Xmas Club

A VERY GOOD WAY TO SAVE A LITTLE MONEY.

The First National Bank of This Place, Offers an Easy Plan to Provide Money—Club Opens Monday, January 29th, 1912.

Everybody needs money for Christmas. Many people have trouble in providing a sufficient sum to buy all the presents needed when the time comes. The First National Bank of this place, offers an easy plan to meet such a contingency.

On Monday, January 29th, it will start a Christmas Saving Club. The members will pay in a small amount each week for fifty weeks and at the end of that time will receive checks for the total amounts they have paid in plus an additional 3 per cent. interest. The plan is simple and systematic. There will be different classes of members. For instance, one class will start in by paying one cent the first week, two cents the second week, three cents the third week and so on for fifty weeks, the last week's payment amounting to fifty cents.

Members in this class will receive checks two weeks before Christmas for \$12.75, with interest, or they may reverse by paying fifty cents the first week, and paying one cent less each succeeding week, which brings the last week's payment down to one cent. There will also be classes starting with two cents and five cents. Payments must be made very promptly every week or in advance for as many weeks as may be convenient.

It will not only prove beneficial to grown people, but will prove very popular with young people. It is very simple and the details are easily understood when explained. Everybody is welcome to join and the First National Bank will be pleased to have those interested call and learn all about it. Those desiring to become members can join on January 29th, 1912.

For fuller details read the bank's spacious ad on another page of this issue.

Lancaster Attorney Absconds

The sudden disappearance of Ex-District Attorney W. T. Brown, and a letter received from him by another attorney, in which he acknowledges that he has appropriated client's money to his own use, created a sensation in Lancaster on Monday. The letter was mailed at Harrisburg and while it contained no intimation of the writer's intentions, it is generally supposed that he has left for parts unknown.

The amount of his embezzlement cannot be told until all the facts are known, but it is indicated by his letters that it may reach \$25,000 or more.

Is Still Buying Tobacco

It is rumored that the man representing himself as the president of an Allentown cigar company, who is promising farmers twelve cents for tobacco, if they subscribed for \$25 worth of stock in his company, is working between Ephrata and Martindale. At last reports he is said to have been going eastwardly. The stories afloat have it that he secured two subscribers and probably three or four more.

MATTERS IN COURT

Herald Printing Company of This Place Brings Suit for Interest

In Common Pleas Court on Monday a non-suit was entered in the case of the Herald Printing Company of this place, against Keplinger & Company, of Lancaster. This was a claim for \$10.02, alleged to be due for interest. The defendant had 50,000 circulars printed by the plaintiff company, and it was alleged by the latter that payment of the bill was to be made within thirty days after the delivery of the goods, instead of which it was not made until six months elapsed, and the interest claim was made in consequence. The Court said that inasmuch as there was a written contract for the work and the agreement as to the interest charge was verbal and not mentioned in the contract, there could be no recovery. W. F. Beyer and J. H. Byrne, attorneys for the plaintiff; C. Reese Eaby for defendant.

The case attached for trial Tuesday morning was that of John N. Mumma against Samuel N. Mumma. The parties are brothers, residing in the vicinity of Landisville, and the lawsuit grows out of the settlement of the estate of their father, the late Jonas H. Mumma, of which the defendant was one of the administrators. The amount of the claim is \$3,000, with interest. It was testified that the plaintiff's share of the estate at the time of the distribution was \$5,400. He allowed the money to remain in the hands of the defendant for a few years until, with the accrued interest, it amounted to \$6,800. He then sought a settlement. The defendant gave him a note for \$3,800, which was paid, and for the remaining \$3,000 gave him an equivalent in gold mining stock, including the Ida Mitchell and Landecker securities and the Yellow-stone Railway Company. The plaintiff testified that he accepted these stock certificates on the assurance from the defendant that they were gilded and worth a little more than their face value, and with the understanding that if they should not prove of value the plaintiff should have the privilege of returning them to the defendant and receive cash instead. John Mumma averred that the stocks proved utterly worthless, and that upon being offered at public sale brought a bid of only ten dollars for the entire batch. He then made demand on his brother for the cash which has not been paid. The jury found in favor of the plaintiff.
