

An Easter Picture of Highest Merit

An Easter picture that fits the occasion is one of the timely features for the delectation of buyers of the Sunday North American for April 15.

To give to the artist a full and perfect expression of his work, the printers have done the picture in ten printings, getting into the composition every shading of color that can be reproduced by mechanical means.

The circulation of the Sunday North American has increased over 30,000 copies in the last sixty days.
