EDITORIAL

Nothing but a car shortage is needed to clinch the evidence of prosperity.

Speaking of ingenuity, a bald-headed man up in Connecticut has had a spider painted on his head to scare off the flies.

We can think of no one who is not now in shape to reap the benefits of prosperity except the merchant who does not advertise.

If the flea is blind, as asserted by scientists, how is it that he knows enough to jump just as you are about to put your finger on him?

A German millionaire committed suicide because he was bored by his wealth. There's some consolation in being a newspaper publisher.

We are not in favor of suicide as a rule but the reported effort at self-destruction of the baby Shah of Persia shows a singular perspicacity in one so young.

The Summer girl can prevent the season from becoming monotonous by an interest in the various young men whose vacations do not all occur at the same time

The best yet regarding the three initial incident on the new Lincoln penny comes from the Youngstown Vindicator which says: "It simply shows what a man will do for a cent."

It is estimated by somebody or other that the world's supply of oil will be exhausted in twenty-seven years. There will still be time, however, for the Standard to slice a large pile of melons.

No, I don't believe that every man is the architect of his own fortune. Some are just plain carpenters, working by the day, but doing the best they can with a mighty mixed-up set of plans.

An epidemic of fraud resulting in the collection of large sums of money on worthless checks signed by irresponsible but well-dressed persons indicates that the era of confidence is at last with us again.

A paper in a neighboring town says it is needless to post speed limit signs in that town as long as that borough's council does not improve its streets. Thank goodness this is not the case in Mount Joy and we feel proud in saying that our principal streets are better than the majority of borough streets in this county. Take a spin over this way and see for yourself, Columbians.

The various post offices thruout the county, as well as those in the counties and states generally, have been fairly flooded with postal cards this summer. While this immense output has been the source of a good deal of profit to the government, it has required a large force of clerks and carriers. Probably it has occurred to but few people how many postal cards are used annually in this country. The authorities at Washington are just now considering a contract for the selling of 3,600,000 postal cards, to be sold during the next four years. These are extraordinary figures, within the grasp but few people. They mean 900,000 a year. This will cost the government \$800,000 while the people who will use them will pay \$320,000,000 for the privilege. This includes the cost of delivering. Nor does this comprise the postal card output. The United States is now buying annually from Germany, alone 70,000,000 postal cards, and also several millions from France and other foreign nations.

Circulation Counts

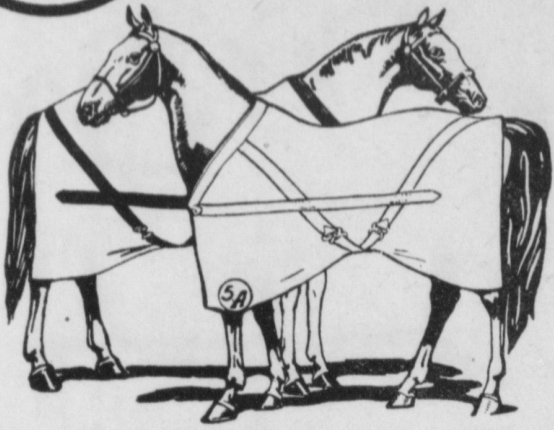

The wise advertiser spends his money where he is assured full returns. The paper that lies about how many subscribers it has, does not appeal to advertisers. It's the paper that spends money by improving and bettering its publication, that interests the man who has money to spend for publicity. There is no fake or bluff about the paper that makes an honest effort and is not afraid to share its success with the public. Circulation counts.

5A HORSE BLANKETS

Here is shown a 5A Bias Girth blanket for stable wear, which is the best of its kind.

Like every other 5A blanket, it's planned, woven and put together to give twice the actual service you'd get in any similar blanket of another make.

This blanket really protects the horse. The "Bias Girths" (instantly clasped together) keep it from slipping or turning.

It takes a lot of rubbing and pulling to tear a hole in a long-wearing 5A Bias Girth Stable Blanket.

Your dealer buys this, and a full line of 5A blankets for street wear, direct from our factory and thus avoids tribute to the jobber. You get the benefit in reduced prices on 5A blankets.

For street wear, use a 5A Square Blanket. Be sure to see the 5A Stay under Strap.

Two Boys Missing

Search is being made by anxious parents and their friends for Frank R. Brinser and James K. Nauman, both of Elizabethtown, who left home Saturday afternoon for parts unknown. Young Brinser, the son of John G. Brinser, is 14 years old, has blue eyes, fair skin, and light hair. He wore a blue serge suit, knee pants and a green soft hat. His companion James K. Nauman, is 13 years old, the son of Constable James R. Nauman. The Nauman boy has light hair, and carries a birthmark on the back of his head in the shape of a partridge. He wore a blue serge coat, with belt, and knee pants, of mixed goods. He is small for his age and his face is fair.

Outlook is Not Promising

With few exceptions the corn and tobacco fields north and west of town give very little promise of more than half a crop, owing to the dry weather. In some fields the corn stalks are burned brown and show no ears while in others there are small ear bunnies. Acres of tobacco is going to seed, while on an adjoining farm one may see a field covered with plants not larger than a man's hand. Some farmers will plow down their tobacco, claiming that with the most favorable weather conditions their crop will not yield enough marketable tobacco to pay for the handling.

Thrown Off a Horse

Harry Fry, a lad of twelve years, who has been living with George Barclay, a tenant on one of ex-Senator Cameron's farms in East Donegal, returned from a visit to Perry county with his left arm in a plaster cast, the result of a fall on Sunday. Harry was astride of a young horse that another boy was leading. Seeing that the animal was getting beyond the control of his companion Harry took a leap from it and fell, breaking his arm below the elbow.
