Who Is Bessie Stevens?

If our reporters are mis-informed on a subject and we tell a lie in our news columns, why is it that we always have a brother liar? Because and putting it in the "elongated method of spelling," they often see-o-pea-why-copy.

"Ninety-four and Sews." "The Best of the Season," etc., etc. Some people say: Oh sugar, I read that in the Bulletin several days ago

and it is understood will join the Mount Joy branch a few miles west of that borough, and is an entirely new development in the plan of the Pennsylvania railroad.

On the contrary, as the distance between the eastern end of the bridge and the Mount Joy Branch is only about five miles, with no special topographical difficulties in the way of building the short line is regarded as a means to quickly help the freight blockade while the other line across the country, about 30 miles in length, is being constructed.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substance. It is pleasant to adults and children like it. Buy it and you will get the best. It always sells. For sale by J. S. Carmany Florin Pa. Mount Joy druggists.
