That dull headache, dizziness and blurred vision are sure signs of weak eyes.

We have been doing this for many years therefore we are sure of what we say. If you have the slightest eye trouble consult us which is free. If we can't give you satisfaction we don't want your money, our charges are the very lowest possible for first class work.

Your eyes examined and glasses fitted from \$1 up. Examination in the evening as well as in day time.

There are envious men who can hear no person praised without interposing a doubting "but." They throw their cold water "but" at everybody.

A Dutchman being called upon for a toast, said: "Here ish to de heroes who fit, pled and died at de pattle of Punker Hill—of who I ish one of dem.

One of the greatest proofs of mediocrity is not to be able to recognize superiority where it really exists.
