themselves the Olympics at Mount Joy on Saturday afternoon. They simply won by good all around playing and at no stage of the game did defeat stare them in the face. The feature of the game was the sensational one hand stop made by Owen Brandt, who started his career as a pitcher and did fairly well.

Diamond Dust.

Limber-jim—Jocko. Brunner kept up his rep: One victory—one defeat. Uncle Owen was invincible. "Chickie" had the hit of the day. Jocko was as good as a dime museum.
