EUROPE'S HAPPIEST PEOPLE.
 From Their Adherence to the Home Country the Swiss Take the Palm.

If it be in harmony with one's surroundings to work and to thrive a little and to rear children, to have liberty and security and be tolerant and self-respecting constitute any measure of happiness, then the Swiss are by all odds the happiest people in Europe. Such, says a writer in *Everybody's*, is the judgment of all observers that have been much among them. You can test it by a single reference. From every other nation in Europe there is emigration; from Switzerland little or none. At all times about 300,000 Swiss are in foreign countries, learning languages or methods of combining travel with work, but they come home. The typical Swiss never thinks of making permanent residence outside of Switzerland. Or, if once thinking so, he changes his mind when he makes trial thereof.

Bagged at the Knees.
 It is difficult to avoid "talking shop." A story which illustrates this is told of the late Col. H. G. Toler, the noted horseman, who died in Wichita, Kan. Toler was speaking of Col. Toler and tuckian was speaking of John R. Gentry and many other famous horses. The turf has suffered a great loss in him. A better judge of horseflesh and a pleasanter man you'd never find. I used to love to watch him studying horses. He was very keen. He was at his best then. A rich tailor once brought him to see a new acquisition, a trotter of doubtful quality, for which, however, \$4,500 had been paid. The tailor was full of enthusiasm about his horse. He little knew he had been done. "Look at him," he said. "There's a horse for you. Look at them legs." "Very pretty," said Col. Toler, grinning. "Very nice legs, indeed. But don't you think they bag a bit at the knees?" "—Troy Times.

Local Water-Powers.
 "What do you understand by a cataract?" the new teacher of Number Two asked Willy Straw. The answer came promptly. "It's the fire-igne down at Daleville Corners," he said, in breathless haste to impart his knowledge. "But it leaks some, and it isn't half so good looking as the 'Torrent,' either. You just wait till parade day and you'll see, teacher!" —*Youth's Companion.*

Oil Fields of India.
 A recent British statistical report states that during the year ended March 31, 1914, the transportation of kerosene oil into India fell off nearly 10,000,000 gallons. During the preceding year there was an almost identical decline, so that, compared with the fiscal year 1901-02, the reduction was nearly 20,000,000 gallons, equal to 21.7 per cent. The decline in the import of Russian oil was 19.4 per cent and the American oil 27 per cent. The rapid development of the Indian oil fields has caused this decreased import. The Indian oil is not set of as good quality as most of the imported oil, but its cheapness secures it a market. American oil, it is said, has security for a limited market in its superior quality, but keen competition among all the common grades seems assured.

Garber's Improved Poultry Powder!

POULTRY POWDER.—We claim that this Powder will largely increase egg production, strengthens weak and drooping fowls, promotes the health and growth and development of all varieties of Poultry, and insure fine condition and smooth plumage. Compounded upon the most scientific chemical principles, being highly tonic, stimulant, antiseptic and alterative makes it a most powerful and natural preventive and curative agent, beside being specially adapted to making hens lay. As an egg food for making hens lay it has no superior. For carrying fowls safely through moulting; fitting for exhibition and market, increasing the size and strength, and hastening the growth of young poultry, it has no equal; is absolutely pure and highly concentrated. One ounce is worth a pound of any other kind. Strictly a medicine, to be given in the food, once daily, in small doses. Prevents and cures all diseases of hens. Worth its weight in gold when hens are moulting and to keep them healthy there is no other food on the market like it. 1 1/2 lbs. 25c, 3 lbs. 65c.
