## Our New Machine

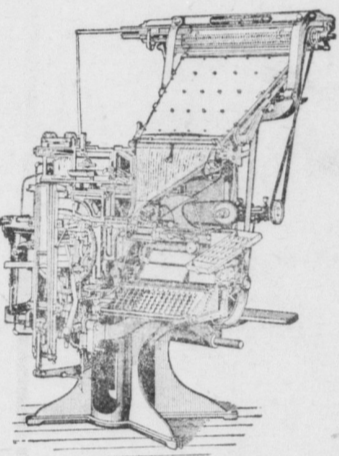

A LINO TYPE HAS BEEN INSTALLED AT THIS OFFICE

We Now Have in Operation One of the Most Wonderful Inventions and Pieces of Mechanism of the Age—A Mergenthaler Linotype.

We have from time to time, as our patronage allowed, installed modern printing machinery and only a few weeks ago we made the most important addition to this plant since its existence—a Mergenthaler Linotype machine. This wonderful piece of machinery sets, spaces, moulds, trims and delivers lines of type of many sizes and faces, the lines being any length for which the machine is set. This gives us brand new type every time we print which permits us to do better work than the ordinary printer who is continually printing from the same type, which, in time becomes worn and will not print to the best advantage.

Another feature is that it is a big time saver, thus enabling us to do more work, do it in less time and in a more satisfactory manner than heretofore. Then again, when our paper is printed we simply dump all the type into a metal pot, remelt it and start on our next week's issue, thus saving several days' time in distribution.

This machine was installed at a big expense but it is our aim to give our patrons the best possible and our purpose is to make the Bulletin office one of the best and foremost printing establishments in this section.

The Linotype

Years of continuous experiment and the expenditure of a great deal of money were required for the invention of the greatest typesetting machine, which is called the "Mergenthaler Linotype." The word "linotype" is a coined word, which means "line of type." This machine is conceded to be the most remarkable machine ever invented, and is scarcely second in importance to the wonders wrought by electricity. Its inventions and introduction has effected a revolution in the printing business. The Mergenthaler linotype was the first commercially successful composing-machine, and is today the standard composing-machine everywhere. It marks the first and only successful departure from the long-established forms of type composition. The last great improvement was the production of a machine in which the "linotypes" were produced instantly and ready for use on the press by the mere fingering of keys like those of a typewriter. The keys serve to assemble temporarily a line of matrices made of brass, bearing individual characters or dies, a Roman character in the upper or regular position, and the Italic or black letter in the lower or auxiliary position, against which the slugs or "linotypes" were cast in type metal.

The Linotype is a single machine, operated by one man, producing at a single operation the finished product directly in response to the operation of the keyboard. It composes matter more readily and more economically than can be done in any other manner. It does away with worn and battered type, and always gives a new, clean dress.

Duplicate slugs in any quantity, may be cast automatically. The Linotype is known today all over the world, and is in use in nearly every daily newspaper office in the world, there being over 14,000 in daily operation, which have been built by the Mergenthaler Linotype Company. Outside of the newspaper offices it is used extensively in book and job-offices where the highest class of composition is required. The Linotype produces finished matter of the highest quality, and permits the face or style of type, body, and measure to be changed at will. The operator can read and correct his matter as he proceeds before a line is cast.

The machine has nearly 2000 parts and will distribute 270 matrices per minute. We have a one-quarter horse power electric motor attached which furnishes the power. Aside from the Linotype Express, this is the only printing office in the county outside of Lancaster City, that has a Linotype.

We extend a cordial invitation to the public to see this wonderful machine in operation and especially request our patrons to call and see it. It has been in operation daily since its installation and can be seen at almost any time.

## 2 Barns Burned

BARN IS STRUCK BY LIGHTNING AND COMPLETELY DESTROYED

The Large Structure on the Farm of John S. Nissley, Near Bender's Mill Burned to the Ground Yesterday.

The fine large new barn on the farm of John S. Nissley, along the Rohrerstown, Landisville & Mount Joy trolley line, about two miles east of this place, was struck by lightning yesterday at noon and completely destroyed together with its contents. The barn was one of the largest in this section and was only built a few years ago. There was a thunder storm passing over that vicinity at the time when a bolt of lightning set the building on fire. The farm is tenanted by John Hertzler, who was busy threshing his wheat crop. The bolt of fire passed thru the barn floor where the men were working and set fire to the wheat and straw. The threshers immediately removed the engine, separator and straw baler to a place of safety, while Mr. Hertzler succeeded in getting all the horses and mules out of the burning building. In about an hour the entire building was consumed by the flames. All the wheat but a few loads in a tobacco shed, the hay, oats, etc. was consumed. The farming implements in a nearby building were saved. A wind blowing from the house to the barn, saved the former from destruction. A large tobacco and implement shed near the barn, was saved after some difficulty by the many neighbors that responded. The loss will reach thousands of dollars. The building is partly insured. The barn will be rebuilt immediately.

During the storm one of the Conestoga Traction Company's cars was struck by lightning near Salunga and put out of service and there were no cars here for several hours.

In the vicinity of East Petersburg considerable hail fell, ruining some tobacco patches.

The large barn on the farm of Phares Bomberger, between Manheim and Litzitz, was also struck by lightning at noon yesterday and completely destroyed. The loss will be about \$8,000.

Lightning struck a pear tree between the house and barn on the farm of Frank Emwiler, east of here, yesterday noon. Mrs. Emwiler being in the house nearby, was badly shocked. There was very little rain here during the storm but east of town several miles there were a few good showers.

At a recent public sale a man from our town bought an umbrella and when it was handed him he found it was the one he lost at a funeral about a year ago. His initial was still on the handle.

William Manning, an aged resident of this place, was taking a walk in the Henry Eberle cemetery on Sunday when he was taken ill very suddenly and removed to his home where he is still in a critical condition.

Rev. W. H. Egge will preach a specially interesting sermon in the Evangelical church on Sunday evening on Russellism Answered, or, The Certainty of Hell. It is worth hearing and is one of the most important and talked of subjects of the day.

We are in receipt of a letter from the Department of Interior, United States Indian School, at Carlisle, Pa., inquiring whether or not we would have employment for a young Indian printer. It is usually the custom of the school to put the Indian printers in first-class county printing offices for several months every Summer, just for a little fresh air, hence this communication. We will not accept the proposition although these young men are willing to work for their board, as we prefer giving our work to young men from our town.

**Beer Team Runs Away**  
Friday's Columbia Daily News: A two-horse beer wagon of Bube's Mount Joy brewery figured in a runaway this morning. The team was standing in front of Kemmerly's bottling works on Locust street when the horses took fright and ran to Front street where they took to the railroad tracks and ran north. The horses were caught after a short run before any damage was sustained.

**In the Livery Business**  
Ed Ream is enlarging his stable and just completed the erection of a wagon shed. He will embark in the livery business again on a larger scale, so you know where to get a team hereafter if you need one.

**Sold His Auto**  
Abraham Boyer of this place, sold his handsome Buick runabout to Jacob Shenk, a farmer near Rheems. He delivered it on Saturday.

**Not Too Late for You**  
If Adam had the chance to wear Getz Bros' clothes, he would not have tasted of the forbidden fruit.

**Team Breaks Thru a Bridge**  
Ex-Burgess J. W. Shrite, who is the general sales agent for the Standard Oil Company in this district, met with an accident at Donegal Thursday whereby several of his horses might have been drowned. While crossing the Donegal creek at the farm of Benjamin Garber on the road leading from Donegal Springs to Kraybill's meeting house, his horses broke thru the bridge, throwing the three into the water. There is a water wheel near the bridge and the water is dammed to quite a depth at the place the accident occurred. Mr. Shrite immediately got into the stream and held one of the horses' nostrils out of the water to save it from drowning. Several farmers hurried to his assistance and soon all the horses were removed from the stream but only after some difficulty as the harness was badly tangled and twisted. A plank caught in the wheel of his oil wagon, which kept it from upsetting. Aside from slight cuts and bruises to the horses there was very little damage. The supervisors of that township set to work immediately to repair the bridge.

**An Auto Catches Fire**  
The occupants of an automobile were badly scared in this place on Sunday evening. A touring car from Lancaster stopped in front of Hotel McGinnis for the purpose of lighting the lights. When the chauffeur struck a match the gas from the carbide tank ignited and for a time it looked as though the flames would consume the machine. They were however extinguished after the body of the machine was slightly damaged.

**Man Shoots a Thief**  
When John Wharvell, on West Donegal street, went out to feed his chickens on Sunday morning, there were six large young pullets lying dead in the yard. An investigation followed when he discovered a small animal under one of the chicken coops. Mr. Wharvell immediately procured an air rifle (the only gun he had) and shot the animal after which he found it was a mink.

**Another Big Time**  
The big festival and balloon ascension at Florin last Saturday evening was a howling success. Now don't forget the next similar event at the same place by the Florin orchestra, on Saturday evening, August 7th. Good music, refreshments and plenty of fun. Go and see the "nigger-babies."

## OUR UNION PICNIC

The Big Annual Event Was a Success

Weather Man Very Kind  
The weather man allowed the floating of clouds all day Thursday but only to hide the warm rays of "Old Phoebus" and not once did he allow them to leak until we were all safely at home, and our annual union picnic has gone on record as one of the most successful events in the history of the borough.

The committee had made excellent arrangements for both people and baskets. Cars were here as early as six o'clock and departed every half hour until all were down. Just as prompt did the Traction Company return us in the evening and great credit is due it for the excellent manner in which the company handled the crowd.

There was not a single accident to mar the day's event at Rocky and there were attractions galore for old and young.

**Picnic Pickups**  
Not an accident, we are pleased to note.

Many remained for the "dawn" in the evening.

Canoeing was the favorite pastime of Louie and Gussie.

Paul and Minnie enjoyed the circle swing we noticed.

Mount Joy was well represented at Rossmere in the p. m.

Mrs. C. F. Strayer of Harrisburg, accompanied the crowd.

We did not have the pleasure of seeing "Fatty" on rollers this year.

It required twelve specials aside from the regular cars to convey the crowd to Rocky.

The two-hundred-pound female in bathing attire had many local optics centered her direction. Could you blame them?

May be Christ, Charlie and Reuben aren't some skaters. Frank can also do the fancy but why shouldn't he as he used to run a rink.

James Glatfelter, who is making a study of aeroplane navigation, was deeply interested in the circle swing—his first ride thru the air.

May be "Billy" wasn't doing acrobatic stunts at Peoples' rink. The two Lizzies, Ella and Gladys and some others were also learning the art.

Madam "Who-ever-it-was" attracted the attention of "Washy" and his lady friends. She said they all have a bright future but some must hurry.

"Babe" and "Buddie" busted themselves, shooting the chutes while "Doc," George, "Keddy," Elmer, "Benny" and others were in bathing. They had some sport, eh.

Mina, May, Maggie, Lizzie, Cora Mary and Mabel certainly enjoyed the outing but oh how lonesome Christ, Walter, Joe and Norman must have been in such a crowd.

Hotel De Mumma, Hostetter-Greider & Fellenbaum fed over sixty people at supper. Among them were Mr. and Mrs. Jack Hostetter and daughter Louse of Chicago Mrs. George Best of New York City; Mrs. J. S. Mumma, daughter Bess and son Harry of Marietta; Mr. and Mrs. T. N. Hostetter and family of Lancaster, besides a number of local guests among which were Rev. C. H. Grove and daughter Frances.

**Sunday School Celebration**  
Ruhl's U. B. Sunday School in Rapho township, will hold their annual celebration in Stoner's grove, near the church, on Saturday afternoon, August 14. There will be a musical program and several addresses by prominent speakers. Supper will be given free to all who attend. A general invitation is given to all to spend the afternoon in the grove. A band of music will be in attendance to enliven the occasion.

**Bad Coons, These**  
On complaint of Jacob F. Snyder, tenant on the Jacob Hoffines farm, in East Donegal, Robert, Margaret and Thomas Brown, colored, of Marietta, were arrested for stealing a duck, chickens, and other things from Mr. Snyder. They are thirteen, fifteen and seventeen years old and the latter was jailed until court.

**What Ails this Woman?**  
Last week we noticed an ad in a paper not a hundred miles from this place, that read: "A light blue lady's coat was lost, etc." If this is true the Board of Health should investigate immediately as this "light blue lady" may have symptoms of some dread disease.

**Here's a Hot One**  
A young lady from town went to the country the other day to spend the Summer on the farm. Her country cousin was about to teach her how to milk when she asked: "Couldn't I just as well learn on the calf, as I don't think I would be afraid of it."

**Execution Issued**  
M. G. Sheaffer, attorney for George C. Diller's administrators, has issued an execution for \$225 against H. H. Rapho, of Rapho.
