

**Bring Her With You!**

**WOMEN** know better than men what is good quality in Cloth. They know a pure wool fabric when they see it, and they have good taste too in the selection of fabric, design and color. That is why we like you to **Bring Her With You** when you want to buy a new suit or overcoat. Ask for the International genuine all wool line, and put the question of worth to her. International quality can stand the severest test—aye—the test even of a bargain-hunting lady. **BRING HER WITH YOU.**

**Horse Health**

Depends Upon the Animal's Ability to Resist Disease

The food given your horse during the Winter is difficult to digest because the "Curing" process has robbed it of the digestive elements contained in the natural saps and juices.

This taxes the animal's digestive organs to the utmost and makes necessary an increased expenditure of Vital energy.

The digestive organs become overworked, the Vitality lowered, and the blood filled with poisonous wastes resulting from undigested and fermenting food-stuff.

**LOWERED VITALITY**

lessens your animal's ability to resist disease and the poisons slowly accumulating in the blood make DISEASE CERTAIN unless proper precautions are taken. An extra cold night, a draft in the stable or exposure to inclement weather, while the horse is in this condition and 99 horses out of every 100 ARE at this season and the animal has a "Cold,"—which may develop into PNEUMONIA or INFLAMMATION OF THE LUNGS and END IN DEATH.

Don't wait until this occurs. Keep the Vital energy of your horse at top notch and insure him against all forms of disease by the regular use of

**FAIRFIELD'S BLOOD TONIC FOR HORSES ONLY**

the Scientific Condition powder that makes Winter foods digestible and nourishing by adding to them the chemical elements contained in their natural saps and juices.

Fairfield's Blood Tonic for Horses Only cuts down feed bills by enabling your horse to secure ALL the nutrition from his food, instead of only a PART of it as he does at present. It prevents and cures disease and puts your horse in the Pink of condition for the Spring work. It's Small Dose makes it exceedingly economical and it is sold under a written guarantee by dealers named in small advertisements on other pages, who also carry
