Boro Council

MANY STREETS WERE ORDERED MACADAMIZED

Water Main Will be Extended on the Columbia Road for the Benefit of Universal Hardware Works—Post Office will be Painted—Other Improvements Ordered

Our Boro Dads, Messrs. B. S. Dillinger, Geo. H. Brown, Jonas Risser, C. Mumma, Jno. G. Reist and Wm. Randall, with Burgess Hoffman and Clerk Feltenbaum met at 8 o'clock Monday evening and a busy session it was.

A communication from a New York City Causality Co. was read by the Clerk, stating that boiler at water works was examined and showed a few defects. These, Mr. Dillinger of the Water Committee, reported were attended to and the committee had at one time decided to recommend the purchase of a new boiler, but as the inspector said the present one, with the repairs made, would safely carry 85 pounds of pressure to the square inch and pumping engineer, George Shatz never carries over 65 pounds of steam, it would do for some time as yet. The defects resulted from deterioration due to age.

Burgess' Report
The report of Burgess Hoffman showed that his collections for the past Councilmanic year totaled \$1,534.03 all of which was turned over to the treasurer. \$729 of this money was revenue from hotel licenses. The Burgess reported having issued a mad dog proclamation and recommended the following: Purchase enough additional water plugs to complete the uniformity through the town; purchase a car of hoken block; get bids for stone until the next regular meeting; see what streets should be macadamized and paint the post office. All these recommendations were ordered.

Street Committee
Mr. Reist of the Street Committee reported having kept all crossings clear of mud and snow; repaired Oak Alley east of Poplar street; and recommended macadamizing the following streets: Poplar Street, from Marietta Street to Columbia Avenue; Brady Alley; David Street; High St. from Main to Mount Joy Street; Lumber Street from Main to West Donegal Street; and recommended the purchase of a carload of paving brick. All these recommendations were ordered. In macadamizing Poplar Street, President Brown was of the opinion that the macadam should be continued from Poplar east on Columbia Avenue to Market but Council did not see it that way.

Water Committee
Mr. Dillinger of the Water Committee, reported a leak in the boiler at water works but that same had been repaired; plugs flushed on Saturday and all are in good condition; recommended four new 5 ft. plugs and two 4-in. offsets which will complete the new fire hydrant system through the town, and stated that Mr. Ed. Ream was charged \$24 a year water rent and upon investigation he finds that Mr. Ream is paying \$5.50 too much. All his recommendations were ordered together with a \$5.50 rebate for Mr. Ream.

Finance Committee
Mr. Tyndall of the Finance Committee reported the approval of a number of bills all of which were afterward paid.

Property Committee
Mr. Mumma of the Property Committee, reported lock at engine room replaced, repaired toilet in Council Chamber, ordered coal, and recommended repainting the post office and the placing of new hitching posts and rails about the post office. His recommendations were ordered.

Light Committee
Mr. Mumma of the Light Committee reported a few lights out and that all were promptly attended to after being reported to the Light Company.

Special Committee
Mr. Dillinger of the Special Committee reported having met the special committee from the Fire Company and could not fully decide as to the table or tables. It was finally decided that three or four small tables that could be placed so as to make one large table when all meetings were held. They could be used as individual tables by the firemen.

There were no reports from the Supervisor, Pumping Engineer, Chief of the Fire Departments or High Constable.

Board of Health
Mr. J. E. Hoffer of the Board of Health, reported one case of typhoid fever but that it was a secondary case. With this exception the general health of the borough is good. It was decided that he should not reply from State authorities relative to our supply.

Council on behalf of the Universal Hardware Works. He stated that a new plant was soon to be erected and asked to have a two-inch main extended from Marietta Street to the boro limits. President Brown objected to laying the main at the borough's expense on account of the industry being outside of the boro. Mr. Reist said it would be a benefit to have this industry and that the borough would derive revenue from the water used. Upon motion the committee was ordered to extend the main at the boro's expense to the boro limits and that Mr. Rollman be given permission to make a connection. The vote was five for and one against.

Treasurer's Report
The report of the Union National Bank treasurer showed a balance of \$731.17 in the Borough account and \$3,493.35 in the Water account. A number of bills were paid and Council adjourned.

STOLEN, THEN ABANDONED

Two Large Bags of Chickens Found at Keagle's Mill

Two large bags that bulged with their contents were found on Sunday morning along the banks of the creek at the bridge at Keagle's mill. There was some suspicion at first as to what the bags contained, and several people who saw them were afraid to investigate. Finally one man with more courage than the others opened the bags.

Each bag contained 25 dead chickens. All were plump and consisted of brown and white Leghorns and Plymouth Rocks.

That the chickens had been stolen there is no doubt, and it is believed that the thieves became frightened, and rather than be caught with the goods threw them away. The chickens are held at the mill for identification. From whom they were stolen could not be learned. That they had been stolen on Saturday was evident from the fact that the blood was still fresh.

This slight increase will in no way effect the many farmer lines that are connected with the company's exchange.
