Eighth Ward, Lancaster City
Subject to Democratic rules, Primary Election, Saturday, September 30.

Election Pointers

INFORMATION THAT WILL STRAIGHTEN OUT AMENDMENT TANGLES

Defining the Terms of Office—Candidates For School Directors Must Decide on Length of Term He Wishes to be Elected For

Following is some valuable advice that will help straighten out the election tangles caused by amendments:

At the fall primary election on Saturday, September 30, "Each elector shall have the right to receive the ballot of the party for which he asks; Provided, That if he is challenged, he shall be required to make oath or affirmation that, at the last preceding election at which he voted he voted for a majority of the candidates of the party for whose ballot he asks.

"Upon executing such affidavit the voter shall be entitled to receive the ballot for which he has called, and to cast his vote according to law."

The number of signers required upon petition to have a candidate's name printed upon the primary ballot for any office voted for by an entire county is fifty.

For borough and township officers the number required is ten.

Petitions to all other offices are to be filed with the County Commissioners. The last day for filing is Saturday, September 9, 1911.

Borough and township officers may also be nominated in accordance with the party rules by filing certificates of nomination with the County Commissioners at least eighteen days before the day of election.

Nominations may also be made by "nomination papers," but only by using a party name different from that of any party that heretofore polled two per centum of the total vote in the district for which the nomination is made.

Blank forms of petition for all offices are supplied by the County Commissioners.

Terms of Public Office
The following table, made up from the schedule for the amendments, and the act of March 2, 1911, entitled, "An Act to carry into complete operation the amendments," etc., will give information as to the expiration of terms of those now in office and of those to be elected this year. The act does not affect the terms fixed by the schedule, but only those not so provided for.

Justices of the Peace, aldermen and magistrates elected in 1906 will serve until the first Monday in December, 1911.

Those elected in 1907 and 1908, until the first Monday in January, 1914.

Those elected in 1909, until the first Monday in January, 1916.

Those elected in 1910, until the first Monday in January, 1915.

Those elected in 1911, will serve from the first Monday in December, 1911, until the first Monday in January, 1918.

The terms of the successors to these officers will hereafter be six years, except those elected to succeed those whose term expires on the first Monday of December of any year and they will serve six years and one month, so that, in the future, all terms will begin on the first Monday in January following the election.

The terms of public officers which have heretofore been fixed at three years shall each be lengthened one year.

School Directors
If the number of school directors to be elected for terms of different lengths, each candidate must specify on his nomination petition the term for which he is a candidate.

There will be three groups of candidates on the ballots for this office this year, headed as follows:
School Director—six years.
School Director—four years.
School Director—two years.

Each candidate must decide for which term he will be a candidate. Cumulative voting is not allowed; that is, if a candidate receives votes under each term, these votes cannot be consolidated, as each term is considered as a separate office.

The same rule applies to other offices where candidates are to be elected to the same office for different terms of different length.

Terms of Officers
All municipal officers elected to four year terms in 1907 will serve until the first Monday of December 1911.

All municipal officers elected to three year terms in 1908, will serve until the first Monday of December 1911.

All such officers elected to four-year terms in 1908 will serve until the first Monday in January, 1914, except in cities, of the third class, where they will serve until the first Monday in December, 1911.

All officers elected in 1909 to either three or four year terms will serve until the first Monday in January, 1914.

All officers elected at the February election, 1910, to terms that were heretofore one year or two years, will serve until the first Monday in December, under this providence, was the office of assessor, which was no doubt an oversight, as the term of month or until the first Monday that office has for many years, been three years. The assessors elected in 1911 will serve four years and one month or until the first Monday in January, 1916.

Farmers' Column

VALUABLE INFORMATION FOR OUR SUBURBAN FRIENDS

The Value of Sheep Manure—No Danger of Glutting the Egg Market—Getting Rid of Borers—The Raising of Hogs—Soil Cultivation

Wagons, rakes, forks, and everything should all be in good order before the harvest begins.

Those who are finding fault with farm life should visit the city and enjoy (?) its conveniences these hot days and sultry nights. One day and one night will be sufficient to take you back to the farm.

Cultivation of the soil checks the evaporation of moisture, consequently has a tendency to make the soil warmer. Cheeking the evaporation also increases the supply of available moisture in the soil and allows the air to enter more freely.

Consequently in cultivating one has a means by which he can largely control the available moisture in the soil. In this way the corn grower has the advantage of the grain grower, because the grain grower loses control of his crop as soon as it is needed, while the corn grower can do many things to regulate the condition of his soil by means of cultivation.

As a remedy for potato blight, you can spray with either Bordeaux mixture or with dilute lime-sulphur solution. The Bordeaux mixture is made by dissolving three pounds of lime in fifty gallons of water. If you have the beetles or bugs present and two or three pounds of arsenate of lead to this. The lime sulphur solution will probably do as well as the Bordeaux mixture, this is not fully proven, although I used it all right three years ago. This is made by using one gallon of the strong lime sulphur solution, either home made or commercial, in twenty-five gallons of water.

In making Bordeaux mixture, dissolve the copper sulphate, bluestone by suspending it over night in a burlap bag just beneath the surface of the water, or put it in boiling water, using at least one quart to the pound and dilute to 25 gallons. Stake the lime in sufficient water to prevent burning. Dilute to 25 gallons, strain and add to the copper sulphate solution, stirring the mixture vigorously while mixing.

There are two distinct groups of chicken lice, the little red ones which are mostly on the fowls at night, and remain during the day on perches or in the nests, or elsewhere in the poultry house, or near their roosting places; and second, those which remain on the fowls practically all the time. These are generally larger, and gray in color.

For the former, the best thing to do is to spray the poultry house thoroughly with kerosene or kerosene emulsion, or strong lime sulphur solution, or strong soap solution or perhaps best of all a five per cent. kerosene solution. One part creolin in twenty parts of water will destroy every one that it touches, and will act as a fungicide to destroy disease germs, as well as destroying the lice. At the same time, change straw in the nests, burning the old straw, and spray or wash the empty nest boxes.

For the lice on the fowls, you should dust them with a mixture of flowers of sulphur, hellebore, tobacco dust, and pyrethrum, about equal parts, holding the fowls by the feet head downward, and rub this dust into the feathers. You can obtain some literature on this subject from the U. S. Department of Agriculture, Washington, D. C.

Sale Register

If you get your posters printed at this office we will insert a notice like the following in the register FREE from now until day of sale. As we have an exceptionally large circulation this will thoroughly advertise your sale and remember it costs you nothing.

Saturday, Aug. 12—At the Farmer's Inn Stables, Mount Joy, a carload of fine Erle County Colts and a few good broke horses by Mr. Ed. Ream, Zeller, Auct.

Thursday, August 31—On the premises of John G. Helsey near Riser's Church, a large lot of very good household goods by Harriet Helsey, Zeller, auct.

Tuesday, Sept. 5—On the road leading from Mt. Joy to Green Tree meeting house, 1/2 mile north of Mt. Joy, a tract of land containing 9 acres with frame dwelling, barn and other outbuildings by Morris N. Stauffer, Zeller, auct.

A Little Extra Tax

A new tax sweeping in its effect will follow the enforcement of the new school code. This is the poll tax for the contributory maintenance of the schools in all cities, boroughs, townships and rural districts with the exception of Pittsburgh and Philadelphia. The new tax which amounts to not less than \$1.00 per person, will provide thousands of dollars and have the effect of lessening the burden hitherto borne wholly by property holders. There is to be no loophole by which those disposed to evade their new responsibility may escape, it having been provided that employers shall deduct the poll tax from the wages of the employees if they fail to pay voluntarily.

D. SWIFT & CO.

Best Food for Babie

If you are having trouble with the boy's food, and nothing seems to agree with it, you can probably get your child to take A. D. S. Malted Milk retain it and thrive on it, as it is a particularly nourishing, satisfying and carefully made preparation, intended especially for troublesome stomachs of both infants and adults.

It is one of the standard, reliable American Druggists' Syndicate products, and its use is unhesitatingly advised by the entire 12,000 druggists who are A. D. S. members, and know its true value. There is nothing in it to prove harmful to the baby—no drugs or medicines. It is merely a scientifically made article of food, which you can rely upon. This is the way they speak of

A. D. S. Malted Milk
Mr. V. G. Newell, a prominent druggist of Warren, Pa., says: "Gentlemen—Enclosed you will find a picture of my youngest boy, whose LIFE WAS SAVED BY A. D. S. MALTED MILK. "That sounds like a pretty big story, but here are the facts: "John Winston Newell was born January 29, 1909, and after the first week his mother was unable to nurse him. He was put on a well advertised brand of malted milk, and at 5 weeks weighed only 7 1/2 pounds, was very thin and showed symptoms of starvation. Then we put him on A. D. S. Malted Milk and he began to gain at once. At 5 months, when this picture was taken, he weighed 15 pounds. We cannot recommend it too highly."

Round Shoulders
A Sign of Old Age

It is possible for every woman to have that erect, commanding, graceful appearance typical of the perfectly formed woman.

Rexall
SHOULDER BRACES

correct any tendency to become stooped shouldered, compel deep breathing and do this without the uncomfortable sensation produced by most braces. These Braces are constructed entirely of cloth, have no metal parts to bind, rust and break and may be worn without your knowledge except as you assume an incorrect position. Rexall Shoulder Braces, we believe to be equally beneficial for man, woman or child. All sizes—just send your chest measurement. Price, \$1.00

A Very Special Cut On Refrigerators

Our very heavy sale of NORTH STAR and INDIANA REFRIGERATORS has shown we were overstocked on a few of the larger sizes.

We are particularly anxious to move these, and have decided to cut them to the price of REFRIGERATORS one and two sizes smaller.

NORTH STAR CUT 1-5 ACTUAL PRICE
Was \$44.00—250 lbs. capacity; now \$35.20.
Was \$42.00—135 lbs. capacity; now \$33.60.
Was \$31.00—120 lbs. capacity; now \$24.80.
Was \$26.00—110 lbs. capacity; now \$20.80.

INDIANA CUT 1-4 ACTUAL PRICE
Was \$21.50—125 lbs. capacity; now \$17.20.
Was \$24.00—110 lbs. capacity; now \$18.00.
Was \$19.00—100 lbs. capacity; now \$14.25.

Remember, there are only a few of each size. Don't miss this opportunity to get a good, large REFRIGERATOR at the price of a small one, and a long Summer use in the bargain.

Concrete Concrete

The world has been crying for a better, stronger and more durable fire and water proof building material; something that is warm in Winter and cool in Summer and at the same time inexpensive. What material will answer this purpose better than Concrete? The United States as well as all the foreign countries are establishing concrete as a standard for all kinds of construction work as it has all these qualifications and last but not least durability. I would suggest that if any one is in doubt as to the material, manner of construction, etc., that they call at my place of business and see what I have to offer. I will guarantee a satisfactory job and my best evidence is to have you call on people for whom I have erected entire buildings and hear what they have to say.

Permit me to give you a demonstration of the advantage of buying from me. If a man went into a store for a hat, he would be quite disgusted if his only selection would be a black stiff hat or a black felt hat wherein his intention was the purchase of a gray, brown, red or blue hat. Suppose a man is interested in building a home or some other building. I can show him many different designs or combinations of building blocks in almost any color desired. I can't help but have something that will please you.

I invite you to call and see what I have to show you in this line. Get my prices and make comparisons with others. Am equipped to do all kinds of Concrete Work. Best Quality of Cement for sale, will guarantee all concrete and building blocks waterproof. What more could you desire? I can save you from 35 to 50 per cent. Having had 27 years experience in building, I will give you the benefit of my vast experience and it will cost you nothing so if interested, call and see in re.

J. Y. KLINE
FLORIN, PENNA
