### Barn Burned

MR. ABRAM ESHLEMAN MEETS WITH A HEAVY LOSS

Lightning Strikes A Barn Three Miles

An eye witness said a bolt struck the barn in the center on the roof and in very short order the entire roof was ablaze. By the prompt action of Mr. Eshleman's son assisted by neighbors who hurried to the scene, all the cattle, horses, mules and hogs were removed to a place of safety, but the latter only after some difficulty, as they ran into the burning buildings several times. There are 120 acres on the farm and the barn was the largest in that entire section, it being 100x68 feet. All the contents were destroyed which were 800 bushels of wheat that had already been threshed and stored in the granary, oats, all the straw, nearly 100 bushels of seed wheat that Mr. Eshleman had purchased, entire hay crop, twelve acres of very fine tobac-co, nearly all the harness, some farm-

ing implements and a few chickens.

The buildings destroyed were a barn, hog sty, chicken house, carriage house, scale house, and a large tobacco shed.

The farm was purchased by Mr. Eshleman only four years ago this Fall from Mr. Henry Biemesderfer

### Engine Was Accepted

The large new chemical engine purchased by the Salunga Fire Company was received last week and was finally tested on Saturday evening before a large crowd of people. It extinguished a big blaze very quickly and was pronounced O. K. by all that witnessed the work. It con-tains two large 35-gallon tanks and will certainly aid considerably at fires in that village.
