The Aquarium

An aquarium is a beautiful household ornament. It suits everywhere, parlor, laboratory, dining-room, sitting-room and may indeed be introduced in the apartments of the sick. An invalid will watch with delight the motions of the fish in an aquarium; it has a tendency to help make home cheerful and its inmates happy; therefore an aquarium must not be considered a luxury but as a necessity. Prices on aquariums have been greatly reduced. You ought to be the proud possessor of one of these beautiful and useful ornaments. I have a very fine selection of common Long-tails and Fan-tails Gold Fish at 5c to 50c each.

Garber's Stomach Bitters and Tonic

This household remedy is offered in place of "patent" medicines. It is not claimed that this is a "cure all" but we do believe that it is as good a stomach remedy and system tonic as can be found on the market. We call special attention to this Stomach Bitters because we know that it is harmless and reliable. We know exactly what is in it and just how it is made. The materials from which it is made are of the best quality that can be obtained in the market and of such a character as to produce a general stomach remedy and general tonic of marked efficacy. We do not want anybody who Needs a Doctor to Buy This Blood Remedy, but if you are going to buy a "patent" medicine which you have seen advertised for stomach and other ailments, then we would urge you to give this bitters a thorough trial in any of the following ailments:

Rheumatism, backache, lumbago and kidney ailments generally; sleeplessness and nervousness, boils, pimples, carbuncles, felons, ulcers and other eruptions due to poisons in the blood; paleness, sallow complexion and a general tired feeling due to sluggish liver; headache due to indigestion, constipation and other disorders; poor appetite, sour stomach, acute dyspepsia and distress after meals. This stomach bitters has given good satisfaction among our customers and we much prefer to sell it in place of "patent" medicines, the ingredients of which we do not know and therefore cannot tell whether we are selling an injurious or beneficial medicine.
