# DRUG STORE!

This is not a little corner drug store. Nor is it one of the little old fashioned kind. It's a lively, busy, big city drug store in which an attempt is made to make it complete in every department. We are always looking for the goods which our customers are looking for. We carry a stock all the time that excels all other country drug stores for a town of this size and quite a few larger. If there is some other line of goods which you would buy from us if we had it in stock, we would be only too happy to keep them in stock for your accommodation.

We have already made this store one which many people speak about as always having what you want and giving what you ask for. If this is the kind of a drug store you like, then we would be exceedingly pleased to begin doing business with you. During the past year our business has increased over any other year since in business, not only at our prescription counter but sick room goods, toilet articles as well as any patent medicines. No matter what you buy of us or where you live in the town, if you want us to deliver your goods we will cheerfully do so free of charge.

### A Little Inside Drug Store History

For fear that you do not know them already, we want to give you a few inside facts regarding the drug business and inasmuch as they are facts, each one of importance to every family, we ask you to read them carefully. As you know a druggist's shelves are loaded down with innumerable patent medicines. Some of these are very good and some very bad. Among the manufacturers of patent medicines there are unscrupulous people, just as there are unscrupulous people in all trades. These unscrupulous manufacturers put up remedies which never ought to be used in the family. For example they have cocaine in catarrh powders, so that after a person has used them for a while he becomes addicted to the cocaine habit and consequently continues to use that cocaine powder for the rest of his life.

It is perfectly natural that reliable druggists should try to influence their customers not to buy injurious remedies of that kind, but should try to sell them remedies which the druggists knows to be safe and thoroughly reliable for family use.

As soon as these unscrupulous manufacturers found out what the reliable druggists were doing they immediately began to advertise that such druggists, were substitutes; "and that all substitutes were cheats," frauds, rascals and thinking by this means to-compel the druggist to sell their nefarious remedies when-ever innocent people should come in the drug store and ask for them.

Their libelous black Mail does not frighten us at all. If we have good reason for thinking that any remedy is not

desirable for family use we shall not hesitate to so inform our customers. Furthermore, we will not recommend medicine. The contents of which we do not know, because in so doing we would be liable to induce some people to use a remedy which was not for their welfare.

We have a line of our own preparations also Rexall remedies, every one of which we know to be safe, absolutely free from all drugs which could do harm, and thoroughly effective for the purpose intended. We do not hesitate about recommending our Own, and Rexall Remedies to you because we know that they are good. We know that they will do everything that we claim for them. We guarantee every-one to be satisfactory or we refund the money. Please understand us. In case of illness it is always best to see some good Doctor and have him prescribe the medicine for your need and bring the prescription to the drug store to be filled, but if you want to buy ready made medicine, then we are sure that you cannot get any better family remedies than those put up by E. W. Garber, and Rexall remedies. We invite you to buy them in place of medicines that you know nothing about, and that we are not able to tell you anything about.

### The Principle on Which we do Business

Our aim is always to serve our customers in the way which will in the long run be most satisfactory to them, and be to their greatest welfare often to do this, we must direct their attention away from the thing they wish to buy. Not knowing about them as well as we do. We have built up a large business, and have a long list of customers who have the utmost confidence in us, because we do try to be thoroughly reliable family druggist. We invite your trade.

### Sixteen Ounces to The Pound

We give 16 ounces to the pound, down weight on all goods sold over our counter, and they are not 16 ounces scant either like in some stores.

There seems to be a common error of belief that druggists give apothecary's weight when they sell Cream of Tartar, Borax, Sulphur and hundreds of other things, sold by the pound.

This is a mistake, we give you avoirdupois weight sixteen ounces to the pound, the apothecary ounce is heavier but the avoirdupois pound is heavier by 240 grains, because it contains 16 avoirdupois ounces. You get a 7000 grain pound here of the finest quality drugs that money and skill can buy.
