Sick
Headache

When your head aches, there
is a storm in the nervous sys-
tem, centering in the brain.

This irritation produces pain
in the head, and the turbulent
nerve current sent to the stom-
ach causes nausea, vomiting.

This is sick headache, and
is dangerous, as frequent and
prolonged attacks weaken the
brain, resulting in loss of
memory, inflammation, epi-
lepsy, fits, dizziness, etc.

Allay this stormy, irritated,
aching condition by taking
Dr. Miles' Anti-Pain Pills.

They stop the pain by sooth-
ing, strengthening and reliev-
ing the tension upon the nerves
—not by paralyzing them, as
do most headache remedies.

Dr. Miles' Anti-Pain Pills do
not contain opium, morphine,
chloral, cocaine or similar drugs.

"Sick headache is hereditary in my
family. My father suffered a great
deal, and for many years I have had
spells that were so severe that I was
unable to attend to my business affairs
for a day or so at a time. During a
very severe attack of headache, I took
Dr. Miles' Anti-Pain Pills and they
relieved me almost immediately. Since
then I take them when I feel the spell
coming on and it stops it at once."
JOHN J. McBRIDE,
Pres. S. B. Eng. Co., South Bend, Ind.

Dr. Miles' Anti-Pain Pills are sold by
your druggist, who will guarantee that
the first package will benefit. If it
fails he will return your money.
25 doses, 25 cents. Never sold in bulk.

Although Japan has practically a
monopoly of blind masseurs, a few pro-
fessionals may be found scattered
about the capitals of the world. New
York has several of them, not Japa-
nese, but the native or European pro-
duct.

"It must be understood," said an in-
structor in massage, "that the blind of
countries other than Japan have been
backward about preparing themselves.
Only recently have they begun to think
it possible. From time to time travel-
ers and invalids who have profited by
the treatment of the Japanese in their
own land have come back with tales
of the wonderful benefits received, but
it never occurred to them that the
blind here might utilize their talents
in the same way.

"At last, however, a few of the blind
have come to realize their possibilities
and at a school of massage in New
York a number of them have applied
for instruction. Some of these appli-
cants have finished the course, and
probably are practicing in the town
now, either with private patients or in
a sanitarium. Among the pupils I re-
member one woman from Brooklyn. I
have kept her in mind because she was
the most skillful hand at massage I
ever knew. I don't see how even the
Japs could beat her. Her hands were
alive with magnetism. She seemed to
know by instinct what set of muscles
required treatment, and the case of in-
ferior or rheumatism that could hold
out against her was stubborn, indeed.
She went west several months ago, but
possibly other blind recruits equally
capable have been graduated since then
to take her place."

5A Horse Blankets
STRONGEST EVER MADE

The first requisite of a good Horse Blanket is strength.
The surest way to tell a strong blanket is to look for the
5A Trade Mark. 5A Blankets are woven from tightly
twisted warp, which gives strength, warmth and durability.
They are made in hundreds of sizes and patterns—with prices
to suit all.

Your local dealer buys the long-wearing 5A Blankets direct
from the factory, and can
therefore sell them cheaper
than dealers can sell infer-
ior blankets purchased
through jobbers at high
prices.

All Genuine 5A Blankets have 5A Stays under Straps.
Buy a 5A SQUARE BLANKET for street use.
Buy a 5A BIAS GIRTH BLANKET for stable.

There's Money in Growing Ginseng

Prof. W. L. Howard of the Missouri State Agricultural College
says: "I advise American farmers to cultivate Ginseng. Big pro-
fits may be realized. It is a hardy plant and is easily grown."—A
recent bulletin issued by the Pennsylvania State Agricultural College
in part says: "The supply of native Ginseng root is continually di-
minishing and the price per pound is correspondingly increasing,
while the constant demand for the drug in China stands as a guar-
antee of a steady market for Ginseng in the future. The market for
our cultivated root will exist as long as the Chinamen exist."—Coun-
sel General W. A. Rublee of Hong Kong says in the U. S. Consular
reports: "The sale of Ginseng root grown in America is very
large here and the demand is so great that much more could be dis-
posed of advantageously. The root is indispensable to the 400,000,
000 Chinese as is their rice."

Ginseng is a staple on the market the same as corn, wheat and cot-
ton. The present market price varies from \$5 to \$8 per pound ac-
cording to quality, while the cost of production does not exceed \$1.50
There is room in any ordinary garden to grow several hundred dol-
lar's worth each year. The plant is hardy and thrives in all parts of
the United States and Canada, except in the arid regions. We are
successful growers and can show you how to make money growing
Ginseng. You can get a good start in business for a small outlay,
and soon have a comfortable income. We have several thousand
choice roots for sale for Fall delivery. The planting season begins
in August and continues until the ground is frozen. Write us today
