The Week in Grain

Compiled for the Mount Joy Bulletin, at Mount Joy, Pa., by Wm. L. Bear & Co., Pennsylvania Building, Philadelphia, Pa., by D. B. Lehman, Manager, Woolworth Building, Lancaster, Penna.

Phila., Sept. 13, 1911. A pronounced tendency to advance has been apparent throughout the grain list, and the upward movement would apparently have extended to greater proportions than it yet has, had it not been for restricted speculative activity. Foreign news have been of a character to inspire the purchase of grains for investment, not alone by reason of cabled advices, but because of enormous purchases for foreign account on this side and restricted outward movement from other exporting nations. All that has been said of Russian conditions during the crop year, has exercised less effect upon trade sentiment, than the present dearth of Russian cargoes off coast and the limited volume of Russian clearances from week to week. Upon the other hand American clearances of wheat total more than twenty-five million bushels since July 1st as compared with less than fourteen million for the corresponding period of 1910. Outward shipments of corn have shown a similar increase as compared with last year, and in all this outward movement the Continental demands have been so large that English markets have received less than their normal amounts. Bread riots in France, and purchases by Germany of all classes of food and fodder stuffs far in excess of any previous year have directed trade attention very sharply to the crop losses upon the Continent.

The crop report of Sept. 8th, was disappointing in showing less than a point improvement to growing corn during the month of August where fully three points improvement had been popularly expected, and a loss in Oats of one point and Wheat of three where no loss had been anticipated. The outlook is for an excellent demand for all cereal products for both foreign and domestic account, with available supplies below normal.

Not a Word of Scandal marred the call of a neighbor on Mrs. W. P. Spangh, of Manville, Wyo., who said: "she told me Dr. King's New Life Pills had cured her of obstinate kidney trouble and made her feel like a new woman." Easy, but sure remedy for stomach, liver and Bernhart & Co's., Mount Joy, Pa.

THREE BIG CONVENTIONS

The Lutherans to Hold Three Great National Conventions in Lancaster

The General Council of the Evangelical Lutheran Church in North America will hold three conventions in Lancaster, each of which, in itself, will be a notable event. The first of these is the Conference of Women's Missionary Societies; the second is the Laymen's National Convention; and then will come the regular Biennial Convention of the General Council. There will be representatives from those to consist, and from Canada and South Carolina.

The aim of the Women's Conference is to form a Federation of the Synodical Women's Missionary Societies. The congregational societies, several years ago, were organized into Conference societies; the Conference societies were later organized into Synodical societies; and now it is the purpose to organize the Synodical societies into a Federation that is nation-wide. This first national meeting was held in Trinity Chapel, on S. Duke St., the 11th and 12th of this month.

The Laymen of the General Council, consisting of the lay delegates, and such other laymen of the General Council as may be in attendance, will hold their convention in the Martin Auditorium, Y. M. C. A. Building, on Wednesday the 13th, afternoon and evening. It will be the first attempt to get these laymen together in a great Forward Movement. A series of topics have been arranged touching every national Church interest; and there, no doubt, will be some stirring speeches. The mass meeting will be of general interest. It should, in particular, call Lutheran laymen from all parts of the county.

The chief interest will center in the sessions of the General Council. These will begin Thursday morning, the 14th, and will continue till the following Tuesday night. The evening sessions will be given to the subjects of Home Missions, Foreign Missions, Inner Missions, and education. There will be representative speakers from all parts of the United States and Canada.

Its benevolence, each year, amounts to half a million dollars. Its Sunday-Schools number 1240, with a membership of 300,000. The sum of \$20,000,000 expresses the value of its church property. Woman's Danger Periods Made Safe

By Lydia E. Pinkham's Vegetable Compound

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Here is proof:

Natick, Mass.—"I cannot express what I went through during the Change of Life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold. I had creepy sensations and could not sleep nights. I was finally told by two physicians that I had a tumor. "I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it has worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others who may publish this letter."—Mrs. Nathan B. Greaton, 51 No. Main St., Natick, Mass.

ANOTHER SIMILAR CASE.

Cornwallville, N. Y.—"I have been taking Lydia E. Pinkham's Vegetable Compound for some time for Change of Life, nervousness, and a fibroid growth.

"Two doctors advised me to go to the hospital, but one day while I was away visiting, I met a woman who told me to take Lydia E. Pinkham's Vegetable Compound. I did so and I know it helped me wonderfully. I am very thankful that I was told to try Lydia E. Pinkham's Vegetable Compound."—Mrs. Wm. Boughton, Cornwallville, N. Y., Greene Co.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.
