

Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nervine has been so successful in curing these brain-wrecking cases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored. We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so bad that we sent him to Longhill hospital for the insane, at Logansport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 30, 1902, in an awful condition. He had lost his mind almost entirely. He hardly knew one of the family; could not even find his bed; was a total wreck. He had from 5 to 10 fits a day. We were urged to try Dr. Miles' Nervine, and before the first bottle was used, we could see a change for the better. We have given it to him ever since, and he has had but two very light spells since last August, 1903, and these were not well other ways. We pronounce him cured, as he can work and go anywhere. If any one wishes to ask any questions concerning this, they are at liberty to do so."

Dr. H. BUNNELL, Lincoln, Ind.
Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Curious Savage Custom.
Maj. Powell-Cotton, who recently explored a part of central Africa never before visited by white men, writes: "Among the Kimer the women go completely naked, but the men are clothed. I secured some photographs of a tribesman and his two wives posing the family plot. One of these shows a curious fashion of skin decoration in vogue among the womenfolk. It is a raised pattern wrought on the body when they are young. Small incisions, geometrically arranged, are made in the skin and into these ashes are inserted. The wounds heal in permanent raised tumors."

SALUNGA.
