Nerve Sick

If weak, worn-out, nervous, cannot sleep; have indigestion, headache, neuralgia or periodic pains, it is because your nerves are weak. It is the lack of nerve force that makes the stomach, heart, lungs, etc., work imperfectly—become sick. Dr. Miles' Nervine cures the sick when it restores nerve strength, and puts the power behind the organs to do their work.

"Almost three years I suffered from nervousness, indigestion, and palpitation of the heart. I could not eat or sleep with comfort, or walk or talk without suffering. Altogether I was in a bad condition. My doctor did not seem to do me any good. I had tried so many remedies that I did not have much hope of any of them doing me any good. Dr. Miles' Nervine was suggested by a friend. I got relief from the first, and after a few days I felt like a new person. It not only relieved my heart and nerves, but has invigorated my whole system. I am very grateful because since I have stopped using it, I have had absolutely no return of my old trouble."
 MR. HOWARD FORD,
 60 Summit Ave., Worcester, Mass.
 Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

CATHEDRAL IN ICE AT SEA

Marvelous Spectacle Witnessed by Sailors Off the Bank of Newfoundland.

An iceberg that resembled a huge cathedral dazzled the passengers of the Scandinavian-American steamship Hellig Olav when that vessel was passing the Bank of Newfoundland recently, reports the New York American.

The Hellig Olav at the time was cutting her way through a calm sea under a cloudless sky. The sun shining on the domes, spires and pinnacles of the iceberg rendered it a marvelous spectacle. It appeared off the starboard bow, not more than a mile away. It was fully 200 feet long, but the main body of the great mass of crystal was not more than 50 feet high. Above this rose what resembled a dome of ice, what might be termed the roof of the berg. There were scores of spires and needle-like points pointing upward.

So greatly did the form of the berg resemble a cathedral that one passenger remarked that he almost expected to hear the chimes sound. The berg reflecting the rays of the setting sun in a thousand glittering points remained in sight until nightfall, fading at last to a small dot that was brought into relief through marine glasses.

ROMANS AS SHOW GOERS.

Something of Interest for Modern Lovers of the Drama to Ponder.

Just how the ancient Romans went to the theater and what kind of shows were billed in the days of Augustus and Nero was explained by Prof. Walton E. McDanel in a free public lecture at the University Museum of Science and Art yesterday afternoon.

The audience heard with some surprise that the political lights of Rome, the senators, got the choice seats, the aristocrats sat next, then came the husbands and wives and last of all, way up in the "peanut" gallery, sat the women who came without escorts. The lecturer also told that married men got better seats than single men and that boys were seated under the view of their pedagogues.

In describing the big theater built by Pompey the Great he startled his hearers by declaring that in the fine art of handling the masses "Dick" Croker was a child compared to the late Pompey. The lecture was illustrated with numerous lantern slides.

STILL DEMAND FOR WHIPS!

Despite the increasing use of Automobiles and Electric Cars—Bicycle Craze Hurt Trade.

To one who is not acquainted with the extent of the business it seems a mystery where all the whips go to, says the Springfield Republican. One local concern is able to turn out about 20,000 whips in a single day under favorable conditions, and it is only one of many companies. Westfield, is of course, the center of the whipmaking industry of the world, and there are many horses in that world. Some of the local whip men have studied the automobile question to quite an extent, endeavoring to find out the possible effect upon the whip business. Some thought a few years ago that the bicycle was responsible in a measure for the dull times in the whip business, and it may have had some effect.

At that time there was less demand for livery teams than previously, and there was consequently little use for whips. The bicycle was not so much in demand as in former years, but the automobile and electric cars are taking its place. One would suppose the rapid construction of electric roads all over the country would tend to injure the whip trade, but in spite of automobiles and electric cars the output of whips continues year after year. One of the local whip men said recently that he had no fear of bicycles, automobiles or electric cars ruining the whip business.

Drop Cakes.

Beat one-half cup butter with one cup of sugar until you have a perfect cream. Add one-half teaspoonful soda dissolved in one-half cup sour cream and stir into the mixture of cream and sugar. Then add, beating until very light, two and one-half cupfuls of flour and nut meats, if preferred to fruit. Flavor with vanilla and drop spoonfuls on a buttered sheet or pan, and bake in a moderate oven.

To Keep Cut Flowers Fresh.

Cut flowers, so expensive at this time of the year, will be found to keep their freshness for days if they are given fresh water at night and placed in a covered tin pail in a cool, well-ventilated room.

For Babies Colds.

Bake an onion in hot ashes, rub chest and back, also the soles of feet.

His Theory.

"It is a rumor," said the poor but honest young man, "I would probably be able to win the heiress in a walk."
 "Why do you say that?" queried the dense friend.
 "Because," explained the other, "a rumor soon gains currency, you know."
