EDITORIAL

Why do many women reach for their hair when they hear the casual remark "it is false?"

Philadelphia Councilmen want free trolley car rides. Doesn't the city provide free ambulances to the Block House?

Mr. Nation has been smashing in Washington, and the "Gobs" are contemplating hiring Uncle Joe Cannon.

Leopold has paid the debt of nature. What he will pay in the next world for the sins he committed in this he probably knows by this time.

A Philadelphia dealer who was arrested for selling "spotted" eggs made the novel defence that "a spotted egg is just like an apple with a spot in it; you pick out the spot and the rest is good." Housewives would like to see him perform that extraordinary feat.

A dozen times a day during the last ten days have we been telling each other as we met on the streets "that it was cold." Wonder whether we thought the other people didn't know it, or whether we didn't have anything else to say. Custom is a funny thing, and causes us frequently to say foolish things.

An Excellent Entertainment

No Wonder She's Cross

The woman who has a thousand petty cares and annoyances while she suffers with headache or sideache must not be blamed if she cannot always be angelically amicable. Sold by druggists and dealers, 25c.

DANGER IN DELAY

Kidney Diseases Are Too Dangerous for Mt. Joy People to Neglect

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, diabetes, and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure kidneys with the certain and safe remedy, Doan's Kidney Pills which has cured people right here in Mount Joy.

Mrs. Frank Conrad David Street, Mount Joy, Pa., states: "It would be hard to describe how I suffered from kidney complaint and I really think I had nearly all the symptoms that attend this disease. There was a continual pain across the small of my back, which made me tired most of the time and I could not attend to my housework. I also had chills and dizzy spells and was subject to a constant feeling of languor. I was rapidly growing worse when I was told to try Doan's Kidney Pills and procured a box. I had taken but a few doses when I felt a great deal better. This encouraged, I continued their use and my health is now greatly improved. I am glad to recommend Doan's Kidney Pills."

MACADAM ROADS OBSOLETE

Reality of Dustless Roads is One of Our Modern Needs

Early in the nineteenth century, that small pieces of broken stone placed in a layer are by the action of water and travel transformed into a more or less homogenous road surface. Two or three generations afterward, the road covering effect of crude oil became known.

It is now generally recognized by highway engineers that the macadam road is, for modern conditions obsolete, and that from now on first class roads must be by the admixture of proper ingredients, have a mastic property by virtue of which dustless roads will become a reality and union of the road be avoided.

There is under way a movement going to the foundation of things in the good roads matter. To many good roads are an uninteresting and hackneyed subject. But of their vital necessity and of the advisability of constantly urging their construction there should be no debate. No other improvement will pay to the people such dividends as modern highways. A nation's reputation for enterprise, progress and all that goes to make it is worth living in, is determined very largely by the character of its roads, the great arteries through which flow the business and pleasure of the people.

Prosperous Young Men

A current issue of the Lancaster Inquirer contained the following:

Clayton C. Witmer teacher of the East Drumore high school since its organization, a member of the Millersville class of 1907; Elmer R. Kravbill, teacher of the Drumore high school, successor in that position of his brother, Ira R., and also a Millersville man, class of 1908; Henry F. Garber, teacher of the Mt. Joy township high school and a classmate at Millersville of the first-named of this trio, in other words a 1907 er; these young men are half of the half dozen graduates of the East Donegal (Maytown) high school who are at present township high school teachers in Lancaster county. They have been acquaintances since boyhood, were all born in the same neighborhood, began teaching at nearly the same time and in the same section; and are doing credit to the high school of which they are graduates, the school that pays the highest monthly salary (\$140) to its principal of all the schools of this county and has turned out the largest number of teachers, as The Inquirer stated several weeks ago. Youth, health and ambition, three of life's best blessings, are theirs. May they continue long to honor, by good work and good repute, the school in which they got their start in higher education.

Big Mummies' Parade

For the first time in its history, Lancaster City will have a New Year's or in other words, a Mummies' parade and there is every assurance that it will be a great success inasmuch as over five thousand men of the city and county will contest for prizes, the total value of which nears two thousand dollars. The general committee in charge of the movement has been working hard and arrangements are now completed for the initial event of this kind in the city. To a large extent the success of the movement will be due to the efforts of Chief Marshal Fred F. Groff, who has been laboring unceasingly. A great number of local clubs and societies and many county organizations have signified their intention of entering the parade and nearly every band in the county has been pressed into service as escorts. There will be special trolley accommodations for bringing the people of the outlying districts into the city for that night, which is expected to be the biggest of its kind in the history of the city.

Lawyer Horsewhipped

Isaac R. Herr, of Elizabethtown, one of the most prominent lawyers in this part of Lancaster county, was severely horsewhipped by an irate woman, who claims that the lawyer made improper remarks about her husband in a recent court trial. The whipping took place in the public square of the town, in the presence of quite a large number of people. Mr. Herr fled quickly and took refuge in the office of Justice of the Peace John H. Epler.

Births Exceed Deaths in State

The number of births in Pennsylvania continues to run far ahead of the number of deaths. The report of the Bureau of Vital Statistics of the State Department of Health for September last, just completed, shows 16,567 births throughout the state, as compared with 8632 deaths.
