Can You Beat It? We wish to call the attention of all our readers to the increased amount of news in the Bulletin. We want to impress the fact that this week is a fair average of the amount it will carry weekly. There are between 28 and 30 columns of matter, all good, readable news, some on every page.

In its enlarged form the Bulletin is undoubtedly the best paper for the money in this vicinity. It will be noticed that the character of its news is such that it will interest all. Every line of reading matter was set in this office and its columns are not filled with "prepared stuff." News and news that is news, is what we want and have. We will cheerfully mail sample copies upon request.
