SOME USEFUL INFORMATION FOR FARMERS—READ IT

**Ideal Ranges for Turkeys**—Care of Horses Legs—The New Rope Halter. Many Helpful Notes in Raising Poultry—Care of the Team.

Too many poultry yards look like bare prisons.

It is not so much in the breed as in the care and feed.

Damp houses are the greatest promoters of disease among fowls.

If you intend to raise chickens for meat, do not invest in egg breeds. More fowls die from bad ventilation and over crowding than any other cause.

If you intend to build a new poultry house set it facing the south and leave the front open.

The natural grain feed of fowls is hard grain when in confinement.

Never kill a chicken just before it is to be prepared for the table.

Twelve hours, at least, should elapse. Ducks are practically immune from cholera, croup and gapes.

Their favorite diseases are spinal meningitis and paralysis.

Fowls that are to be marketed early should now be fed all they will eat of flesh producing food with a liberal supply of charcoal.

Leghorns are the most desirable fowl for heavy egg production. You can no more combine eggs and meat than you can butter and beef.

Early market make that a study, work for early hatches, then force the chicks along so as to be ready for market.

It goes without saying that turkeys will not flourish in confinement of any sort. No one should undertake to grow them unless he has ample range for them, because they must have entire liberty or they will not make progress.

Meadows, pastures, and, after harvest, grain fields are ideal ranges for turkeys. They are busy foragers and the insects they find give them the meat food that is necessary to their best development. If the owner will attend to giving them a moderate grain feed every day he will find that his care and the cost of the feed will be returned many fold when it comes time to put birds on the market.

A slight change in the ration of the team occasionally will be appreciated.

Look after the horse's teeth frequently. Many a serious case of indigestion has started here.

A well-kept harness adds to the appearance of the team but it cannot make a poor team attractive.

If the horse's mane is heavy and inclined to work under the collar, thin it out, because it would certainly cause a sore spot.

Sometimes a feed of cabbage just before using a horse that slobbers from eating clover, will prevent the unpleasant loss of saliva.

Now, while hogs are high, is a good time to get a start of good hogs. Getting a start of good hogs comes quickly, as they breed fast and mature quickly.

A well-matched pair of pure-bred draft mares ought to be worth, in spite of the autos, \$1,000 apiece, and properly bred stallions will bring even more than this.

One of the largest steers ever slaughtered in the west was killed at San Francisco. On the hoof the steer weighed 2,500 pound and dressed 1,500 pounds net.

For lice on horses, take half pint of kerosene in two gallons of water, and wash the horse with this twice, with an interval of two or three days between applications.

Every stockman knows how inconvenient a stiff new rope halter can be. New rope may be made as pliable as old, it is claimed, by simply boiling it for two hours in water. Then hang it in a warm place and dry it thoroughly.

On the appearance of any lump about the legs of a horse, it should be bathed diligently with water as hot as can be borne. What might develop into a spavin may sometimes in this way be checked at the start.

It is of the utmost importance that the farm census of this state be complete and correct.

Therefore every farm owner and tenant should promptly, fully and accurately fill up the "Advance Farm Schedule" and carefully preserve it for the enumerator when he calls.

**Safe and Sure**

Among the medicines that are recommended and endorsed by physicians and nurses is Kemp's Balsam, the best cough cure. For many years it has been regarded by doctors as the most likely to cure coughs and it has a strong hold on the esteem of all well-informed people. When Kemp's Balsam cannot cure a cough we shall be at a loss to know what will. At druggists and dealers, 25 cents.

**Paint Your Letter Boxes**

The Postoffice Department has directed postmasters to ask the patrons on rural routes to paint their letter boxes and the posts to which they are attached, white, and have painted on the box, in large letters, their name and the number of their box, in black.

A healthy man is a king in his own right; an unhealthy man is a happy slave. Burdock Blood Bitters builds sound health—keeps you well.
