nder Concerns Thrive  
amers Are Not  
-The Home  
rtisement.

g volume of business  
directed from local  
big mail order houses is  
prosperity of thousands  
ns and cities. The busi-  
g concerns is multiply-  
ing rate, and if the ra-  
ultimate demoraliza-  
ness in many rural towns  
conclusion, says Edward  
d commissioner of Minne-  
Retailers' Journal, Chil-

ers the greatest financially?  
siness men of the commu-  
sinterested person famul-  
ns and outs of the business  
de that the consumer is not  
at the expense of the home  
If this were true the con-  
uld not be blamed for taking  
end of the bargain. For the  
argument we will assume  
consumer is receiving just as  
eatment at the hands of the  
der house as he does from his  
merchant. The loss to the mer-  
must be somebody's gain. It  
s, therefore, that the mail order  
proprietor is the only one who  
suffered.

the question naturally suggests  
why does the business of the  
order house increase at such an  
alarming rate if the consumers are  
benefited? This is one of the

is the  
him  
He,  
tain  
s to hold the home  
d country merchants  
so located that they  
rtise successfully  
subject of advertising.  
no store, city or  
business could not be  
fully if the prop-  
w and has the nerve  
t. There are a few  
s in remote localities  
ed advertising so suc-  
ll order competition  
them. This idea that  
o long in a town that  
s you and you don't  
so is a mistake. This  
to advertising, indif-  
business the way busi-  
his day and age, is  
d the mail order houses  
ere nothing so great

who can convince the  
section and keep them  
convicted. His store is the best  
place to visit and that article will  
not be sold to the mail order house.  
Of course, he cannot afford to get out  
a catalogue as thick as a Bible, but he  
can keep his advertisement in his local  
papers and that it is changed every  
week, thus being new bargains con-  
tinually before the public. He should  
also have a mailing list and send out  
a circular at least once a month.  
Nothing is more discouraging than  
beginning an advertising campaign.  
Results are almost invariably slow at  
first. It takes a pluck—you must keep at  
it and master it.

Don't look upon your country news-  
paper as an object of charity. There is  
not a single country newspaper in  
your state, with a general local cir-  
culation, which is not able to give full  
value for money received. The country  
papers can help you solve this question  
if you will give them the chance.

The Maori Executioner.  
In a collection of weapons gathered  
by the prince of Wales among the Ma-  
oris, of New Zealand, and recently pre-  
sented to the British museum, are many  
specimens of the "mere pounamu," a short  
sword, made of a broad blade of jasper  
stone, with sharp edges. This was used  
mainly for the execution of prisoners,  
this office being considered an honor-  
able privilege of the chiefs. One blood-  
thirsty Maori is known to have killed  
150 men by his own hand after a vic-  
tory with one of these old weapons.  
The sharp point of the blade  
checked and

SPORTING HILL.  
Mrs. Samuel Bradley is on the sick list.  
The Brinzer denomination held services  
in the village church on Sunday morning.  
Mrs. Percival Berto of Mount Joy, spent  
the week with her daughter, Mrs. B. L.  
Kauffman.  
Joseph Wickenheiser and wife spent Sun-  
day in the family of Jacob Kreider, at  
Brownstown.  
Mrs. Pianna Harshey and two children  
are spending the week with her parents,  
Jacob Kauffman and wife.  
Jacob Keller and wife, of Ephrata, and  
Reuben Witters and wife, of Millway, were  
guests in the family of J. E. Stauffer.

RHEEMS' STATION.  
Daniel Shank, who is stricken with  
typhoid fever, is slowly improving.  
The Rheems Canning Co. disposed of  
1200 cases of their 1905 corn. Elmer Strick-  
ler used his large team to convey it to  
the car.  
The high prices for tobacco has caused  
the farmers to pay more attention to the  
fertility of their farms, causing a great de-  
mand for lime and other fertilizer.  
The cellar wall for Rev. S. S. Shearer's  
house is completed. A large amount of  
brick are already delivered upon the ground  
ready for Bricklayer Evans of Elizabeth-  
town.

MASTERTONVILLE.  
The Mastertonville creamery paid its  
patrons \$1.20 per hundred weight, for  
October milk.  
Emanuel R. Zug who bought the steam  
mill here in town sold the same to N. S.  
Zug on Saturday. He will change it into  
a tobacco warehouse.  
There are long stretches of the public  
road which are in a most miserable condi-  
tion and its a rare thing around here to see  
the supervisor at work on repairing them.  
Such was really the case until the Kinsey  
hill was recently put in a condition that it  
can again be called a public road.

CHILDREN HAD NO SHELTER  
Sight That Set Well-Fed English-  
man to Work Providing  
Homes for Waifs.  
When a kind-hearted young doctor  
told a company of well-fed Englishmen  
in London, about 40 years ago, that  
homeless children slept outdoors in the  
city even in the dead of winter, his  
hearers doubted the statement. They  
thought it possible, says Youth's Com-  
panion, that a child was occasionally  
without shelter at night, but it was  
contrary to reason that any consider-  
able number could be in such straits.  
The young doctor told the company  
that within a short ride of where they  
were gathered he could show them a  
score of thinly clad boys asleep under  
such conditions as he had described.  
Still doubting, the men went out into  
the wintry night and were led to a  
square in which more than 70 waifs  
were found sleeping in boxes and bar-  
rels, and anywhere they could get out  
of the wind. The men were convinced,  
and helped the doctor in his work of  
rescuing such waifs. Since that time  
he has found homes for more than  
50,000 orphans, and has not turned  
away from his doors a single destitute  
boy or girl. He knew that the poorest  
accommodation that he could give  
them, even though it were only a place  
to sleep on the floor in a warm room  
was better than the best that they  
could hope to find in the streets. Re-  
cently this large-hearted philanthropist  
died at the age of 60 years. His  
name was Thomas John Barnardo.

CURES SICK-HEADACHE  
Tablets and powders advertised  
as cures for sick-headache are gen-  
erally harmful and they do not cure  
but only deaden the pain by putting  
the nerves to sleep for a short time  
through the use of morphine or  
cocaine.  
Lane's Family  
Medicine  
the tonic-laxative, cures sick-head-  
ache, not merely stops it for an  
hour or two. It removes the cause  
of headache and keeps it away.  
Sold by all dealers at 25c. and 50c.

5A  
HORSE BLANKETS  
5A Horse Blankets are made thick, soft and  
strong, of hard twisted warps and good filling.  
They resist wear, cold winds, and stormy  
weather. They give real protection to the  
horse, and satisfaction to the  
horseman. Better than any other  
blanket at a corresponding price. Hun-  
dreds of styles, sizes and patterns—all  
materials from the cheapest to the best.  
Your local dealer buys the long-wear-  
ing 5A Blankets direct from the factory,  
and can therefore sell them cheaper than  
dealers can sell inferior blankets purchased  
through jobbers at high prices.  
Beware of Imitations.  
MADE BY WM. AYRES & SONS, PHILADELPHIA, PA.  
All Genuine 5A Blankets have  
5A Stays under Straps.  
Buy a 5A SQUARE BLANKET  
for street use.  
Buy a 5A DIAS GIRTH  
BLANKET for stable.

Stockholders' Inspector Reports  
on the Progress of the  
International Lumber and Development Company  
The Stockholders of this Company recently elected one of  
their number, Dr. Andrew S. Stayer, of Altoona, Pa., to go as  
their representative, to their Mexican plantation and make a  
full report on its development. This report is now ready.  
Dr. Stayer says, in part:  
TO THE STOCKHOLDERS OF THE INTERNATIONAL LUMBER  
AND DEVELOPMENT COMPANY:  
I believe that the dividends on the whole capital stock of this Company, as  
guaranteed, can be paid for years to come from the timber now standing in the  
forest on this estate. No one not having ridden through these forests and  
viewed the timber can form the least conception of the amount there is there  
and in computing the value of this fabulous amount of timber you must take  
into consideration that it is of much more value than woods used for the same  
purpose grown in the temperate climate. If there were no other source from  
which to draw dividends, I would feel perfectly safe in saying to you that  
you need have no fear on this subject, as the guaranteed dividends can be  
paid from this source alone, but there are many other sources of dividends.  
Principally among them is  
HENIQUEN  
There is no doubt about the value of this product. I have carefully  
studied this subject and cannot find any reports or estimates that give the net  
yield per acre at less than \$50 or \$60, except in the literature of the Company  
while all the estimates given me verbally in Yucatan and Campeche place the  
figures much higher. Ten thousand acres planted to heniquen would produce a  
net profit of \$500,000 per year. (Preparations made to rapidly plant 12,000  
acres. Over one million plants growing and six millions contracted for.)  
LIVE STOCK  
Besides wood and heniquen, large amounts of money will be realized from the sale of cattle, horses, mules and other  
live stock grown on the estate. The expense of growing these is limited to the wages of a few cowboys who look  
after them.  
RUBBER, ETC.  
There must be at least in the neighborhood of 500,000 wild rubber trees, of all sizes and ages, large numbers of which  
are now ready for tapping. Later on, if the same plan is pursued in extending the planting of rubber from year to year  
and the value of rubber keeps on increasing as it has in the past few years, thousands of dollars will be turned into the  
treasury from this source, besides the large profits to be derived from bananas, dyewood, the gathering of chicle from the  
zapote trees, the gathering of the rubber from the wild rubber trees scattered through the forest, and from the profits  
derived from selling goods from the Company's stores to the thousands of people who will reside on this plantation. Be-  
sides those above mentioned, there are smaller amounts of money coming in from many other sources. The system ad-  
opted on the plantation is such that really nothing is touched or handled that does not produce a profit.  
In presenting to you this report of the first inspection, I feel that my descriptions are inadequate and that I have not  
done justice to this great property, but have the intense satisfaction of knowing that I have been able to bring to you the  
information that ought to satisfy you; that your investment is entirely safe and destined, without a doubt in my mind,  
to bring to you a life income. I regret that my fellow-stockholders could not have been present to see for them-  
selves what I have seen. June 22, 1906. (Signed.) ANDREW S. STAYER  
Every investor should read Dr. Stayer's report from cover to cover.  
Every person interested in a life income should have a full knowledge of the I. L. & D. Co.'s proposition.  
The Company Guarantees 8 per cent. Dividends payable semi-annually. Has paid 18 per cent. since Apr. 1, '05  
Much larger dividends are estimated on full development of the property. Dividends have already been paid as  
follows:  
April 1, 1905, 4 per cent. (guaranteed) and 1 per cent. extra. January 31, 1906, 2 per cent. extra.  
October 1, 1905, 5 per cent. (guaranteed) and 1 per cent. extra. April 1, 1906 4 per cent. guaranteed.  
A Dividend of 4 per cent. will be paid to Stockholders of Record October 1, 1906  
This dividend is paid from profit realized from the Comshare. In a short time the price will be increased. Over  
panys' merchandising stores and from the sale of mahogany 5,145 share holders now; stock selling fast. At the present  
and other lumber. There have been 11 carloads mahogany rate it will not be long until all is sold, and the opportunity  
and Spanish cedar shipped to the United States in the ocean is gone. Act at once if you wish to obtain shares at par and  
steamship YUELTABAJO, owned and operated by the participate in the dividends payable Oct. 1. Write to-day  
management of this Company. for free copy of Dr. Stayer's report—a large and handsome  
Stock is now selling at par, and costs \$5 per month per booklet illustrated with over forty photographs.
