Council Ordered Both Light Companies to do so Monday evening.

Borough Council met in regular session Monday evening with all the members and Burgess Shrite present. A number of communications were then read: One was from ex-burgess H. C. Schock asking Council to prohibit the use of heavy trucks on his pavement on Delta streets. No action. The letter of acceptance to Burgess J. W. Shrite of their ordinance was read from the Marietta and Elizabethtown Electric Light Company. A communication from Samuel Kurtz was also read but no action taken.

A petition almost in the shape of an ordinance, was received from a number of citizens who are desirous of getting gas. They reside on East Donegal and South Barbara streets. No action.

Mr. Zeller reported that an expert examined the boiler at the water works and said it will stand a pressure of 85 pounds to the square inch with safety. The test was made by Mr. Harvey, superintendent of inspections.

There was no report from Burgess Shrite.

Mr. Greider of the Street committee, reported as follows: Columbia Avenue to Delta street is bad and should be repaired.

The County Surveyor made a number of surveys in the borough. One on Columbia Avenue was as follows: The fence on the south side of the street from Walnut street east is on borough property by 18 inches and on north side fence is out too far.

On the north side of Columbia Avenue west of Walnut, the fences were out 6 inches. The survey on Apple Tree alley showed that from C. Schock's elevator to the stable across alley is only 12.7 feet, therefore alley does not have its full width.

The drain pipe on Barbara street was reported clogged and a number of foot bridges were reported repaired. The crooked tree and old stump in front of the Trexler property on Delta street were ordered removed, pavement repaired and two other trees planted.

Mr. Mumma reported the sidewalk at the Greiner property on Lumber street, washed out. The Street committee was instructed to see the property owner and adjust same. The ashes were reposed hauled.

Mr. Zeller reported gasoline engine at water works in good shape. Also turbine and the shifting box that was cracked will be repaired and ready for use in case of fire over the Fourth.

Mr. Longenecker stated that the box was broken through carelessness. That Good said it was O. K. when he left and that Chas. Swartz, who had packed it, did not understand his business. Mr. Tyndall stated that Mr. Zeller took the Water committee out to see the break and all were positive it was an old break.

Mr. Zeller reported the purchase of packing for engine, subside and race cleaned, grass cut at reservoir, etc.

Mr. Tyndal of the Finance committee, reported the approval of a number of bills.

Mr. Zeller reported the kitchen at Shtatz residence plastered, old willow tree removed and that he asked Miller Bros. to patch the roof but they told him to get Mr. Nissley or Mr. Snyder.

Mr. Mumma reported a number of lights out and all were repaired. Hereafter the members of the Light committee will be supplied with printed postals and whenever a light does not burn, they will promptly notify Mr. Kieffer, who will repair same.

Mr. Hoffer of the Board of Health reported the sanitary condition of the Borough good and that we had six births and three deaths the past month.

The treasurer's report showed a balance of \$1,671.00 in the Borough account and \$3,278.23 in the Water account.

Mr. Greider said that the Street committee under direction of the Solicitor, notified Alois Bube to discontinue running water on Market street but that he still continues to do so.

He also stated that Columbia Avenue should be repaired and should not be left go until winter. Mr. Mumma made a motion that said street be macadamized which was seconded by Mr. Zeller but president Longenecker refused to recognize the motion because all the other work recently ordered by Council was not finished. This work includes the macadamizing of Delta street from Main to the depot and a comparison of these two streets will readily tell which is most urgent.

The rules were suspended several times during the meeting to take action on matters that were not brought up under the proper head.

The deed from Mr. and Mrs. Jac Zercher for an extension of a street was presented, accepted and ordered recorded.

The stable at water works was ordered repaired.

Mr. Fellenbaum read the list of delinquent water renters and upon motion he was ordered to give all ten days notice.

The Burgess was ordered to consult the Solicitor relative to the ordinance for granting permits to lay gas pipes.

The clerk was notified to ask the Marietta and Elizabethtown Electric Light Company to file its bond as per ordinance. Upon motion the Manheim Electric Light Company was ordered to do likewise (file \$5,000.00 bond which was never done) as per its ordinance.

Mr. Longenecker presented the drafts of the borough's sewerage system.

The Water Superintendent was ordered to buy a barrel of oil, packing, etc.

The members of Council and Burgess Shrite will meet Stauffer Brothers at pumping station on the morning of July 4th, and arrange for tapping the latter's pond.

After the payment of a number of bills, Council adjourned.

May Locate Here.

A member of the local Board of Trade is now in communication with a large manufacturing concern that is desirous of locating here. The communication was received on Saturday. The concern is Herbert Russell Ludden, manufacturer of factories, lofts, manufacturing plants, etc., of 180 Remsen street, Brooklyn, N. Y. This concern asks if the borough would offer a site, and that it will employ five hundred skilled mechanics. The company is desirous of locating here and must have ample room for railroad siding. This would certainly boom our town and we hope our citizens will do all in their power to secure another industry for Mount Joy.

Young Men's League Organized.

A Young Men's League was organized on Monday evening in the pastor's study of Trinity Lutheran church. The object of the organization is to promote better fellowship among the young men of the church. The following officers were elected: President, Clarence Walters; vice-president, Paul Buohli; recording secretary, John H. Zeller; treasurer, William Dellinger.

Stole Goose Eggs.

Frank Zeager, who tenants the Longenecker farm, near town, put a setting of eggs under a goose and within a few days the eggs were gone. Mr. Zeager says a Mount Joyan took them and that he must return the eggs or half of the geese when they are hatched.

Zeller Gets Banner Prices

At a public sale last week auctioneer Chas. H. Zeller sold eleven shares of Union National Mount Joy Bank Stock for Mary E. Geyer, deceased at \$115.00, \$116.00 and \$116.50 per share. The par value of the stock is \$50.

200 New Desks

We Will Receive More Money at Seven Mill Rate Than Last Year at Eight

The regular monthly meeting of the School Board was held Monday evening, all members being present. The committee appointed to audit the account of D. Boyce, tax collector, reported that it had done so, and found the account correct.

The Secretary reported that he had completed the new duplicate, and that all tax-payers owing more than a dollar, had received notices. Under the new valuation for the Borough, which is \$733,855, \$116 more will be realized this year from a 7 mill tax rate than was obtained last year from an 8 mill rate, when the valuation was lower.

The Secretary reported that the 200 new single desks, which will be used in the Second, Third and Fourth Primaries, and in the Intermediate, had arrived, and on motion bill for same was ordered to be paid as soon as the committee is satisfied desks are up to the specifications. The Repair committee was instructed to have the desks assembled and placed in position. The old desks will be sold.

The Supply committee made another report concerning the blank diplomas, which had been returned to the publisher on account of a number of them being soiled. The secretary was instructed to offer to pay for the perfect ones at the regular rate, or to pay the full bill if the publisher supplied perfect ones for those soiled.

The Repair committee reported complaint concerning water on pavement at entrance gates to school when there are heavy rains; also, overflow of conductors at front angles of school building. Committee was instructed to make observations next heavy rain and report at next meeting.

Bill for coal and several small bills were paid and some needed supplies, on which there were bids from five supply houses, ordered. Three out of the five bidders got small orders.

Adjourned.
