Then and Now.

Fifteen years ago the poor man a musicale will be held. with a large family (and the rich man, too, for that matter) when a school term began, had to reach down in his pocket for ten or twelve dollars to buy new books for the children, and during the term there was a constant drain on him for pencils, pens and ink, pen holders, copy books, practice paper, slates, sponges, etc. All these things are won by a score of 900 to 852. It now furnished to the pupil free of charge, and in consequence the poor child, so far as these things are concerned, is in the same position as one more happily placed. The 50 cents a month which may be added to each month's rent, or a little more tax if the school loan carries, are nothing in compartion to what these supplies used to cost.

Now for Brick.

A new brick firm has been established. David L. Garber & Son, of East Donegal township, have leased the brick plant at Maytown last operated by S. B. Lenhart, and will shortly be prepared to furnish pavir building and arch bricks. The capitalist of East Donegal, while the junior member of the firm is a clerk in the First National Bank, of

The law the Root Manufacturing Company on the subject is very plain, and judges view evasions with no mildness when cases involving points of this kind come before them.

For and Against.

The voters who are opposed to the proposed \$15,000 school loan say that if the loan carries it will mean higher rents and higher taxes. Those that favor the loan say that the proposed improvements are ecessary, and that better sanitary arrangements, more room and air his grandmother Mrs. John Runk. space for the children are absolutely required. Every voter of the town should go to the polls on Tuesday next and register his opinion; but before he votes against the propos ition he should remember that it has the unanimous endorsement of six men who have been chosen to represent him and that every thing worth having costs something.
