Concrete Concrete

The world has been crying for a better, stronger and more durable fire and water proof building material; something that is warm in Winter and cool in Summer and at the same time inexpensive. What material will answer this purpose better than Concrete? The United States as well as all the foreign countries are establishing concrete as a standard for all kinds of construction work as it has all these qualifications and last but not least durability. I would suggest that if any one is in doubt as to the material, manner of construction, etc., that they call at my place of business and see what I have to offer. I will guarantee a satisfactory job and my best evidence is to have you call on people for whom I have erected entire buildings and hear what they have to say.

Permit me to give you a demonstration of the advantage of buying from me. If a man went into a store for a hat, he would be quite disgusted if his only selection would be a black stiff hat or a black felt hat wherein his intention was the purchase of a gray, brown, red or blue hat. Suppose a man is interested in building a home or some other building. I can show him many different designs or combinations of building blocks in almost any color desired. I can't help but have something that will please you.

I invite you to call and see what I have to show you in this line. Get my prices and make comparisons with others. Am equipped to do all kinds of Concrete Work, Best Quality of Cement for sale, will guarantee all concrete and building blocks waterproof. What more could you desire? I can save you from 35 to 50 per cent. Having had 27 years experience in building, I will give you the benefit of my vast experience and it will cost you nothing so if interested, call and see me.

Power of a Picture. We gazed at the famous picture of "The Doctor" in silence that could be felt, and I tell you it fairly made me hold my breath and a lump come in my throat as I looked first at the suffering child and then at the kind doctor, with his grave face, and then at the father and mother in the background, and as for Smart, I don't mind telling you I saw the water in his eyes, and presently a great big tear rolled down his cheek as he said: "Isn't that wonderful? I suppose as a tailor I should be looking at the style of the M. D.'s clothes; but, man, I'm human, and when there is a picture that appeals like that to the great heart of humanity, why, I just forget all about my trade and think only of my humanity. Come on," he added. "I can't stay longer to look at that, for it reminds me too much of a little one I lost. Here you are," he said—"here's something more in our line. Dr. Johnson waiting for an audience with Lord Chesterfield. Here's comedy, if you like. And now we may examine the clothes."—London Tailor and Cutter.

Despair and Despondency No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued. Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism. IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL. It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It fits for wifehood and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you as "just as good." It is non-secret, non-alcoholic and has a record of forty years of cures. Ask Your Neighbors. They probably know of some of its many cures. If you want a book that tells all about women's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N.Y.
