Rheems Farmers

INTERESTING SESSION HELD IN THE SCHOOLHOUSE

On Saturday evening, in the Rheems schoolhouse, a very interesting meeting of the Farmers' Association was held. B. F. Garber was in the chair and there was an encouraging attendance.

"Purer Milk on the Farm"
"How to Produce Purer Milk on the Farm" was the subject of a talk by Dr. R. C. Gross, Elizabethtown. He said it was important to first see to the health of the calf and animal. The subject of tuberculosis is a very important one. The farmer should be acquainted with the tests for tuberculosis. Dr. Marshall of the State department, will furnish any information. Too often the farmer objects to losing \$25 on a cow, when it is of great benefit to him to have it killed. The killing of a tubercular cow will save something as much as \$100 or \$200. The milk from an emaciated cow should not be used. When a cow's udder is three-fourths inflamed the milk should be sent away for inspection. Sometimes when a cow is apparently well it has tuberculosis. The disease affects animals differently. The speaker said he was called upon recently to treat a cow for a tumor and he found it had tuberculosis. The best time to treat any disease is in its infancy. There are diseases of cattle which can be transmitted to man. Some of them are not curable. Glanders is one of the diseases of the horse which can be communicated to man. In detail, Dr. Gross told of the symptoms of this disease and he said it sometimes kills human beings. The grooming of cattle is most important before milking. Freedom from dust helps to prevent milk from turning sour. The heating of milk the udder is most important for pure spots it more readily. Cleaning of milk. Too often the udders of cows are the dirtiest part of their bodies. Milk is practically of no use to the cow if not taken by hand it will find a way from the animal's body. Exercise is very important for the cow. The speaker illustrated how with the use of concrete and gas or water pipe, a combination rack and trough may be built. He did not favor the use of manure. He illustrated management can be made to

A Girl's Wild Midnight Ride

To warn people of a fearful forest fire in the Catskill a young girl rode horseback at midnight and saved many lives. Her deed was glorious but lives are often saved by Dr. King's New Discovery in curing lung trouble, coughs and colds, which might have ended in consumption or pneumonia. "It cured me of a dreadful cough and lung disease writes W. R. Patterson, Wellington, Texas, "after four in our family had died with consumption, and I gained 87 pounds." Nothing so sure and safe for all throat and lung troubles. Price 50c. and \$1.00. Trial bottle free. Guaranteed by S. B. Bernhart & Co.

SALUNGA

Monday and Tuesday Root and Baker shipped one hundred cases of tobacco from the Kendig warehouse.

Andy Garber's dam is the attraction at present and all lovers of skating center on the natural park for lovers of winter sports.

The kind dispenser of all good things has furnished old earth with a blanket of white that seed time and harvest may come in due season and not fail.

Tobacco is showing up nicely as it comes to the warehouses. Occasionally a careless handler sends in a damaged lot and for his carelessness gets docked.

Elizabeth Peifer attended the concert at the First M. E. church on Thursday night and on Friday night Miss Peifer and Miss Susan Nissley attended the Lyceum at Rohrerstown.

The Salunga Ladies' Auxiliary of the General Hospital, Lancaster, held their regular monthly meeting at the home of Mrs. Bassler in Landisville on last Wednesday. BAIRNBRIDGE

Mr. and Mrs. Siles Yerkes of this place on Sunday celebrated their 20th wedding anniversary, the china number. They received a number of handsome pieces of ware. The ages of the younger present ranged from 41, 42, 43, 44, etc. Prof. H. S. Brinzer gave a short address. Guests were present from all sections.

Fortune Telling

Does not take into consideration the one essential to woman's happiness—womanly health. The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is butidross. Womanly health when lost or impaired may generally be regained by the use of Dr. Pierce's Favorite Prescription.

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and this too in the privacy of their homes without their having to submit to indelicate questionings and offensively repugnant examinations.

Sick women are invited to consult Dr. Pierce by letter free. All correspondence held as sacredly confidential. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce's GREAT FAMILY DOCTOR BOOK, The People's Common Sense Medical Adviser, newly revised up-to-date edition—1600 pages, answers in Plain English hosts of delicate questions which every woman, single or married, ought to know about. DELICATE CHILDREN

Made Strong by Vinol
"I wish I could induce every mother who has a delicate, sickly child, to try your delicious cod liver iron tonic, Vinol."

"It restored our little daughter to health and strength after everything else had failed. It tastes so good she loved to take it—not a bit of cod liver oil taste.—Mrs. C. W. Stump, Canton, Ohio."

The reason Vinol is so successful in building up puny, delicate, ailing children, is because it is a combination of the two most world-famed tonics—the medicinal body-building elements of cod liver oil, aided by the blood-making and strength-creating properties of tonic iron.

If we can induce you to try a bottle of Vinol as a body-builder and strength-creator for your child, and you do not find it is all we claim, we will return your money on demand.
