

## Gem Laundry Tablet

Does Not Contain Any Acid

Cleanses, Whitens and Blues in one operation, thus saving labor two-thirds. A thorough germicide and deodorant destroying the disagreeable odor due to perspiration and imparting a freshness and whiteness unknown to laundry washed in the old way. Guaranteed not to rot or injure the most delicate fabrics, and will save one-half the cost of white wear due to endless rubbing of the wash-board. Without a doubt a single trial will be sufficient to give them a hearty endorsement and continued use of them.

### 5 Points of Merit 5

- 1—It will do the washing cleaner, quicker and better than is commonly done and does not interfere with the housework. Simply put on and boil.
- 2—It makes the laundry a pure snowy white without the addition of bluing.
- 3—Positively no stained, streaky or rotted clothes.
- 4—It is a germicide and deodorant killing all germs and unpleasant odors.
- 5—It will whiten your bed-spreads, linens, laces and garments that have been yellowed by age.

CAUTION: Be sure and get the genuine GEM LAUNDRY TABLETS. Accept no substitute as the market is rapidly being flooded with imitations—the sincerest flattery possible to an honest preparation. There is none "just as good". For Sale by

## HOW RADIUM MAY BE FOUND

Even Laymen May Ascertain the Presence of the Wonderful Element in Science.

The United States government is taking steps toward developing the radium-producing resources of the country. The chief of the geological survey announces that he would like specimens of radioactive minerals, and for the guidance of those persons who believe that they possess such specimens it says that the simplest means of detecting radio-activity is by the use of a photographic plate—the more sensitive the better. The plate should not be removed from its inclosing black paper. The specimen to be tested should be laid upon this black paper in a dark room and left there from two to fifteen hours, a small metal object having first been placed between the specimen and the black paper on the plate.

Instead of the metal object a few small nails may be arranged so as to form the initial of the owner and left on the paper-covered plate before the specimen. After thus remaining in the dark room the plate should be developed in the usual manner. If the specimen tested has radio-activity it will be shown by a black spot on the plate. A photograph of the metal object or of the nail-formed initial will be produced on the plate exactly as if the plate had been exposed to the sun's rays. The test should be made, if possible, with from half a pound to a pound of the material.

**LITTLE MAIDS AS EDITORS.**

Three Girls of New Jersey Town Issue Bi-Weekly Paper—Proceeds Devoted to Charity.

There are three little girls living in a small New Jersey town who were very anxious to make some money for charity. Fairs were too commonplace, and they were bound not to beg, so what do you suppose they did? They edited a small bi-weekly paper to help it along, and a copy of this paper is called the Bird Times, and is very, very cunning and amusing. It is written on one side of a piece of foolscap, and contains all the very latest news from Bird Land, including little jingles and conundrums, every one of which is entirely original. One of the editors is an artist, so in every edition there are several little drawings. Illustrating different events in Bird Land, which greatly improves the Times' appearance.

At present there are about 30 subscribers, which brings them in 60 cents every two weeks, which, of course, amounts to \$1.20 a month.

A dollar and twenty cents isn't a very large sum, but when several months' earnings are put together and saved, it amounts to a good deal, and these little girls are able to help many people to whom a dollar may mean bread enough for several hungry little ones.

**Only Thirteen Years Old and Has Larruped Pupil Who Was Twice His Weight.**

The youngest pedagogue in Missouri, and perhaps in the United States, is teaching a country school near Gainesville, in the Ozark mountains. He is Peter Harrison, aged 13 years, says the Kansas City Journal. Glenn is the oldest son of Gay T. Harrison, a lawyer.

He completed the course of study of the Gainesville public schools in March, 1902. The same month he took the examination given candidates for third grade teacher and certificates in Ozark county, making a good average and securing a certificate. He continued to study, and just after he became 13 years old he took the examination for a second grade certificate. This time his average grade was the highest made, being 96 per cent. Mr. Harrison believed his promising son was too young to teach, and refused to let him accept several offers. But one day when his father was absent attending court, Glenn took the job of teacher of a rural district, the directors of which came and offered him the place. He began work before his father returned, and the latter, finding him so ambitious, decided not to interfere.

Glenn now has 29 pupils. The majority are larger and older than he, but he maintains a degree of discipline which many older and more experienced teachers may well envy. "How are you getting along, Glenn?" asked his mother one day, when he came home at the end of a week's work. "I had to whip several of the boys," the youngster replied. It turned out that among others he had larruped an obstreperous youth that weighed 180 pounds. Glenn doesn't weigh much more than half that.

**THE LAND OF TO-MORROW.**

**Little Reward for Time in Japan Under Ordinary Conditions—Great Change in Time of War.**

In the countries over which Spain held rule the favorite word of the people is "manana," meaning to-morrow and in those countries to-morrow answers just as well as to-day. But even in these countries there is nothing which compares with the Japanese disregard for time.

The Bible says, "Yet a little more sleep, yet a little more slumber, yet a little more folding of the hands is rest." In Japan the traveler finds the phrase, "A little more tea, one more smoke and the folding of the legs to sit."

Japan is, under ordinary conditions, the Land of To-morrow, says the New York World. When the time comes to act quickly, she is the Land of Instant Movement. She strikes quickly, and, as an American naval officer said the other day, "that is why Japan has made it understood that she is going to carry on this war as mistress of the eastern seas."

**Snakes as Rat Catchers.**  
Snakes are not infrequently employed as rat catchers in the Philippines. Nearly all of the older bungalows in Manila possess what are called house snakes—huge reptiles that reside permanently in the roof and live on rats. These big creatures are harmless, and rarely, if ever, leave their abodes.

Harsh physics react, weaken the bowels, cause chronic constipation. Doan's Regulents operate easily on the stomach cure constipation. 25c. Ask your druggist for them.

**LANDISVILLE.**  
Mrs. Ferguson and daughter Minnie, of Columbia, are tenting on the grounds.  
The transfer between the grounds and the railroad stations will be in charge of Milton Marguard.  
Chas. E. Sauber and family, of Lancaster, arrived on the grounds on Monday to spend their summer vacation.  
One of the heaviest windstorms for many years, passed over the camp grounds at 5.50 o'clock Sunday evening, with but little rain.  
The trolley company should recognize the necessity of erecting a suitable shelter for the convenience of its patrons at the entrance to the grounds.  
The Wheatland House will open on Thursday, July 16th. Israel Mayer to have charge of it. Mr. Mayer is also proprietor of the Landisville Hotel. He has made many improvements to the buildings and will conduct it on the same up-to-date plans as last year.

**Church Notes.**  
EVANGELICAL  
Sunday school at 9 a. m. Preaching at 10 a. m. and 7.30 p. m. Rev. Egge is attending the Bible Conference at Perkasie this week. He expects to return on Friday and on Sunday he will give: "Echoes of the Bible Conference." The theme of the morning discourse will be: "Not ashamed of the Gospel." In the evening the minister will preach on: "The Faultless Bible." Every body is heartily invited to attend these services.

The valuable and instructive series of articles on Commercial Law published for some months in the Philadelphia Sunday Record, and which recently terminated, will be published in book form by the author. Any person desiring this valuable eductor should communicate with Utley E. Crane, the Commonwealth Building, Philadelphia.

S. B. B. & Co. have just received a case of the best overalls ever offered at 50c.

The P. R. R. pay car was in town on Tuesday.
