

# A Live Wire

Every nerve is a live wire connecting some part of the body with the brain. They are so numerous that if you penetrate the skin with the point of a needle you will touch a nerve and receive a shock—pain it is called. Aches and pains come from a pressure, strain or injury to a nerve; the more prominent the nerve the greater the pain. When the pain comes from a large nerve it is called **Neuralgia**.

whether it be the facial nerves, or the heart, stomach, sciatic or other prominent nerve branch. To stop pain, then, you must relieve the strain or pressure upon the nerves. Dr. Miles' Anti-Pain Pills do this.

"I suffered intense pain, caused by neuralgia. I doctored and used various medicines without getting relief until I began using Dr. Miles' Anti-Pain Pills. They did me more good than all the medicines I ever used. They never fail to cure my headaches, and their use never leaves any bad after-effects."

MRS. W. M. BECKMAN,  
107 W. 4th St., Erie, Pa.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit it. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk. Miles Medical Co., Elkhart, Ind.

### Making a Dog Understand.

A dog understands "yes," and is equally competent to grasp the "no." Outside of that he is all dog and follows his dog ways. He indulges in no mental refinement and will not comprehend many of your changes of mood or mind. Whatever you undertake to teach, make it plain, simple and unchangeable. It is a pity that he must be taught not to jump up on people and compliment them with his caresses. He means well, but must be disciplined sternly into knowing that it is not good form under any circumstances. The discipline need not be accompanied by any severity. A light touch with a whip, if applied invariably, will soon settle the matter. Some kennel men adopt the plan of stepping lightly on the hind foot, and it is perhaps the clearest way of conveying the idea—Outing.

### English Birds in New York.

Several English song birds, including the lark, nightingale and thrush, are thriving in an outdoor flying cage in the New York zoo and make themselves quite at home with American birds.

### Big Railroaders.

Three brothers of John Seamonds, of Tucson, Ariz., joined him in a family reunion lately. All are railroad conductors and big men, the aggregate weight of the quarter being \$17 pounds. Their father was a railroad contractor, being one of the men who built the Chesapeake & Ohio. Albert is the heaviest of the brothers, weighing 252 pounds, the lightest being James, who is but 178.

### Remorse.

A western railway manager received the following letter from some conscience-stricken unknown who had experienced a religion: "Meestare Snut: Eet oes wit torro. I approach before you. I stol one ride an oet has bodered me lake haall. I got rection now an so I sen one teeket an five cents. I wish you much luk, please excuse ma."

## FISH ROE IN GREAT DEMAND

Good Prices Offered in France for Important Product of Atlantic Coast Fisheries.

There is now offered to the fishermen of the New England coast a ready and profitable market in France for fish roe, or spawn, an important by-product of the cod, hake and pollack fisheries.

"The sardine fishery, a valuable industry of France," says Consul General Mason, "is confined principally to the 150 mile stretch of the Atlantic coast from Lorient to the mouth of the Gironde, the principal mart of the sardine fisherman being at Les Sables d'Olonne. The sardine spawns in deep water and comes about five months of the year to shallow waters along the coast in search of food. The different minute marine growths which form the natural food of the sardine have become depleted, and in order to attract and retain the immense shoals of that fish on the French coast the fishermen have been obliged for years to feed or bait the sardines with some material as similar as possible to their natural food. For this purpose the main recourse of the fisherman has been to the roe or eggs of codfish and mackerel, derived from the fisheries of Norway, pickled in salt brine, packed in wooden barrels and imported to France under the name of roe or codfish and mackerel, dutiable at 16 cents per long ton.

"There are engaged in the French sardine fishery about 2,000 boats, each of which uses, under ordinary conditions about 25 barrels of roe during the fishing season of each year. Of this vast quantity about 30,000 barrels per annum have been derived from the Scandinavian fisheries, some from the French cod fisheries on the coast of Newfoundland and a small quantity from the United States. The price, delivered in France, has ranged from \$12 to \$20 per barrel, but this year for some reason the supply from Norway has been abnormally small, and the price has advanced to nearly \$30 per barrel."

### POPULAR CIGAR STAND

How the Stock is Kept Just Right for Immediate Consumption

The National Cigar Stand Company's enterprise is being watched with intense interest by cigar and tobacco men all over the world. The general impression is that it will revolutionize the cigar retailing business.

Judging from the verdict of smokers the company has fulfilled its promise to supply the citizens of Mount Joy Borough with high-grade cigars at price heretofore unknown in this section. The stand which was recently opened in E. W. Garber's drug store has been in operation long enough to prove that it has set a high standard of cigar quality and at the same time reduce prices.

The stand itself continues to attract attention because of its unusual appearance. Purely as an attractive display of cigars it excites comment among smokers and non-smokers alike. But its practical use as a preserver of cigars is of course its main feature. Its scientific construction that automatically maintain atmospheric conditions best suited to cigars seems to have done away with the usual cigar-stand complaints of "too dry" or "too moist."

Even the sceptics are forced to acknowledge that the 2,000 druggists in the National Cigar Stand Company can and do buy in quantities sufficiently vast to make low prices possible.

The stand is earning the
