**A Vast Difference**

Tramp—A man who does not work, who does not want to work because work interferes with his traveling; lives without working and travels constantly.

Hobo—A skilled or unskilled unemployed laborer without money and looking for work.

Bum—A man who hangs around a lowclass saloon and begs or earns a few pennies a day in order to obtain a drink; usually an inebriate.

**Don't Neglect It**

It is a serious mistake to neglect a weak heart. It is such a short step to chronic heart disease. When you notice irregularity of action, occasional short breath, palpitation, fluttering, pain in chest or difficulty in lying on left side, your heart needs help—a strengthening tonic. There is no better remedy than Dr. Miles' Heart Cure. Its strengthening influence is felt almost at once.

"I have used 10 bottles of Dr. Miles' Heart Cure and can truthfully say it has done me more good than anything I have ever used, and I have tried nearly everything that I know of. The doctor who attended me asked me what I was taking and I told him Dr. Miles' Heart Cure, he said it was not going to do me any good, but it did. I have not taken any for a year now, and while there is occasionally a slight symptom of the old trouble, it is not enough for me to continue the use of the medicine. I should get worse I would know what to do. Take Dr. Miles' Heart Cure as I did before. I consider myself practically cured of S. H. DUNNAM, Livingston, Texas.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit you. If it fails he will refund your money.

**THREE YEARS' LABOR COST.**

A Fine Piece of Mexican Drawn Work Entirely Ruined Just After Its Completion.

To spend three years upon a piece of work and then, by the simple overrunning of an iskland, run it all to naught is not a good spirit, but such was the case of a German woman who for three years worked unceasingly upon a piece of Mexican drawn work sawn the Philadelphia Record. A few days ago marked its completion, and it was laid out upon a table to await the inspection of a purchaser, who had offered a sum far beyond the limit of what one would imagine fancy work to be worth in any quantity. The proud owner of the work was suddenly awakened from a nap by a scream from her little daughter, and looking at the drawn work, imagined she was in the midst of a nightmare, for the greater portion was dripping with the blood-contents of the husband, upset by the little child. Chemists and drug stores were telephoned to for recipes and articles for removing the stain, and after using a quantity of acids the ink had faded away, and when the drawn work had been placed in the sun to bleach, peace was partly restored in the upset household. When it came to bring in the precious piece of linen, the first touch made it practically dissolve into nothing, so thoroughly had the acids eaten into the fabric.

**WHY CIGARS COME UNROLLED**

They Get Twisted in One Direction in the Factory and in Another by Smokers.

"It is an every-day occurrence to hear men complain of poorly made cigars," said a well-known tobacconist one day last week in discussing the matter with one of his patrons, according to the Philadelphia Record. "It is not always because a cigar is indifferently or badly made that the wrapper curls up and comes off. Very much often this comes from the cigar having been rolled by a maker's left hand and later smoked from the hand of a right-handed man. All cigarmakers must use both hands equally well, and economy, both in time and material, is the prevailing rule in the tobacco factories. When a piece of tobacco is cut from the wrapper it is cut on the bias, and rolled from left to right on the filler, and at the same time by the other hand the remaining pieces are used being necessarily rolled in the opposite way. For this reason the man who holds a cigar in his right hand, which always receives a few twists during the course of a smoke, curls the wrapper the wrong way, and easily enough it becomes loosened."

Centers of European Population. London and Manchester are still disputing as to which is the greater European center of population. Most people would suppose that London owns the title beyond peradventure. Even if one draws a circle with a radius of 30 miles about Charing Cross station one gets a population of more than 4,000,000, as against 5,500,000 within a similar distance from the Manchester exchange. But protracing a circle with a 40-mile radius one gets a greater Manchester that shows a population of more than 8,000,000, as against a greater London of only about 7,500,000.

Must be True to Name. "Ice cream must be true to name, and must contain not less than 12 per cent. butter fat, together with sugar and pure fruit flavor. Eggs and a small amount of gelatin may be used."

This order was issued by State Dairy and Food Commissioner Foust on Tuesday to the ice cream manufacturers of Pennsylvania. The purpose of the order is to stop the use of skimmed and watered milk.

**NEWSPAPER "DOPE" SHEETS**

Educating Even the Children of the Cities in Race-Track Gambling.

Any morning in Chicago or New York one may see girls of 16 and 17, with their heads close together over a newspaper tabulation, trying to figure out "winners" during their street car or elevated road ride to the factories, and offices where they are employed. Listen to them and you will hear the language of the track. They know the relative reputations of the jockeys, and can talk glibly of their riding weights and of their seats in the saddle. They know the horses and their supposed blings for track, weight and distance. They are ready for hand-picked plucking, says Edgar Grant Sisson, in the World To-day.

Meet them on the way home and you will hear them say sadly that "luck" had not been with them that day, and will see them tear up their tickets and throw them away. Only one thing is worse for these girls than losing, and that is winning. Losses may bring a tardy, dejected reform. Winnings lead to the frenzy of daily trips to the race courses themselves; to the spurring of all wild emotions; to the plunge into the black, engulfing chasm where life is the least of the things lost.

Observation will show that boys take their first gambling lessons earlier than girls. If they have sucked the poison, they will be hardened gamblers when not half way through the teens. The idea of working for a living, and the idea of the fever of chance in their blood. In pool rooms, on race trains, at the tracks, the majority of "regulars" are young in years, though old in everything else.

But though their schooling is sooner acquired than that of girls, it is begun at the same place—the hand-book kindergarten, and the instructor is the same—the newspaper "dope sheet."

**BEAUTY OF AMERICANS.**

Secret of It Lies in Freedom from the Mercenary Spirit in Marriage.

"The beauty of the American race has for a long time been the wonder and the envy of the world. The tall, lithe young men of America, with their bold, intelligent faces, and the tall and graceful young women, so pretty and clever, have impressed foreigners profoundly. It remained for a distinguished foreigner, Dr. Emil Reich, the Hungarian philosopher, to tell the world the secret of American beauty.

Reich, in conversation with an American woman in New York, said: "The beauty of nations differs very much. The Latins are less beautiful than the Anglo-Saxons. The angularity of the North German woman is notorious. Money-bag married money-bag, and the result is a people of severely plain aspect.

"The Americans are a beautiful race. The American marries because she loves the woman, and she loves him. The American is insulted if any mention of dowry is made in his wedding arrangements. Hence the American people have become exceedingly beautiful.

"Love is at the bottom of it all," Dr. Reich ended. "Love marriages alone produce beautiful, healthy children. America is the country where love marriages prevail. Hence the American is the world's most beautiful race."

**SHORT TALKS BY L. T. COOPER.**

**RHEUMATISM**

Old Mr. Rheumatism hangs on tight and bites and pinches when he takes hold. It's quite a job to shake him off. It's hard to believe that all the pain and trouble he causes comes from such a little thing as a sorely tiny bit of acid in the blood the kidneys haven't taken care of. But the kidneys aren't to blame. I used to think they were. Now I know better. It's that overworked and over crowded stomach giving the kidneys part of its work and the kidneys can't do it. I found this out with Cooper's New Discovery. It puts the stomach in shape, but nothing seemed to reach my case. For a long time I have been a victim of sciatica and inflammatory rheumatism, and my suffering has been too great to describe. For weeks I lay helpless with every day on the subject of my case. I could not bear to move. The slightest touch would cause me the greatest agony. Several doctors treated me but they failed entirely. I tried many remedies but nothing seemed to reach my case, so I continued to lay helpless. My kidneys and stomach were affected also. I could eat but little, digest less and gradually my strength left. I lost flesh rapidly.

LAWRENCE TUSCANY.

"I began the use of the famous Cooper medicines of which I heard so much. To my surprise and delight I improved immediately, and after using several bottles I felt like another person. My strength and appetite returned. The pain and soreness left me and now I feel better than I have for months." Lawrence Tuscany, 1122 Aldrich Ave., North, Minneapolis, Minn.

We sell Mr. Cooper's celebrated preparations.
